## 35 In the Cover Letter, on the second page, amend as follows:

- 36 Looking forward, the State, local jurisdictions, and regional partners will soon be reviewing the required
- 37 timelines for comprehensive plan updates and how that relates to timing of growth forecasts, Buildable
- 38 Lands Reports, updates to the multicounty planning policies and growth allocations, and updates to
- 39 countywide planning policies and growth targets. The County will be involved in this work and will
- 40 determine how it affects our own Comprehensive Plan ((update cycle)) updatesupdate schedule to ensure
- 41 alignment with the broader growth management framework timelines. Review of the King County
- 42 Comprehensive Plan ((update cycle)) update process will also evaluate scheduling major updates in odd
- 43 calendar years, in consideration of the County's biennial budget cycle.<sup>1</sup>
- 44 <u>1 The work to review the Comprehensive Plan update schedule was completed in 2018 and 2020, through Ordinance</u>
- 45 <u>18810 and this ordinance.</u>
- 46

34

### 47 In the Executive Summary, on page ES-6, amend as follows:

48

# 49 Plan Elements

# 50 Chapters of the Comprehensive Plan

#### Chapter 1

**Regional Growth Management Planning** King County's growth management policies and regulations are consistent and work in coordination with the Growth Management Act, Multicounty and Countywide Planning Policies, and other technical plans.

#### Chapter 2

#### **Urban Communities**

With the majority of King County residents living and working in the urban area, this chapter includes policies that guide urban development with the goal of creating healthy, sustainable communities.

### Chapter 8

#### Transportation

Recognizing that availability of safe, accessible and efficient transportation options has significant implications for the quality of life of all county residents, this chapter addresses how King County will distribute investments equitably.

#### Chapter 9

#### Services, Facilities & Utilities

The provision of services, facilities and utilities should be concentrated in areas of density and at levels that can support existing and future demand. This chapter addresses how such crucial infrastructure should be developed.

#### Chapter 3

#### **Rural Areas and Natural Resource Lands**

King County's Rural Area and Natural Resource Lands are crucial for sustaining quality of life for county residents into the future. This chapter focuses on protecting these assets from urban development, promoting sustainable economic development and supporting rural communities.

#### Chapter 4

#### Housing and Human Services

The availability of adequate and affordable housing has become one of the most pressing issues facing King County today. This chapter contains policies regarding the provision of housing and services for all residents.

#### Chapter 5

#### Environment

King County's natural environment comprises various unique and valuable assets. This chapter contains King County's approach to environmental protection, conservation, restoration and sustainability.

#### Chapter 6

#### Shorelines

Shorelines require particular focus and management given both their immense value and fragility. This chapter contains King County's Shoreline Master Program, which aims to protect and conserve this unique natural resource.

#### Chapter 7

#### Parks, Open Space & Cultural Resources

This chapter addresses King County's approach to conserving and maintaining its expansive open space system, which includes numerous local and regional parks, and trails, and its cultural resources and historic properties.

#### Chapter 10

#### **Economic Development**

In its commitment to foster a prosperous, diverse and sustainable economy, the County recognizes that it must support actions and programs promote the success of both businesses and the workforce.

#### Chapter 11

#### **Community Service Area Subarea Planning**

This chapter includes policies that recognize the unique <u>land use</u> characteristics of particular unincorporated communities, provides significant historical context and describes the new subarea planning program.

#### Chapter 12

**Implementation((-&)), Amendments & Evaluation** This chapter describes how the policies should be implemented and monitored, major actions that will occur to implement the plan, the procedure for ((amending)) updating the plan and the role of zoning in the planning process.

#### Appendices

Integral to the vision and goals of the Comprehensive Plan are the detailed inventories, forecasts, financial plans and Urban Growth Area analysis required by the Growth Management Act. A set of technical appendices are adopted as part of the plan to meet Growth Management Act requirements.

#### Regulations

The King County Comprehensive Plan is implemented through adopted regulations, including the King County zoning Code and other Code titles. All development must meet the requirements of the Code.

