The Procurement and Contract Services Section Manager shall review the appeal and make a determination in writing, which shall be final. Appeal to the Procurement and Contract Services

Section Manager on claims for additional time or compensation shall be a condition precedent to litigation.

At all times, the Contractor shall proceed diligently with the performance of the Contract and in accordance with the direction of the Buyer or Project Manager. Failure to comply precisely with the time deadlines under this Section 8.1 as to any claim and appeal shall operate as a waiver and release of that claim and appeal and an acknowledgment of prejudice to the County.

8.2 Mediation and Arbitration

If a dispute arises out of or relates to this Contract, or the breach thereof, including any Contractor claim, that is not resolved through the required claims and appeal process set forth in Section 8.1, the parties may, upon mutual agreement, endeavor to settle the dispute in an amicable manner by mediation or other agreed form of alternative dispute resolution process prior to commencing litigation.

8.3 Applicable Law and Forum

This Contract shall be governed by and construed according to the laws of the State of Washington. Any claim or suit between the parties arising out of this Contract may only be filed and prosecuted in King County Superior Court or U.S. District for the Western District of Washington, in Seattle.

SECTION 9 TERMINATION

9.1 Termination for Convenience/Default/Non-Appropriation

A. Termination for Convenience

This Contract may be terminated by the County without cause, in whole or in part, upon providing the Contractor ten (10) Days' advance written notice of the termination. If the Contract is terminated pursuant to this Section 9.1.A, the County will be liable only for payment in accordance with the terms of this Contract for Work performed and Accepted prior to the effective date of termination.

B. Termination for Default

If the Contractor does not perform the Work, or the Contractor fails to perform in the manner called for in the Contract, or if the Contractor fails to comply with any material provisions of the Contract, the County may terminate this Contract, in whole or in part, for default as follows:

1. A "notice to cure" shall be served on the Contractor by certified or registered first class mail in accordance with Section 2.10. The Contractor shall have ten (10) Days from the date of receipt to cure the default or provide the County with a detailed written plan for review and acceptance, which indicates the time and methods needed to bring the Work into compliance and cure the default.
2. If the Contractor has not cured the default or the plan to cure the default is not acceptable to the County, the County may terminate the Contract by serving a "notice of termination" in accordance with Section 2.10 setting forth the manner in which the Contractor is in default and the effective date of termination.
3. The Contractor shall only be paid for Work performed and Accepted less any damages to the County caused by or arising from such default. All termination

payment requests are subject to an analysis of cost or price by the County to verify compliance with the Contract, applicable laws and regulations.

4. The termination of this Contract shall in no way relieve the Contractor from any of its obligations under this Contract nor limit the rights and remedies of the County hereunder in any manner.

C. Termination for Non-Appropriation

1. If expected or actual funding is withdrawn, reduced or limited in any way prior to the termination date set forth in this Contract or in any Contract Amendment hereto, the County may, upon written notice to the Contractor, terminate this Contract in whole or in part.

If the Contract is terminated pursuant to this Section 9.1.C: 1) the County shall be liable only for payment in accordance with the terms of this Contract for Work performed and Accepted prior to the effective date of termination; and, 2) the Contractor shall be released from any obligation under this Contract affected by the termination or a related purchase order to provide further Work pursuant to the Contract.

2. Notwithstanding any provision to the contrary, funding under this Contract beyond the current appropriation year is conditional upon the appropriation by the County Council of sufficient funds to support the Work described in this Contract. Should such an appropriation not be approved, the Contract shall terminate at the close of the current appropriation year.

SECTION 10 MISCELLANEOUS

10.1 Other Public Agency Orders

Other federal, state, county and local entities may utilize the terms and conditions established by this Contract if agreeable to all parties. The County does not accept any responsibility or involvement in the purchase orders or contracts issued by other public agencies.

10.2 Assignment

Neither party shall assign any interest, obligation or benefit under or in this Contract or transfer any interest in the same, whether by assignment or novation, without prior written consent of the other party. If assignment is approved, this Contract shall be binding upon and inure to the benefit of the successors of the assigning party. This provision shall not prevent Contractor from pledging any proceeds from this Contract as security to a lender so long as King County Policy Fin10-1 (AP), section 6.1.3 is followed. If an assignment is approved, it shall be effective upon the posting of all required bonds, securities and the like by the assignee and the written agreement by assignee to assume and be responsible for the obligations and liabilities of the Contract, known and unknown, and applicable law.

10.3 Force Majeure

The term "force majeure" shall include, without limitation by the following enumeration: acts of nature, acts of civil or military authorities, terrorism, fire, accidents, shutdowns for purpose of emergency repairs, industrial, civil or public disturbances, causing the inability to perform the requirements of this Contract. If any party is rendered unable, wholly or in part, by a force majeure event to perform or comply with any obligation or condition of this Contract, upon giving notice and reasonably full particulars to the other party, such obligation or condition shall

be suspended only for the time and to the extent commercially practicable to restore normal operations. In the event the Contractor ceases to be excused pursuant to this provision, then the County shall be entitled to exercise any remedies otherwise provided for in this Contract, including termination for default.

10.4 Recycled Products Policy

Contractors able to supply products containing recycled and environmentally preferable materials that meet performance requirements are encouraged to offer them in bids and proposals.

The Contractor shall use recycled paper for all printed and photocopied documents related to the submission of this solicitation and fulfillment of the Contract and shall, whenever practicable, use both sides of the paper.

Ref: KCC 10.16 & King County Executive Policy CON 7-1-2.

10.5 No Third Party Beneficiary

This Contract is for the sole and exclusive benefit of the County and the Contractor and shall not create a contractual relationship with, or cause of action in favor of, any third party.

10.6 Severability

Whenever possible, each provision of this Contract shall be interpreted to be effective and valid under applicable law. If any provision is found to be invalid, illegal or unenforceable, then such provision or portion thereof shall be modified to the extent necessary to render it legal, valid and enforceable and have the intent and economic effect as close as possible to the invalid, illegal and unenforceable provision.

