

KBFI Airport Advisory

To: King County International Airport
Subject: 14R Glide Slope Maintenance Beginning 18 September, 2017
Date: September 12, 2017

The Federal Aviation Administration will be conducting maintenance on the Glide Slope Antenna serving Runway 14R beginning 18 September.

During this time, instrument approaches to 14R will be affected. While crane services are in place, 14L will be out of service.

Applicable NOTAMs will be issued by the FAA for specific outages and closures.

Please contact Airport Operations at 206-296-7334 with questions.
