

 **King County**

North Creek Interceptor Sewer *Project*

June 25, 2015

North Creek Interceptor – project updates

King County's contractor is continuing construction on this major sewer line project. Some highlight this week:

- **Visit our Information Table – this Saturday, June 27 from 10a.m. to noon.**
1609 - 208th St SE, Bothell – enter at the North Creek Self Storage driveway, building on left. Information will focus on the work happening this summer along 208th, and at the corner of 14th Dr. SE and 208th and pipeline work in the wetlands.
- **Pipeline construction starts!** Beginning this week, the contractor will begin installing the sewer pipe in the wetlands/open space areas along North Creek, starting at the south end of this section, off of 214th Street SE. Some details about this work:
- The contractor has built a temporary construction road and installed erosion control, which will help limit impacts to this area.
- All construction vehicles will have to leave the work area from one of two points – one along Bothell-Everett Hwy, the other off of 208th. Vehicles must go through a wheel wash station before leaving the site.
- The North Creek Trail has been temporarily close during construction. It will be restored and opened again when work is complete.
- There will be some weekend work taking place.
