

Appendix D: IT Governance Process: From Policy to Implementation

This is a graphical representation of the flow of information into the various tasks and reports for which the technology governance is responsible. For example, while the focus of the Technology Business Plan is on the technology investments in the Executive's budget, it should be noted that the county agency business plans are fundamentally important to support the county in planning for and managing information technology to enable cost-effective delivery of services. The work and reports from the technology governance all build on business plans and policy direction, taking into account the current state of the county's information technology environment.
