***Focused on families and children:*** Established the working relationship between the SCJA and the Juvenile Court Administrators' Association and with the state CASA Association by finalizing the Memoranda of Understanding; began meetings with the Juvenile Rehabilitation Director and staff to save state funds and maintain programs critical to the judges' work with juveniles including funding for the "Becca" law; two of the alternatives were enacted into law; initiated discussions with the Secretary of the Department of Social and Health Services to address concerns for the safety of children arising out of the Department's change to a centralized intake system of reporting child abuse and neglect; these efforts together with those of others, led the Department to return to the former regional approach ensuring greater protection for children at risk of abuse and neglect.
