

### South Site Project Update – September 13, 2012

**South site:** Shoring will be removed in West Commodore Way in late September. Near neighbors may experience vibration. Road closure and detour continue through October.

*El sitio del sur: Comenzarán a remover secciones de acero apuntalar en Comodoro de Oeste a finales de septiembre. Vecinos cercanos pueden sentir las vibraciones. El cierre del camino y el desvío continúan hasta finales de octubre.*

**Typical work hours:** 7:00 a.m. – 6:00 p.m. weekdays

**24-hour project hotline/Para más información\*:** 206-296-3848

### SOUTH SITE ACTIVITIES:

Crews are completing the structure that connects the existing sewer pipes to the new siphon pipeline in West Commodore Way. **Shoring will be removed in late September, which may cause increased vibration near the site.** More information about this work will be provided later.

West Commodore Way will be repaired and reopened by November.

The tunnel boring machine and large, concrete tunnel rings to support excavation will be delivered to the site in September and October. Tunneling is expected to begin in October.

*Crews working in the existing 12-ft diameter pipe under West Commodore Way*

King County urges community members to follow traffic control personnel directions and take extreme caution around the project area and detour.

### WHAT TO EXPECT AT THE SOUTH SITE:

- Vibration during shoring removal
- High levels of activity involving crews, excavation equipment and trucks
- Increased truck traffic on and around West Commodore Way
- West Commodore Way road closure and detour
- Possible extended work hours