10.7 Non-Waiver of Breach

No action or failure to act by the County shall constitute a waiver of any right or duty afforded to the County under the Contract; nor shall any such action or failure to act by the County constitute an approval of, or acquiescence in, any breach hereunder, except as may be specifically stated by the County in writing.

EXHIBIT A - SCOPE OF WORK

The King County Metro Rideshare Operations, Commuter Van Program is soliciting proposals to establish van vehicle maintenance service contracts in the following areas: Bellevue, North Seattle, Downtown Seattle (North and South areas), Everett, Kent, and Renton for vanpool groups whose origin or destination is in King County. Although it is the intent of Rideshare Operations to establish one (1) contract in each geographic area listed, the County retains the right to establish multiple contracts in an area if it is determined to be in its best interest.

The Commuter Van Program is self-sustaining; participant fares and surplus van sales cover 100 percent of capital and operating costs and a minimum of 25 percent of administrative costs. The Program currently operates an active fleet of approximately 1,400 passenger vans. The fleet is composed of vans with groups in operation, service loaner vans to support these groups and vans available for new forming groups. The fleet is comprised primarily of 7, 8, 12, and 15-passenger vans.

Recently 20, 5- passenger Nissan LEAF all electric cars were added to the fleet in a demonstration project to evaluate electric vehicle technology in a commuter application. (Service for these electric cars is not included in this document and will be addressed separately with Contractor's determined as a result of this solicitation.

The Commuter Pool Program consists of two commute options, VanShare and VanPool. Both options provide vans, staff support, maintenance, fuel and insurance to groups of five to fifteen (5-15) people who commute together. One volunteer from the group drives the van and all passengers share a monthly fee that is based on the round-trip mileage of the commute and number of riders in the group. VanPool groups average anywhere from 20 to 58 miles round trip daily. Vans are garaged at the primary driver's home. VanShare groups commute an average 12 miles round trip per day, not to exceed 20 miles per day and connect to transportation hubs or terminals, such as train stations, ferry terminal docks or park and ride lots. VanShare vans are parked at the connecting service facility hub or a nearby designated parking location.

All vans are serviced at 6,000 mile or six (6) month increments, at a minimum.

Group vans are assigned to a specific service facility based on the group's origin and destination, route, group needs, program efficiencies and other considerations as determined. The profile of vans by year, make, model and mileage at any particular service facility changes as the number of groups on the road increase or decrease or groups change van size due to gains or losses in ridership. The number of service loaner vans assigned to the service facility is at a 1 to 12 ratio to the number of groups maintained at the site. Attachment C lists the current fleet profile by service location. The volunteer drivers are responsible for the delivery and pick-up of vans at the assigned maintenance service facility.

The key elements of the Commuter Van Program maintenance program includes, a comprehensive preventive maintenance schedule, full utilization of standard warranty coverage and customer service responsiveness. Contractors work collaboratively with Commuter Van Program staff to maximize cost efficiencies, minimize unscheduled repairs and downtime and ensure courteous, quality service while providing customers with mechanically sound, safe, reliable and clean vehicles. Attention is always focused on balancing costs and providing effective service.

Questions will be encouraged during the pre-proposal conference also.

1.10 Examination of Proposal and Contract Documents

The submission of a proposal shall constitute an acknowledgement upon which the County may rely that the Proposer has thoroughly examined and is familiar with all requirements and documents pursuant with the RFP, including any addenda and has reviewed and inspected all applicable statutes, regulations, ordinances and resolutions addressing or relating to the goods or services to be provided hereunder.

The failure of a Proposer to comply with the above requirement shall in no way relieve the Proposer from any obligations with respect to its proposal or to any Contract awarded pursuant to this RFP. No claim for additional compensation shall be allowed which is based upon a lack of knowledge or misunderstanding of this RFP.

1.11 Cost of Proposals and Samples

The County is not liable for any costs incurred by Proposer in the preparation and evaluation of proposals submitted. Samples of items required must be submitted to location and at time specified. Unless otherwise specified, samples shall be submitted with no expense to the County. Proposals may be withdrawn by written notice received prior to the exact hour and date specified for receipt of proposals. A proposal also may be withdrawn in person by a Proposer or authorized representative provided their identity is made known and they sign a receipt for the proposal, but only if the withdrawal is made prior to the exact hour and date set for receipt of proposals. All requests for modification or withdrawal of proposals, whether in person or written, shall not reveal the amount of the original proposal.

1.13 Proposal Withdrawal After Public Opening

Except for claims of error granted by the County, no Proposer may withdraw a proposal after the date and time established for submitting proposals, or before the award and execution of a Contract pursuant to this RFP, unless the award is delayed for a period exceeding the period for proposal effectiveness.

Requests to withdraw a proposal due to error must be submitted in writing along with supporting evidence for such claim for review by the County. Evidence must be delivered to the County within two (2) Days after request to withdraw. The County reserves the right to require additional records or information to evaluate the request. Any review by the County of a proposal and/or any review of such a claim of error, including supporting evidence, creates no duty or liability on the County to discover any other proposal error or mistake, and the sole liability for any proposal error or mistake rests with the Proposer.

1.14 Error and Administrative Corrections

The County shall not be responsible for any errors in proposals. Proposers shall only be allowed to alter proposals after the submittal deadline in response to requests for clarifications or Best and Final Offers by the County.

1.16 Compliance with RFP Terms, Attachments and Addenda

A. The County intends to award a Contract based on the terms, conditions, attachments and addenda contained in this RFP. Proposers shall submit proposals, which respond to the requirements of the RFP.

