

King County Industrial Waste Program Rewards and Recognition Program Silver Award criteria

Go to: http://www.kingcounty.gov/environment/wastewater/IndustrialWaste/About/Awards_program/Awards_silver.aspx

The Silver Award is awarded to those, who during the calendar year:

- have had an active industrial wastewater discharge permit* each month and have discharged industrial wastewater at least three months;
- have had no King County-issued enforcement actions or violations;
- have no more than one late report record in the program's information management system database (with the single late report allowed not resulting in the issuance of a final notice letter for a late report); and
- had not exceeded the number of self-monitoring violations** allowed, as follows:

<u>Sampling frequency</u>	<u>No. of samples per year in violation</u>
Semi-annual/quarterly	0
Monthly/bi-monthly	1
Weekly	2
Daily	4

*Only facilities with industrial wastewater discharge permits are eligible, with those having Discharge Approvals, Letters of Approval, and verbal approvals to discharge not eligible.

**Note that a monthly average violation is the equivalent of a self-monitoring violation.