_	1
<b>`</b>	L

52	In Chapter 1	Regional Growth Management Planning, on page 1-4, amend as follows:
53		
54	RP-102	King County shall actively solicit public participation from a wide variety of
55		sources in its planning processes, including the development, (( <del>amendment</del> ))
56		update, and implementation of its plans.
57		

58	In Chapter	1 Regional Growth Management Planning, on page 1-5, amend as follows:
59		
60	RP-106	(( <del>Except for Four-to-One proposals, </del> )) King County shall not (( <del>expand</del> )) <u>amend</u>
61		the Urban Growth Area prior to the Growth Management Planning Council
62		taking action on the proposed (( <del>expansion of</del> )) <u>amendment to</u> the Urban Growth
63		Area.
64		
65	RP-107	King County shall not forward to the Growth Management Planning Council for
66		its recommendation any proposed (( <del>expansion of</del> )) <u>amendment to</u> the Urban
67		Growth Area unless the proposal was:
68		a. Included in the scoping motion for a King County Comprehensive Plan
69		update;
70		b. An area zoning study of the proposal was included in the public review
71		draft of a proposed King County Comprehensive Plan update; ((or))
72		c. Subjected to the hearing examiner process for site specific map
73		amendments as contemplated by the King County Code <u>-; or</u>
74		d. Initiated as a Four-to-One proposal through King County's Docket process.
75		
76	In Chapter	1 Regional Growth Management Planning, on page 1-89, amend as follows:
77		
78	Community Se	ervice Area <u>Land Use</u> Subarea plans, as well as other community plans and basin plans, focus
79	the policy dire	ction of the Comprehensive Plan to a smaller geographic area (See Chapter 11 Community
80	Service Area S	Subarea Planning, for information on large scale subarea land use plans for rural and urban
81	unincorporate	d areas in King County). Smaller scale studies, known as area zoning and land use studies, per
82	King County (	Code, <sup>3</sup> are focused on adoption or amendment of land use and zoning maps on an area wide
83	basis rather the	an the broad range of topics that are addressed in a full subarea plan. Examples of subarea plans
84	and area zonir	ng studies include the Duwamish Coalition Project, White Center Action Plan, Fall City Subarea
85	Plan, the East	Redmond Subarea Plan, and planning efforts within a watershed or basin. Development of
86	subarea plans	are guided by the following policy as well as other applicable policies of the Comprehensive
87	Plan and prov	isions in the King County Code. <sup>4</sup>
88		
89		
90	<sup>3</sup> In addition to	subarea plans and area zoning and land use studies, King County's land use planning also includes
91	other planning	processes. These include Comprehensive Plan policy directed subarea studies, such as the
92	establishment o	of new community business centers, adjusting Rural Town boundaries, or assessing the feasibility of
93	zoning reclassif	fications in urban unincorporated areas. Subarea studies are focused on specific areas of the County,

94 but do not look at the range of issues that a subarea plan would include. In some cases, an area zoning and land use

<u>Amendments<sup>5</sup></u> and <u>Zone Reclassifications</u> , <sup>6</sup> which are site specific processes that involve County staff review ar recommendations, a public hearing and recommendation by a Hearing Examiner and a decision by County Co
These must be consistent with the Comprehensive Plan or be proposed with ((amendments during the Plan upo
process)) a Plan update.
<sup>5</sup> Per King County Code 20.08.170-Site Specific Land Use Amendments
<sup>6</sup> Per King County Code 20.08.030-Area Zoning160-Reclassification
<sup>4</sup> Per King County Code 20.08.060-Subarea plan
In Chapter 1 Regional Growth Management Planning, on page 1-11, amend as follo
The Growth Management Act allows ((local-)) updates to comprehensive plan-plans ((amendments to be
considered)) once each year. In King County, ((those)) the annual ((amendments allow)) update allows li
changes((only, except for once every eight years. Then, during the ((""Eight-Year Cycle review process
The eight-year update, which aligns the timing with Growth Management Act review and update
requirements, allows substantive changes to policies and amendments to the Urban Growth Area boundate
((can)) to be proposed and adopted. A smaller-range of substantive changes to policies and amendments
Urban Growth Area boundary may also be considered at the midpoint of the eight-year update ((eycle))
schedule, but only if authorized by motion. These provisions are detailed in King County Code Title 20.
Additional information and policies are found in Chapter 12, Implementation, Amendments and Evalua
In Chapter 1 Regional Growth Management Planning, on page 1-11, amend as follo
<b>Docket Request Process:</b> Another key element of the Comprehensive Plan review and ((amendment)) <u>u</u>
process is the Docket Request Process. As required by the Growth Management Act, King County main
docket for recording comments on the King County Comprehensive Plan and associated development
regulations. The process and requirements are detailed in the King County Code at 20.18.140. The Courreviews all requests, communicates with docket submitters, and makes recommendations to the County
Council by the first day of December. The docket report includes an executive((e))Executive recommend
for each item.

