

## Framed Palette

The framed plant palette was installed in roadside rain gardens on streets with few walls, fences, or trees. Characteristics of plants in the framed palette include dark green foliage, broadleaf evergreens, and subdued rose to blue colored flowers.

Photo	Plant name	Light	Native	Evergreen	Pollinators	Rain Garden Function
	<b>Mount Vernon cherry laurel</b> <i>Prunus laurocerasus</i> 'Mount Vernon'					
	<b>Western sword fern</b> <i>Polystichum munitum</i>					
	<b>Salal</b> <i>Gaultheria shallon</i>					
	<b>Red yucca</b> <i>Hesperaloe parviflora</i>					
	<b>Wall germander</b> <i>Teucrium chamaedrys</i>					
	<b>Wintercreeper euonymous</b> <i>Euonymus fortunei</i> 'Kewensis'					
	<b>Kinnikinnick</b> <i>Arctostaphylos uva-ursi</i>					
	<b>Common camas</b> <i>Camassia quamash</i>					
	<b>Baltic rush</b> <i>Juncus balticus</i>					
	<b>Beaked sedge</b> <i>Carex stipata</i>					
	<b>Ruffled velvet Siberian iris</b> <i>Iris sibirica</i> 'Ruffled Velvet'

## Curb Bulb and Intersection Palette

The curb bulb and intersection plant palette was installed in streets with ‘no parking’ zones. All plants are low (under 24” height) to provide visibility at intersections. Characteristics of plants in the curb bulb and intersection palette include bright foliage, medium-sized leaves, and long blooming with distinctively blue colored flowers.

Photo	Plant name	Light	Native	Evergreen	Pollinators	Rain Garden Function
