

Update on Evaluation of I/I Reduction Concepts

November 2, 2017

**Steve Tolzman & Nicole Smith, King County WTD
Steffran Neff & Bob Jacobson, Brown and Caldwell**

Agenda

- Project Objective and Briefing Schedule
- Draft Approach to Common Sewer and Side Sewer Standards
- Draft Regional Inspection Training Program Outline

Background and Upcoming Activities

Project Objectives:

- Develop information about potential new elements for Regional I/I Control Program
- Present frameworks for implementation of potential programs
- Make a recommendation(s) on new elements for Regional I/I Control Program

Briefing Schedule:

- 12/7/17 - Private Side Sewer Program Framework
- 2/1/18 – Revised Common Sewer and Side Sewer Standards and Training Program Outline
- 3/1/18 - Revised Private Side Sewer Program Framework
- 5/3/18 - Final Private Side Sewer Program Framework
- 6/7/18 – E&P Recommendation Discussion

12/7/17 – Private Side Sewer Program

Discussion

- Components of private side sewer programs
- National case studies of private side sewer programs from other agencies
- General implementations steps required to develop any private side sewer program
- General limitations for implementing a side sewer program in the KC Regional Service District (legal authorities, etc.)
- The benefits of the specific side sewer programs (Certification and Inspection, Grant/Loan, and Regional I/I Support)
- Specific implementation steps for each program
- Discussion regarding which programs to further develop