- B. Proposers are strongly advised to not take exceptions to the terms, conditions, attachments and addenda; exceptions may result in rejection of the proposal. An exception is not a response to a proposal requirement. If an exception is taken, a 'Notice of Exception' must be submitted with the proposal. The 'Notice of Exception' must identify the specific point or points of exception and provide an alternative.
- C. The County reserves the right to reject any proposal for any reason including, but not limited to, the following –
- Any proposal, which is incomplete, obscure, irregular or lacking necessary detail and specificity;
 - Any proposal that has any qualification, limitation, exception or provision attached to the proposal;

 - Any proposal for which a Proposer fails or neglects to complete and submit any qualifications information within the time specified by the County.
- D. The County may, at its sole discretion, determine that a proposal with a 'Notice of Exception' merits evaluation. A proposal with a 'Notice of Exception' not immediately rejected may be evaluated, but its competitive scoring shall be reduced to reflect the importance of the exception. Evaluation and negotiation shall only continue with the Proposer if the County determines that the proposal continues to be advantageous to the County.
- E. In consideration for the County's review and evaluation of its proposal, the Proposer waives and releases any claims against the County arising from any rejection of any or all proposals, including any claim for costs incurred by Proposers in the preparation and presentation of proposals submitted in response to this RFP.
- F. Proposals shall address all requirements identified in this RFP. In addition, the County may consider proposal alternatives submitted by Proposers that provide cost savings or enhancements beyond the RFP requirements. Proposal alternatives may be considered if deemed to be in the County's best interests. Proposal alternatives shall be clearly identified.

1.17 Acceptance of Contract, Attachments and Addenda

Proposer(s) shall review the Contract, and all its attachments, and submit a signed letter by their attorney or authorized legal representative stating they intend to comply with all the terms and conditions. The signed letter shall be submitted with the proposal.

If there are exceptions taken to the terms and conditions in Sample Contract and any of its attachments, the Proposer's attorney or authorized legal representative shall sign an exception letter describing reasoning for the exceptions and include the exception letter and Sample

Contract as an attachment to the proposal, identifying the exceptions and proposed changes. All proposed changes shall be tracked the Contract using the tracking changes feature in Microsoft Word®.

The project schedule is such that it requires a very efficient proposal review and negotiation period. It is very important that any possible roadblocks or issues the Proposer may have with the terms and conditions are identified during the proposal process and resolved prior to proceeding with the Contract negotiations.

1.18 Forms Required before Contract Signing

- The Proposer shall submit within five (5) Days of notification from the County the insurance certificate and endorsement meeting the levels of coverage set forth in this RFP.

Proposed Prices shall include all freight charges, FOB to the designated delivery point. Washington State sales/use taxes and Federal excise taxes shall not be included in the proposal price. The County shall pay any Washington State sales/use taxes applicable to the Contract price or tender an appropriate amount to the Contractor for payment to Washington State. The County is exempt from Federal excise taxes. All other government taxes, duties, fees, royalties, assessments and charges shall be included in the Proposal price.
- B. In the event of a discrepancy between the unit price and the extended amount for a proposal item, the County reserves the right to clarify the Proposal.
- C. The proposal shall remain in effect for 90 Days after the proposal due date, unless extended by agreement.

1.21 Procedure When Only One Proposal Is Received

If the County receives a single responsive, responsible proposal, the County may request an extension of the proposal acceptance period and/or conduct a price or cost analysis on such proposal. The Proposer shall promptly provide all cost or pricing data, documentation and explanation requested by the County to assist in such analysis. By conducting such analysis, the County shall not be obligated to accept the single proposal; the County reserves the right to reject such proposal or any portion thereof.

1.23 Supported Employment Program

The County encourages the creation of supported employment programs for developmentally and/or severely disabled individuals. The County itself has such a program and is actively seeking to do business with those Contractors and Consultants that share this employment approach. If your firm has such a program, or intends to develop such a program during the life of this Contract, please submit Documentation supporting this claim with your proposal. If you have questions, or need additional information, please contact the Community and Human Services Division, Developmental Disabilities Division.

SECTION 2 PROPOSAL EVALUATION AND CONTRACT AWARD

2.1 Proposal Evaluation

- A. The County will evaluate proposals using the criteria set forth in this RFP. If deemed necessary, written and/or oral discussions, site visits or any other type of clarification of proposal information may be conducted with those Proposers whose proposals are found to be potentially acceptable. Identified deficiencies, technical requirements, terms and conditions of the RFP, costs or prices, and clarifications may be included among the items for discussion. The discussions are intended to give Proposers a reasonable opportunity to resolve deficiencies, uncertainties and clarifications as requested by the County and to make the cost, pricing or technical revisions required by the resulting changes. In addition, the County may request additional business and administrative information.
- B. The County may find that a Proposer appears fully qualified to perform the Contract or it may require additional information or actions from a Proposer. In the event the County determines that the proposal is not within the Competitive Range the County shall eliminate the proposal from further consideration.
- C. The evaluation of Proposers' proposals and additional information may result in successive reductions of the number of proposals that remain in the Competitive Range. If applicable to the procurement, the firms remaining in the Competitive Range may be invited to continue in the proposal evaluation process, and negotiations.
- D. Upon completion of discussions, the County may issue to all remaining potentially acceptable Proposers within the competitive range a request for Best and Final Offers. The request shall include notice that discussions are concluded, an invitation to submit a revised proposal with a Best and Final Offer, and a new submittal date and time.
- E. The County may enter negotiations with one or more Proposers to finalize Contract terms and conditions. Negotiation of a Contract shall be in conformance with applicable federal, state and local laws, regulations and procedures. The objective of the negotiations shall be to reach agreement on all provisions of the proposed Contract. In the event negotiations are not successful, the County may reject proposals.
- F. The County reserves the right to make a Contract award without written and/or oral discussions with the Proposers and without an opportunity to submit Best and Final Offers when deemed to be in the County's best interests. Contract award, if any, shall be made by the County to the responsible Proposer whose proposal best meets the requirements of the RFP, and is most advantageous to the County, taking into consideration price and the other established evaluation factors. The County is not required to award a Contract to the Proposer offering the lowest price. The County shall have no obligations until a Contract is signed between the Proposer and the County. The County reserves the right to award one or more contracts as it determines to be in its best interest.

