

## MAVIS BEACON - TYPING

**Mavis Beacon Teaches Typing** is an application software program for teaching touch typing. The program includes a number of speed tests and constantly tracks the user's words-per-minute typing speed; and also includes a number of typing games.

A certificate of achievement can be printed by the user upon the completion of tests. These certificates allow students to see their best typing abilities along with the areas that truly need some help.

There is a curriculum map to make it easier for users to see where they are in the overall training program.

Mavis Beacon will automatically place you in the lessons based on your current skill level and adjust your path as you progress through the training program.

**Games** - There game area is designed to improve your speed, accuracy and/or rhythm. The games area is the favorite destination for any user. Each game provides a fun and motivating way to practice and improve typing skills.

**Practice Content/Area** - The practice content area contains over 325 different sessions, passages and tests with something for everyone in the practice area. Users may hundreds of articles and passages covering a wide variety of topics and subjects including literary classics, history, autobiographies and poetry.
