Department of  
Natural Resources and Parks

**Wastewater Treatment Division**

## What do we do?

We take the **WASTE** out of **WASTEWATER**, by recovering energy, producing a safe soil amendment, and reclaiming water for reuse!

To us, success means clean water. It means honoring our legacy while keeping a promise to another generation that our beautiful environment will be there for them to enjoy.

It also means being accountable to our ratepayers and operating a well-managed agency.

Division employees plan, design, build and operate treatment facilities to clean wastewater before discharging it into Puget Sound.

Our employees also enforce regulations to reduce harmful waste discharged to the system, and we educate the public and businesses on ways to protect water quality.

To learn more about our division, please go to <http://www.kingcounty.gov/environment/wtd.aspx>

## Who are we?

### Your clean water agency!

In 1958, King County citizens established a regional wastewater conveyance and treatment system to clean the polluted waters of Lake Washington and Puget Sound. More than 40 years later, we have dramatically cleaned up the waters of our region. In partnership with other jurisdictions, businesses and individuals, King County continues to protect the public health and environment while recycling and reusing natural resources.

## Employment Opportunities

As an employer, King County attracts and supports employees committed to making a difference in our community. The work we do—health and human services, law enforcement, courts, parks, wastewater, transportation—makes a real difference to our neighbors

King County Wastewater Treatment Division is committed to protecting public health and enhancing the environment by treating and reclaiming water, recycling solids and generating energy. Fulfilling our mission requires a diversity of employees to build, operate and maintain our facilities.

Our award-winning agency offers careers in a wide range of fields. Come join one of the premiere wastewater treatment agencies in the nation.

*King County is an equal employment opportunity employer. We do not discriminate in hiring or employment on the basis of race, color, religion, sex, national origin, ancestry, age, marital or veteran status, disability, sexual orientation (including gender identity), or any protected status.*