2.2 King County Contracting Opportunities Program

The purpose of the King County Contracting Opportunities Program is to maximize the participation of Small Contractors and Suppliers (SCS) through the use of rating points in the

award of King County competitively solicited contracts for the acquisition of technical services. The program is open to all firms that are certified as an SCS by King County's Business Development and Contract Compliance Office.

A "Small Contractors and Suppliers" (SCS) means that a business and the person or persons who own and control it are in a financial condition, which puts the business at a substantial disadvantage in attempting to compete for public contracts. The relevant financial condition for eligibility under the Program is set at fifty percent (50%) of the Federal Small Business Administration (SBA) small business size standards using the North American Industrial Classification System (NAICS), and an Owners' Personal Net Worth less than \$750K dollars.

A "Certified Firm" means a business that has applied for participation in King County's Contracting Opportunities Program, and has been certified as an SCS by the King County Business Development and Contract Compliance (BDCC) office. <http://www.kingcounty.gov/exec/BusinessDev/contractingopps.aspx> or contacting the BDCC office at 206-205 0711.

In the evaluation of proposals, points will be allotted for SCS participation. King County will count only the participation of SCSs that are certified by King County at the date and time of proposal submittal. After tabulation of the selection criteria points of all prime submitters points shall be added to the score of all proposals that meet at least one of the two following sub-criterion:

1. If the Prime submitter who is an SCS firm and includes the SCS certification number on page one of this submittal is eligible to receive the maximum points for this criterion.
2. If the Prime submitter is not an SCS but will use SCSs for at least 5% of the total contract labor hours in the work to be performed in this contract, and who complete the following table and include it in their proposal submission:

SCS Certification Number	Sub-Consultant Name	Contact Name / Phone	Work to be performed	Percentage of Total Hours

SCS participation shall be counted only for SCSs performing a commercially useful function according to custom and practice in the industry. A commercially useful function is defined as a specific scope of work for which the SCS has the management and technical expertise to perform using its own workforce and resources.

2.3 Responsive and Responsible

Responsive

The County will consider all the material submitted by the Proposer, and other evidence it may obtain otherwise, to determine whether the Proposer is in compliance with the terms and conditions set forth in this RFP.

SECTION 3 TECHNICAL SPECIFICATIONS

Proposers shall indicate below with a check (✓) mark the area(s) they are submitting a proposal (see subsection 3.3)

Bellevue Overlake	_____	Everett	_____X_____
Downtown Seattle North	_____	Federal Way	_____
Redmond	_____		

3.1 Introduction

The King County Metro Rideshare Operations, Commuter Van Program is soliciting proposals to establish van vehicle maintenance service contracts in the following areas: Bellevue Overlake, Downtown Seattle North, Everett, Federal Way, and Redmond for vanpool groups whose origin or destination is in King County. Although it is the intent of Rideshare Operations to establish one (1) contract in each geographic area listed, the County retains the right to establish multiple contracts in an area if it is determined to be in its best interest.

The Commuter Van Program is self-sustaining; participant fares and surplus van sales cover 100 percent of capital and operating costs and a minimum of 25 percent of administrative costs. The Program currently operates an active fleet of approximately 1,600 passenger vans. The fleet is composed of vans with groups in operation, service loaner vans to support these groups and vans available for new forming groups. The fleet is comprised primarily of 7, 12, and 15-passenger vans as well as 25 Nissan Leaf passenger vehicles model year 2011 and 2013. Service for these electric cars is not included in this document.

Recently 25, 5- passenger Nissan LEAF all electric cars were added to the fleet in a demonstration project to evaluate electric vehicle technology in a commuter application. (Service for these electric cars are not included in this document and will be addressed separately with Contractor's determined as a result of this solicitation.

The Commuter Pool Program consists of two commute options, Vanshare and VanPool. Both options provide vans, staff support, maintenance, fuel and insurance to groups of five to fifteen (5-15) people who commute together. One volunteer from the group drives the van and all passengers share a monthly fee that is based on the round-trip mileage of the commute and number of riders in the group. VanPool groups average anywhere from 25 to 70 miles round trip daily. Vans are garaged at the primary driver's home. VanShare groups commute an average 12 miles round trip per day, not to exceed 20 miles per day and connect to transportation hubs or terminals, such as train stations, ferry terminal docks or park and ride lots. VanShare vans are parked overnight at the connecting service facility hub or a nearby designated parking location.

All vans are serviced at 6,000 mile or six (6) month increments, at a minimum. Vans accrue, on average, 10K to 12K annually.

Group vans are assigned to a specific service facility based on the group's origin and destination, route, group needs, program efficiencies and other considerations as determined. The profile of vans by year, make, model and mileage at any particular service facility changes as the number of groups on the road increase or decrease or groups change van size due to gains or losses in ridership. The number of service loaner vans assigned to the service facility is determined by several factors, including number of group vans at the location, number and frequency of services needed and targeted turn

around times. Attachment C lists the current fleet profile by service location. The volunteer drivers are responsible for the delivery and pick-up of vans at the assigned maintenance service facility.

The key elements of the Commuter Van Program maintenance program includes, a comprehensive preventive maintenance schedule, full utilization of standard warranty coverage and customer service responsiveness. Contractors work collaboratively with Commuter Van Program staff to maximize cost efficiencies, minimize unscheduled repairs and downtime and ensure courteous, quality service while providing customers with mechanically sound, safe, reliable and clean vehicles. Attention is always focused on balancing costs and providing effective service, while considering the very public nature of the program.

3.2 Scope of Work with Stated Deliverables

Proposer's shall demonstrate the ability to provide routine preventive maintenance (PM) and repair services for the estimated number of vans currently assigned now, as noted in Attachment C and for ongoing growth over the term of the contract for up to 300 vans per location. approximately one hundred twenty to two hundred forty (120 -240) vans per contract. Contractors shall perform routine repair services for all major systems that include but are not limited to brakes, suspension, heat/air conditioning systems, electrical systems, engine repair, etc. Contractors are responsible to shuttle vans to warranty dealers, and body shops as scheduled and needed. Contractors awarded contracts for VanPool fleet maintenance as a result of this proposal shall perform as the primary Contractor for all work related to fleet maintenance so that the Commuter Van Program has a single contract for all work.

