INSTRUCTIONS TO THE OSS OWNER/SYSTEM USER:

Please refer to your OSS owner's operating maintenance and technical specifications manual and Notice on title pertaining to the OSS. Your OSS has limitations! Refer to the Operational Capacity of the System established by the OSS designer. Overloading it or disturbing the soil absorption system (SAS) or treatment device (e.g. drainfield, mound, sand filter, ATU, etc.) may cause the system to prematurely fail. For further information, contact your Health Department Service Center (206) 296-4932
