Construction update November 28, 2012

North ferry entrance lane and toll booth closed Monday through Friday, December 3 – 14

Beginning as early as 7:00 a.m. on Monday, December 3, there will be a two-week long closure of the north ferry entrance lane and toll booth at the Fauntleroy Ferry Terminal due to Barton Pump Station construction. Crews need to close this lane to conduct jet grouting work, a soil stabilization process that will allow a safe underground work zone for upcoming pump station construction activities.

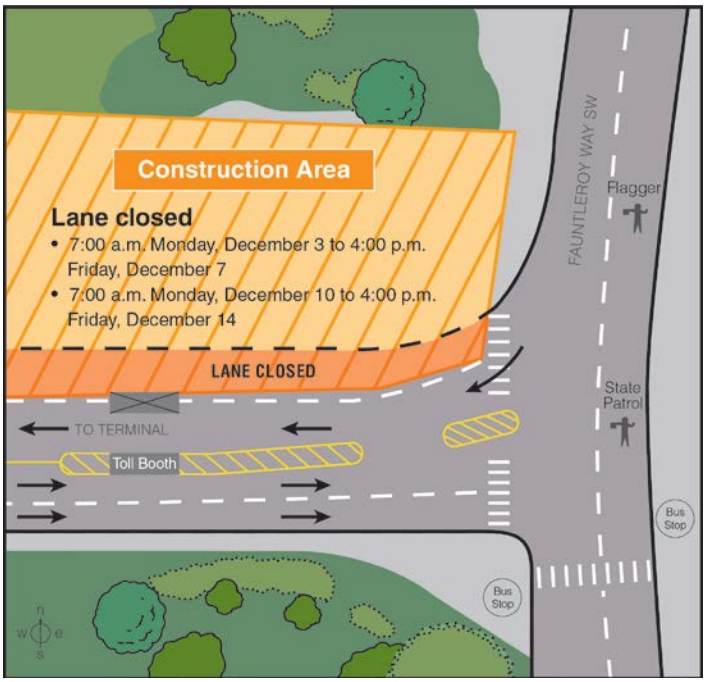
The lane and toll booth are expected to be closed from 7:00 a.m. Monday, December 3 to 4:00 p.m. Friday, December 7 and from 7:00 a.m. Monday, December 10 to 4:00 p.m. Friday, December 14.

Keeping ferry traffic moving

King County has been working closely with Washington State Ferries throughout the project to ensure minimal disruption to traffic along Fauntleroy Way S.W. and to keep ferry traffic moving.

While the lane is closed, commuters can expect extra flaggers to assist pedestrian and bike traffic, and a Washington State Ferries traffic director to split pre-ticketed traffic at the entrance. When unloading ferry traffic is impacted, a uniformed police office will be onsite to direct traffic.

We appreciate your ongoing patience during construction.



Due to jet grouting activity, the north lane and toll booth will be temporarily closed.

What to expect

- Ferry lane and toll booth closure Monday through Friday, December 3 to December 14
- Heavy equipment on site, including jet grouting equipment and water tanks
- Additional flaggers and staff to assist pedestrian, bicycle and auto traffic safely through the site
- Washington State Ferries traffic director to split pre-ticketed traffic at the ferry entrance
- Uniformed police officer to move traffic, when impacted, in and out of ferry terminal entrance
- Work hours typically 7:00 a.m. – 5:30 p.m. Monday through Friday