For cost and service efficiencies the Commuter Van Program prefers to have a single Contractor that is able to perform all services. However, if necessary, Contractors may subcontract specialty work to subcontractors who have been approved by Commuter Van Program. The Contractor shall be responsible for all costs associated with doing business with its direct subcontractors unless otherwise mutually agreed upon.

Contractors shall be responsible for maintaining complete vehicle maintenance records, including any subcontracted and/or warranty work for all vehicles while assigned to or worked on by their shop. Vehicle history records shall be available to Commuter Van Program staff upon request.

A Maintenance Rideshare Service Representative (MRSR) will be assigned to each contracted service facility to coordinate all service activities at that facility.

3.3 Service Facility Location

Only fixed service locations will be considered for contract award. Due to the nature of the commuter van business, mobile service operations do not meet contractual requirements.

Exact facility location(s) will be determined as a result of the proposal process. Evaluations of the locations will include considerations of length to time, distance and ease of access for customers and from the identified corridors.

It has been determined that to most effectively meet customer requirements, service facilities shall be located within the following geographic areas (see Attachment E)

Bellevue Overlake – Easy access to HWY 520 . NE 24th to the North, NE 8th to the South with 130th St NE to the West and 156th Avenue N.E. to the East.

Everett – Easy access to I-5: 128th SW in Everett (South boundary), Madison / Merril Creek Parkway (North boundary), Hwy 527(East boundary) and Hwy 525 (West boundary).

Redmond – Easy access to HWY 520 – NE 90th (North boundary), NE 65th (South boundary), 188th St NE (East boundary) and 151st St (West boundary).

Downtown Seattle North – Easy access to I-5 or Hwy 99. Aloha Avenue (North Boundary), Cherry St. in Seattle (South boundary), 12th Avenue (East boundary), Elliot Avenue (West boundary).

Federal Way – Easy access to I-5. South 272nd (North boundary), the King – Pierce County line (South boundary), I-5 (East boundary), 30th Avenue S.W. (West boundary)

3.4 Preventive Maintenance Service

The intent of PM and service is to ensure that all vehicles are maintained in safe, reliable condition. The expectation is that all work is performed to maintain this condition for a minimum of the next scheduled service increment. See Attachment A for King County Metro VanPool PM Checklist.

The preventive maintenance schedule is set at 6,000 miles or six (6) months whichever comes first. Each month's schedule is compiled by the Maintenance Rideshare Service Representative (MRSR) and sent to the service facility by the first of each month. The schedule identifies which vans and the services are due for each vehicle.

The MRSR will contact the garage to schedule these services. If the garage identifies a vehicle that is overdue for a service, the garage should call their designated MRSR for approval before performing any preventive maintenance service. The garage is responsible for communicating any noted inspection deficiencies to the RSR BEFORE the repairs are to be performed.

Please note that all fluids needed for topping off reservoirs or oil changes are to be included in the quoted price of the preventive maintenance service.

There are two primary types of PM Service for the fleet, "A" and "B" service. Each van is assigned an AAB schedule, with a C PM to be completed every 48K miles per the PM Checklist.

The "A" PM service includes items # 1 through 25 on the PM Checklist. The "A" shall be inspected and maintained for a minimum of 6,000 mile increments.

The "B" PM service will include ALL items on the "A" PM Checklist, PLUS the items specified under the "B" PM Checklist (items 26 – 29). This service will have all items # 1 through 29 inspected. This service is performed every 18,000 miles.

The "C" PM service, which is also known as the "transmission" service, is performed at 48,000 mile intervals. The "C" PM service may be performed in conjunction with an "A" or "B" PM service.

The "D" PM will include item #31 and may be performed in conjunction with an "A" or "B" PM service. The "D" PM service, which is also known as the "tune-up" service, will be inspected and maintained between the 90,000 and 96,000 mile increment.

The "E" PM service includes item #32 through 34 and may also be performed in conjunction with an "A" or "B" PM Service. The "E" PM service, known as the "coolant system" service, will be performed at every 90,000 miles or 5 years increment.

Final PM Checklist Item is a road test to be performed at each PM service visit.

The top section of the PM checklist is to be completed in full with the HOV identification number, the date of the PM service, the name or identification name or number of the technician assigned to do the PM service, and the odometer readings (before and after service) of the vehicle.

To complete the checklist uniformly, we request that all items not needing repair or service other than what is mentioned in the item be checked off the list on the appropriate line with a √. If a repair is needed for any item – place an O on the line next to the number. Once the repair has been made, place an X through the O to show the item deficiency has been corrected. All PM checklists should be COMPLETED with a sign off from the technician after all items are inspected and maintained, deficiencies corrected and a road test performed before a vehicle is released back into service. The PM checklist must be completed and attached with invoice repair order to Metro for payment.

A. "A" PM SERVICE

The "A" PM Service is performed every six months or 6,000 mile interval.

3.5 Repair Service

As a result of PM Service or other needed repairs, the Contractor may make recommendations for repair service. Contractors shall support their recommendations for repair work by using diagnostic statistics, accepted performance standards, vehicle history records, mileage, actual measurements compared to specifications, etc. The Contractor shall obtain prior authorization from the MRSR before completing any work that is the result of PM Service.

The required turnaround time for a standalone PM Service is one (1) business day. The required turnaround time for PM Service plus routine repair services, done as a result of the PM, shall not exceed two (2) business days.

Repair service, other than emergencies, will be scheduled by the MRSR. If a driver stops at the Contractor's facility Monday through Friday during Commuter Van business hours (7:30 am and 5:00 pm) requesting service without the garage having received prior notification from the Commuter Van office, the Contractor shall call the MRSR for instructions. If a driver stops at the Contractor's facility after Commuter Van business hours (5:00 pm) requesting routine, non-emergency service that requires a loaner van, the Contractor shall remind the driver that work can only be scheduled through the MRSR and to call the MRSR the next day to schedule an appointment.

