SHORT FORM FOR PRE-EMPLOYMENT PHYSICALS

PATIENT NAME: _____

JOB TITLE: Health & Environmental Investigator I or II

DEPARTMENT: Public Health

WORK SCHEDULE: 40/week

JOB DESCRIPTION: Conduct routine inspections in the Food & Facilities Protection Program, respond to requests for information and assistance, maintain records

WORK ENVIRONMENT: Field with some office. Employees are usually alone in the field

ESSENTIAL FUNCTIONS:

Provide information to various customers regarding environmental codes, regulations and policies. Use data management systems, maintain field reports and records, make recommendations and provide technical assistance, deliver presentations to various audiences.

Essential physical functions include:

- Conduct inspections in the field including restaurants, food trucks, temporary food events, pools, spas, beaches, schools, and other locations.
- Collect samples, conduct field tests, collect and analyze environmental data and interpret results, transport samples to laboratories for analysis.
- Visit and correspond with commercial and industrial hazardous chemicals users to determine their processes, proper storage and use, type and quantity of wastes, and potential impact on the environment and human health.
- Carry, use, and maintain in the field portable computers, environmental sampling equipment, and educational and enforcement documents.
- Ability to perform work duties both indoors in an office environment and in the field in a variety of physical and weather conditions that may include walking uneven terrain, working around heavy machinery, strong odors, dust, animals, and various types of wastes.
- This position may require strength enough to lift, push, or pull field equipment weighing between 10-40 pounds.
- Ability to drive throughout King County including on rough and remote terrain. May require transportation by ferry.