#### 131 Chapter 4: Housing and Human Services

- 132 The availability of adequate and affordable housing has become one of the most pressing issues facing King
- 133 County today. Similarly, partnering with other organizations and jurisdictions to deliver human services is a
- 134 critical component for creating sustainable communities and supporting environmental justice. In the 2016
- 135 <u>Comprehensive Plan</u> update, policies on these topics ((are)) were consolidated into a new chapter.
- 136

# In Chapter 1 Regional Growth Management Planning, starting-on page 1-24, amend as follows:

## 139

#### 140 Chapter 11: Community Service Area Subarea Planning

- 141 This chapter uses King County's seven Community Service Areas as the framework for its renewed <u>land use</u>-subarea
- 142 planning program that offers long-range planning services to unincorporated communities. The majority of King
- 143 County's community plans are no longer in effect as separately adopted plans.<sup>7</sup> -In many cases, however, the plans
- 144 contain valuable historical information about King County's communities and often provide background for the land
- 145 uses in effect today. Policies from the community plans were retained as part of the Comprehensive Plan to
- 146 recognize the unique characteristics of each community and to provide historical context. This chapter will be
- 147 updated, where appropriate, to reflect the new Community Service Area subarea plans as they are adopted.
- 148

153

7 The plans currently in effect are the West Hill Community Plan, <u>Skyway-West Hill Land Use Strategy (Phase 1 of the Skyway-West Hill Subarea Plan)</u>, White Center Community Action Plan, Fall City Subarea Plan, and the Vashon-Maury Island Community Service Area Subarea Plan.