In the event of a special circumstance, drivers may stop in at the service facility without notifying the MRSR to have something minor corrected or replaced such as a headlight or wipers as long as no loaner is required. Loaners shall never be given to a customer without authorization from the MRSR or another Commuter Van Program staff person. These minor service items shall be reported to the MRSR during the next call or email.

3.6 Warranty Service

Completion of warranty work revealed as a result of PM Service shall not exceed five (5) business days from the date the vehicle is received by the warranty dealer. It is the Contractor's responsibility to monitor and ensure this five day performance period at the warranty dealer. If special circumstances require extended down times, the specific schedule will be mutually determined between the MRSR and the Contractor / Warranty Dealer.

Contracted service facilities shall be familiar with all manufacture and after-market warranties. It is the responsibility of the Contractor to identify and notify the MRSR of service that is covered by any warranty. Commuter Van staff will make the final determination to exercise the warranty or not based on costs, nature of the work to be done, convenience, and customer service.

The service facility shall be responsible for coordinating warranty work including:

- a. Scheduling vehicles for warranty repair upon authorization from the MRSR.
- b. Shuttling vehicles to and from the warranty dealer.
- c. Making certain that the dealer completes work in the time required.
- d. Include warranty work orders with the weekly summary invoice.
- e. Commuter Van Program will pay the Contractor a flat fee for paperwork administration due to sublet work billed on primary invoice and all shuttle costs.
- f. Commuter Van Program will keep the service facility (and visa versa) informed of current Technical Service Bulletins, recall notifications and general fleet performance on a routine basis.
- g. Contractor's shall warranty their work and that of their direct subcontractors for a minimum of 12 months or 12,000 miles for both parts and labor.

3.7 Subcontracted Work

The Commuter Van Program will pay a flat fee for paper work administration and shuttling costs for subcontracting work that is highly specialized. Specialized work includes, but is not limited to, major engine repair/rebuild, major transmission repair/rebuild and body repair. Proposed subcontractors are subject to King County Commuter Pool approval.

The Contractor shall coordinate subcontracting work as needed including:

- b. Shuttling vehicles to and from the subcontractor.
- c. Making certain that the subcontractor correctly completes work in the time required.
- d. Ensure subcontractor work matches invoice.
- e. Include subcontracted work orders with weekly summary invoice.
- f. All invoices for authorized subcontracted work shall be paid by the Contractor and submitted for reimbursement with thirty (30) days of the subcontracted invoice date. A copy of the subcontracted invoice must be attached to the work order. Subcontracted work is for re-sale only and should not have a tax amount included on the subcontracted invoice.

3.8 Emergency Service

Rideshare Operations provides twenty-four (24) hour emergency response for its customers. In case of an emergency, drivers or service providers can reach staff at 206-625-4500.

If a van has a breakdown or is involved in an accident after hours and cannot be driven, the driver shall be instructed by Rideshare Operations staff to have the van towed to either its assigned facility or the nearest contracted facility. The commute group is then responsible for providing their own transportation. In the event that a van has been towed to the Contractor's facility after hours, the Contractor shall notify the MRSR immediately upon the next business day. The MRSR will give the Contractor instructions on what to do with the van.

In the event of a winter storm, drivers are responsible for installing tire chains or to have them installed wherever possible. Installations may be done at the service facility without prior MRSR authorization during adverse weather.

Snow tires may be provided to customers by the Commuter Van Program for the winter driving season. Snow tires are to be stored at the driver's home during the off-season.

In the event of a "civil emergency", Contractors are required to notify Commuter Van Program of staff as early as possible as to their ability to provide ongoing maintenance and repair service.

3.9 Vehicle Parking (Daily Transaction/Overnight)

The Contractor shall designate a van parking area for daily van transactions in an area located close to the reception area for daily van pick-up and drop-off transactions. The area shall be easily accessible to customers and vans shall be unobstructed. Enough space shall be available to stage two to four (2-4) vans for pick-up or drop-off.

All King County vans on-site at the Contractor's location overnight shall be parked inside the maintenance facility or in a secured area.

The Contractor shall bear all risks of damage or loss to the vehicles, or any portions of the vehicles whether covered or not by insurance. All replacements, repairs or substitutions of parts or equipment shall be at the sole cost and expense of the Contractor. The Contractor shall cause its employees and agents to take all reasonable steps to safeguard the Vehicles.

3.10 Service Procedures

Daily Communications

A MRSR will be assigned as a contact person to each contracted service facility to coordinate services including: daily scheduling of van drop-off and pick up, loaner assignment, authorization of any service as a result of PM work, update of vehicle work status, review of invoices, etc.

The contracted service facility shall identify a single individual by name to serve as the responsible contact for daily communication with the MRSR regarding the tasks listed above.

The absence of either contact person shall not be cause for the disruption of service. In the absence of either the assigned MRSR or assigned service facility staff person, another individual shall be designated to perform this assignment and verbal notification will be given to the other party. In the event that this position is permanently reassigned for either party, notice will be extended to the other in writing at least one (1) week in advance of the anticipated change.

The Contracted facility shall have the ability and required equipment on site to manage daily communications by email. Phone calls are intended to supplement communications as needed.

A copy of the "Daily Log" will be updated and transmitted from the contracted service facility each day by 8:30 a.m. to the assigned MRSR for review. See Attachment F for electronic version (.xls format).

The contracted service facility shall anticipate the communication and be prepared to provide accurate and timely information to the MRSR on vehicle status including but not limited to:

- Van status,
- Van odometer readings,
- Which vans are ready by vehicle number,
- Which vans are being serviced and/or require authorization for repair,
- Which vans require warranty service,
- Estimated completion date of vans under repair,
- Description of repairs,
- Loaner vans available, etc;

The MRSR will provide the contracted service facility contact the following information at a minimum:

- Vans coming in for service including estimated arrival time,
- Loaner vehicles to be given out,
- Type of PM Service to be done,
- Significant mechanical problems van is having – as relayed by driver,
- Service work Authorization;

Van Drop Off/Loaner Pick-Up Procedures

When the Commuter Van Program driver enters the shop to deliver a van for service or pick up a van that is ready, she/he shall be greeted promptly and courteously. The service transaction shall be initiated and handled efficiently.

