Community Open House!

King County is hosting a community open house for Westwood and Sunrise Heights neighbors and Barton Basin residents to discuss the Barton Combined Sewer Overflow (CSO) project. This project is designed to control CSOs at the Barton Pump Station near the Fauntleroy Ferry Dock.

Saturday, October 13, 10 a.m. – noon
Westside School, 7740 34th Ave SW

All ages are welcome! Kids activity table.

The team invites you to join us to discuss:

- Design refinements since the June block meetings
- Updated designs on individual blocks
- Plantings proposed for the bioretention swales
- Maintenance approach for bioretention swales
- RainWise voluntary incentive program

For more information, special accommodations, or questions, contact: **Kristine Cramer**, 206-263-3184 or ***kristine.cramer@kingcounty.gov***.