The driver will deliver the van to the Contractor's facility and turn in the keys to the van.

The Contractor shall maintain keys and fuel cards to all loaner vans assigned to the facility in a safe and secure location. Storing keys and fuel cards in vans is unacceptable. When a driver brings a van in for service, the Contractor shall provide a key to the assigned loaner van. The Voyager fuel credit card for the loaner van shall be attached to the keys.

The Contractor shall obtain authorization to perform any needed repairs. All work requires prior approval from the MRSR or an authorized Commuter Van Program staff person. The Contractor shall use diagnostic statistics, vehicle history, warranty data, mileage thresholds, etc. to support recommended service and repair to the MRSR.

When the work is complete and the van is ready to be picked up, the Contractor shall notify the MRSR as soon as possible on the same day. If the MRSR is not available, the Contractor shall communicate via email or voicemail - identifying the vehicle by HOV number and what work was completed. (For example: "Vehicle 211206 is ready, an A and C PM service were completed and a new battery was installed.")

The MRSR will contact the driver and arrange a time for the loaner van to be returned and the serviced van picked-up. The MRSR will then notify the garage contact of the arrangement and schedule.

The Contractor shall notify the MRSR if there is reason to believe that a van is not being responsibly maintained by a group and is required to inspect and notify the MRSR of any body damage at the time of receipt. Additionally, it is required that any damage that occurs to the vehicle while it is in the care and custody of the garage shall be reported to the MRSR immediately.

Vans shall be returned to a group in the same or better condition of cleanliness than when they were received. Contractors are responsible for making certain that no materials are left in the van as a result of a service visit at the garage of any subcontractor; i.e. no oil, dirt, rags, tools, broken glass or parts, etc.

Service Loaner Van ("Loaner Van")

Loaner vans are to be used by van drivers when their assigned vehicle is at the maintenance facility for service. Loaner vans will be assigned to the contracted maintenance service facility based on the number of groups assigned to the service facility. Currently, loaner vans are assigned to the contracted service facility at approximately a 1 to 12 ratio to the number of groups maintained at that site.

Loaner vans are assigned to a driver by the MRSR.

A loaner van shall not be released to a driver without prior authorization from Commuter Van staff. In case of an emergency that arises outside of Commuter Van Program office hours, the Contractor shall contact 206-625-4500 to reach the appropriate emergency "on-call" staff member for authorization to assign a loaner van to a group.

When a van is brought in for service, the driver has been instructed to present the garage reception staff with keys and odometer reading to his/her van. The garage reception staff person shall, in turn, provide the driver with the keys and fuel card to the assigned loaner. The loaner van Voyager fuel credit card shall be attached to the keys for that loaner van. The driver shall then be instructed where to find the loaner vehicle located close proximity to the office and ease of exit.

When the driver returns the loaner van, he/she will give the loaner keys, fuel card and odometer reading to the reception person. At this time the driver may inform the garage about problems with the loaner van and this should be reported to the MRSR. The Contractor shall inspect and inform the MRSR if the loaner van requires service, needs cleaning or fuel.

Drivers have been instructed to return loaner vans in clean condition with a minimum half tank of fuel. They are responsible for making certain the Voyager fuel credit card is attached to the keys of the loaner van. It is, however, the responsibility of the contracted service facility staff to routinely monitor the condition of the loaner vehicles, including general cleanliness, body damage and checking for the Voyager fuel credit card. It is the responsibility of the contracted service facility to keep the MRSR informed of the condition of the loaner vans. The contracted service facility shall notify the MRSR if the loaner requires fuel (contains less than ¼ tank), cleaning, detailing, identify any body damage, and note if the Voyager fuel credit card is missing.

The MRSR will authorize any work or services to be performed on the loaner van as needed.

The Contractor shall provide the driver with the keys of the serviced van and instruct him / her as to where to find the vehicle. The Contractor shall set aside an easily accessible parking area for vans to be picked up and returned.

3.11 Billing Requirement

On a weekly basis, the Contractor shall prepare and submit a summary invoice with attached work orders detailing work performed via email. Batched invoices will not exceed 10 per Summary Invoice Sheet. All work completed during a given week must be billed (delivered) to Rideshare Operations by the end of each week. E-Billing is required using ROBilling@KingCounty.gov and E-Payment is preferred.

The summary invoice form (see example Attachment B) shall summarize the work completed in the week and shall include:

- Contractor's name, address, phone number,
- Contract number,
- Unique Summary Invoice number, and date,
- List of work order number(s), dates, vehicle number(s), work order dollar amount(s),
- Subtotals for all WO cost, Tire fees, Sales Tax and grand total invoice amount,
- Batch and attach all work orders (with any backup documentation for PM or sub work) to invoice;

Separate work orders for each van serviced during the week shall be attached to the summary invoice and submitted weekly. All work pertaining to one vehicle shall be included on a single work order, including subcontracted and warranty work.

- Invoice packets with incorrect pricing, sales tax or any summary changes will be returned to the contractor via email with reason of return. Correct summary invoices and supporting documentation (Work Order, sublet invoice, etc.) must be returned within forty-eight hours to ROBilling@kingcounty.gov.
- When the corrected invoice packet is returned to the Commuter Van Program, the invoice date must be updated. This changes the NET 30 days payment date. Therefore, accuracy to detail is expected and to the contractors benefit.

The work order shall include:

- Date in/date completed,
- Vehicle number,
- Odometer reading when van brought in,
- Date, when work is completed and van was picked up,
- Work description and Rideshare Operations Maintenance coding (see Attachment D for maintenance code list) to indicate each type of preventive maintenance and repair service completed,
- Copy of completed King County PM Checklist,
- All warranty and subcontracted work orders pertaining to the service visit;
- Correct pricing for contracted services and all prior approved non-contracted items.

In general the Contractor shall anticipate that the Commuter Van Program will use industry standard publications for parts pricing with labor time guidelines and may obtain second opinions of service work at random for all non-contracted work.

3.12 Communication and Supporting Equipment

All Contractors are required to have and maintain computer, e-mail , a fax machine, scanner and digital camera (with the ability to upload appropriately formatted pictures and documentation) to transact business as necessary.

3.13 Contract Administration

Upon contract award, the Commuter Van Program staff will meet with the Contractor to review procedures for monitoring contract performance and appoint a contract administrator and schedule quarterly on-site visits with shop management to review service performance.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.
Future developments. The IRS has created a page on IRS.gov for information about Form W-9, at www.irs.gov/w9. Information about any future developments affecting Form W-9 (such as legislation enacted after we release it) will be posted on that page.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, payments made to you in settlement of payment card and third party network transactions, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the

withholding tax on foreign partners' share of effectively connected income, and

4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct.

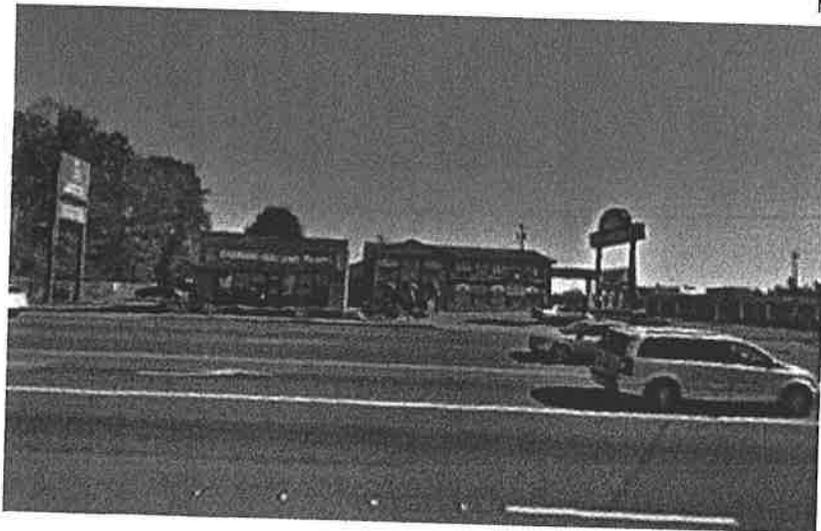

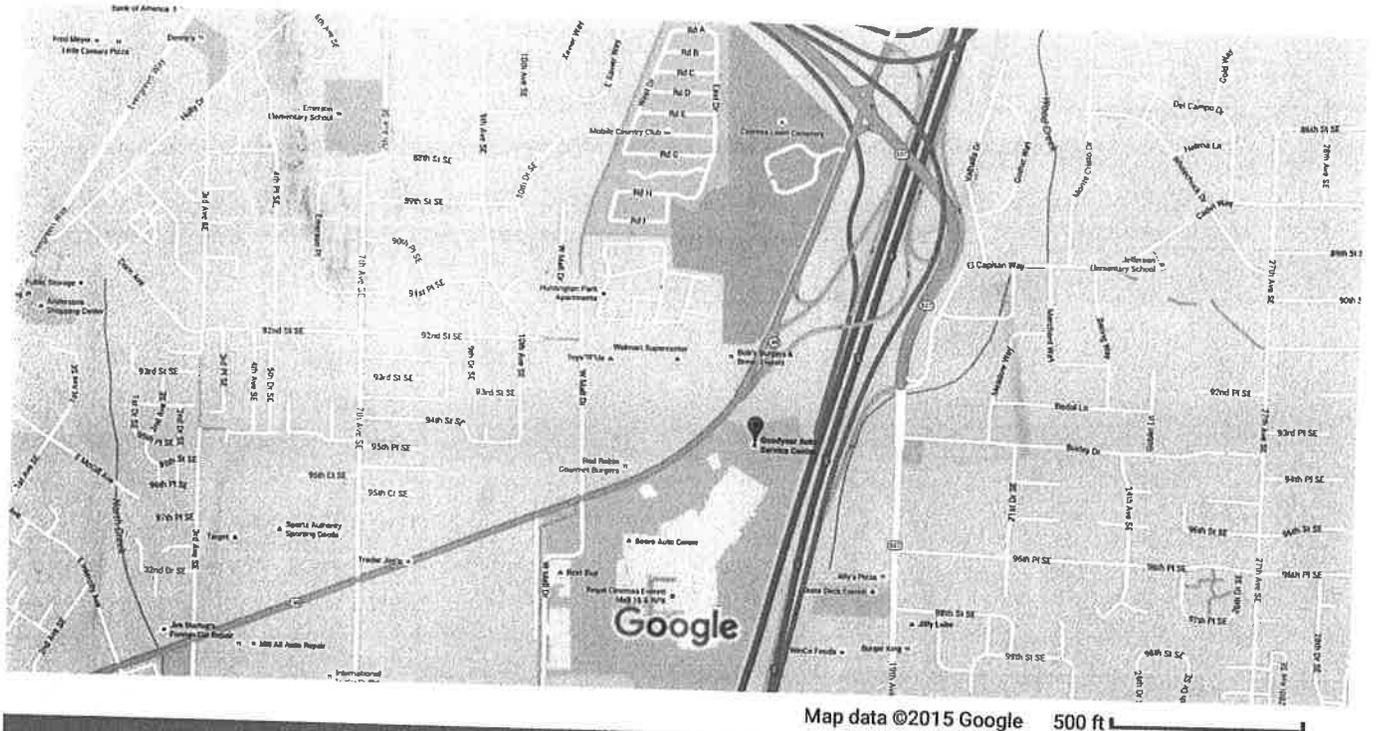

Note. If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.