#### 154 In Chapter 1 Regional Growth Management Planning, on page 1-25, amend as follows:

155

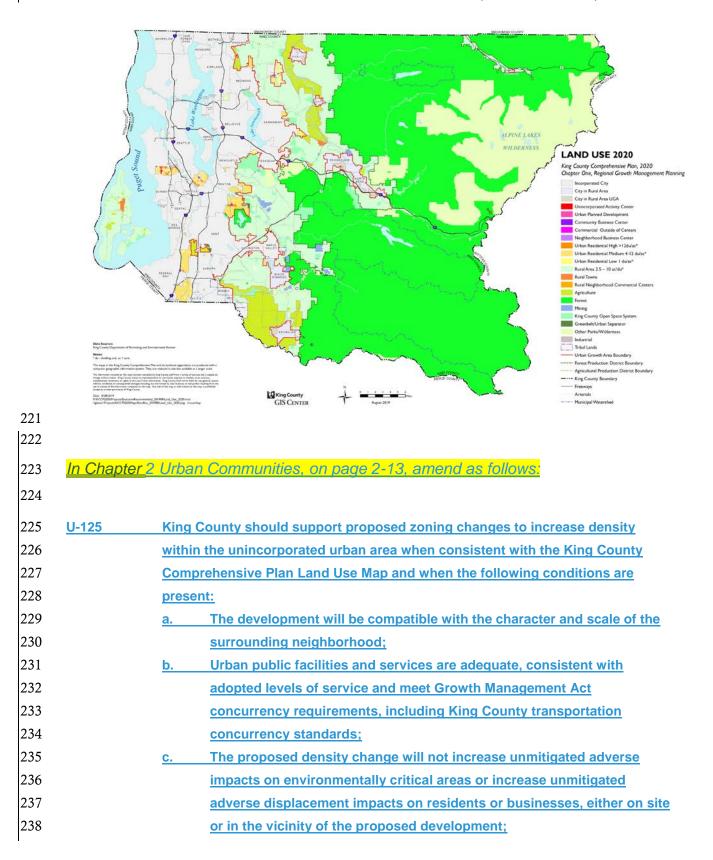

#### 156 Chapter 12: Implementation, Amendments and Evaluation

- 157 The Comprehensive Plan policies, development regulations and Countywide Planning Policy
- 158 framework have been adopted to achieve the growth management objectives of King County and the
- region. This chapter describes the <u>county's((e))County's</u> process for <u>((amending)) updating</u> the
- 160 Comprehensive Plan and outlines and distinguishes the annual ((cycle)), midpoint ((cycle)), and ((the))
- 161 eight-year ((cycle amendments)) updates. The chapter identifies a series of major Workplan actions that
- 162 will be undertaken between the ((major update cycles)) four-year midpoint and eight-year updates to
- 163 implement or refine provisions within the Plan. This chapter further explains the relationship between
- 164 planning and zoning.
- 165
- 166 In Chapter 1 Regional Growth Management Planning, starting on page 1-25, amend as
- 167 follows:

# 168 **V. Technical Appendices**

169	Integral to the vision and goals of the Comprehensive Plan are the detailed inventories, forecasts, finance plans
170	and Urban Growth Area analysis required by the Growth Management Act. Four technical appendices
171	(Volume 1) are adopted as part of the plan to implement these Growth Management Act requirements (RCW
172	36.70A.070, 36.70A.110, 36.70A130). Technical Appendices A, B, C, and D were updated in 2008, 2012,
173	((and)) 2016, and 2020.
174 175	Volume 1
176	Technical Appendix A. Capital Facilities and Services
177	Technical Appendix B. Housing
178	Technical Appendix C. Transportation
179	C1. Transportation Needs Report
180	C2. Regional Trail Needs Report
181	Technical Appendix D. Growth Targets and the Urban Growth Area
182	((Technical Appendix R. Public Participation Summary 2016))
183	
184	Additional important information also supports the vision and goals of the Comprehensive Plan. Nine
185	technical appendices (Volume 2) were prepared to provide supporting documentation to the 1994 plan:
186	
187	<u>Volume 2 (1994)</u>
188	Technical Appendix D. Growth Targets and the Urban Growth Area
189	Technical Appendix E. Washington State Laws
190	Technical Appendix F. History of Planning in King County
191	Technical Appendix G. Economic Development
192	Technical Appendix H. Natural Resource Lands
193	Technical Appendix I. Natural Environment
194	Technical Appendix J. Potential Annexation Areas
195	Technical Appendix K. King County Functional and Community Plans
196	Technical Appendix L. Public Involvement Summary
197	

Volume 3         Technical Appendix M.       Public Participation Summary 2000         Volume 4         Technical Appendix N. 		Land Use Map

239		d. The proposed density increase will be consistent with or contribute to
240		achieving the goals and policies of this comprehensive plan, and
241		<u>subarea plan or subarea study, if applicable((;)), or</u>
242		((e. T))the development is within walking distance of transit corridors or
243		transit activity centers, retail and commercial activities, and is
244		accessible to parks and other recreation opportunities((-)); and
245		e. An equity impact analysis has been completed that identifies all
246		potential equity impacts and displacement risk to residents or
247		businesses located on or adjacent to the site proposed for zoning
248		reclassification:
249		1. For area zoning or zoning reclassifications initiated by the County,
250		the analysis shall include, at a minimum, use of the County's Equity
251		Impact Review tool.
252		2. For zoning reclassifications not initiated by the County, a
253		community meeting shall be held that meets the requirements of K.C.C.
254		20.20.035 prior to submittal of the application. Notice of the community
255		meeting should be provided, at a minimum, in the top six languages
256		identified by the tier map of limited-English-proficient persons
257		maintained by the office of equity and social justice and the county
258		demographer.
259		
260	In Chapter 2	2 Urban Communities, on page 2-19, amend as follows:
261		• • • • • • • • • • • • • • • •
262	U-143	Common facilities such as recreation space, internal walkways that provide
263		convenient and safe inter- and intra-connectivity, roads, parking (including
264		secure bicycle parking), and solid waste and recycling areas with appropriate
265		levels of landscaping should be included in multifamily developments.
266 267		((Common facilities should)) Areas of multifamily buildings that are open to the
267		public (such as common hallways and elevators) shall be smoke-free and
208 269		vapor-product free to the extent allowed by state and local regulations to avoid
269		exposure to (( <del>environmental</del> )) <u>secondhand</u> tobacco smoke <u>and</u> aerosolemissions from electronic vapor and smoking device productsand
270		vaping devices.
		Tuping devices.
272	In Chantar	Urban Communition, starting on page 2.29, amond as follows
	In Chapter 2	2 Urban Communities, starting on page 2-28, amend as follows:

275 Through the adoption of the 2000 King County Comprehensive Plan ((2000 Update)) update, King County

276 reaffirmed its urban designation of the Bear Creek Urban Planned Development area. In addition to the

- 277 reasons that led the <u>county((e))County</u> (and the region) to originally include this area within the
- 278 <u>county's((e))County's</u> Urban Growth Area, when the <u>county((e))County</u> adopted the 2000 update, it noted
- that: two sites within this area had been approved for urban development after the adoption of the original
- 280 Growth Management Act Comprehensive Plan; significant infrastructure improvements had been made at
- these sites; and the ultimate development of these sites was proceeding in accordance with issued permit
- approvals. The existence of these urban improvements further supported a conclusion that this area is
- 283 characterized by urban growth within the meaning of the Growth Management Act and was therefore
- appropriately included within the <u>county's((e))County's</u> Urban Growth Area.
- 285

## 286

#### 6 In Chapter 2 Urban Communities, starting on page 2-32, amend as follows:

287

288 While urban separators complement the regional open space system by helping to define urban communities, 289 the King County Four-to-One Program provides an opportunity to add land to the regional open space system 290 through the dedication of permanent open space. The Four-to-One Program has been recognized as an 291 innovative land use technique under the Growth Management Act<sup>3</sup> and for King County, the purpose of the 292 program is to ((create)) contribute to the creation of a contiguous band of open space, running north and south 293 along the ((main)) original 1994 Urban Growth Area Boundary. Since its inception in 1994, just over ((1,300)) 294 <u>360</u> acres have been added to the Urban Growth Area while nearly ((4,500)) <u>1,400</u> acres of permanent open 295 space have been conserved. Changes to the Urban Growth Area through this program are processed as Land 296 Use Amendments to the King County Comprehensive Plan, subject to the provisions in King County Code 297 chapter 20.18.

298

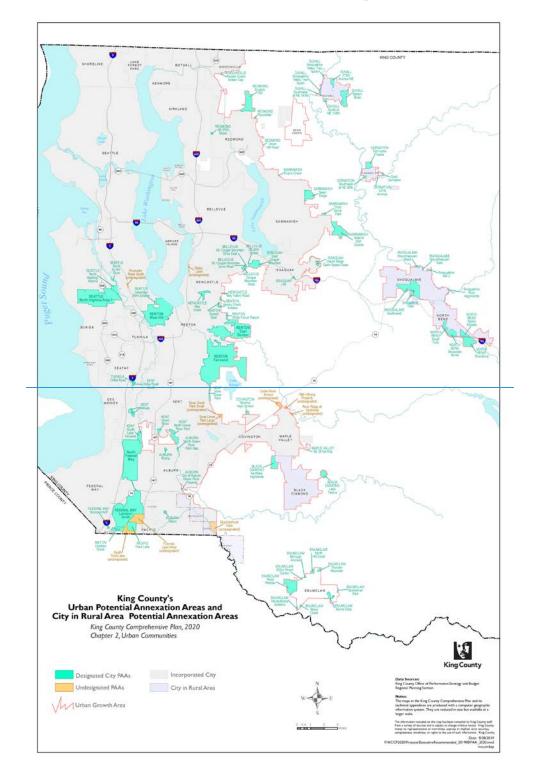

299	U-185	Through the Four-to-One Program, King County <del>((</del> shall actively pursue <del>)) <u>may</u></del>
300		support dedication of open space along the original Urban Growth Area line
301		adopted in the 1994 King County Comprehensive Plan. Through this program,
302		one acre of Rural Area zoned land may be added to the Urban Growth Area <u>for</u>
303		residential development in exchange for a dedication to King County of four
304		acres of permanent open space. (((Land added to the Urban Growth Area for
305		drainage facilities that are designed as mitigation to have a natural looking
306		visual appearance in support of its development, does not require dedication of
307		permanent open space)) In some cases, such as for provision of affordable
308		housing or for protection of properties eligible as high conservation value
309		properties, the County may approve modifications to the four-to-one ratio. The
310		total area added to the Urban Growth Area as a result of this policythe Four-to-
311		One Program shall not exceed 4,000 acres.

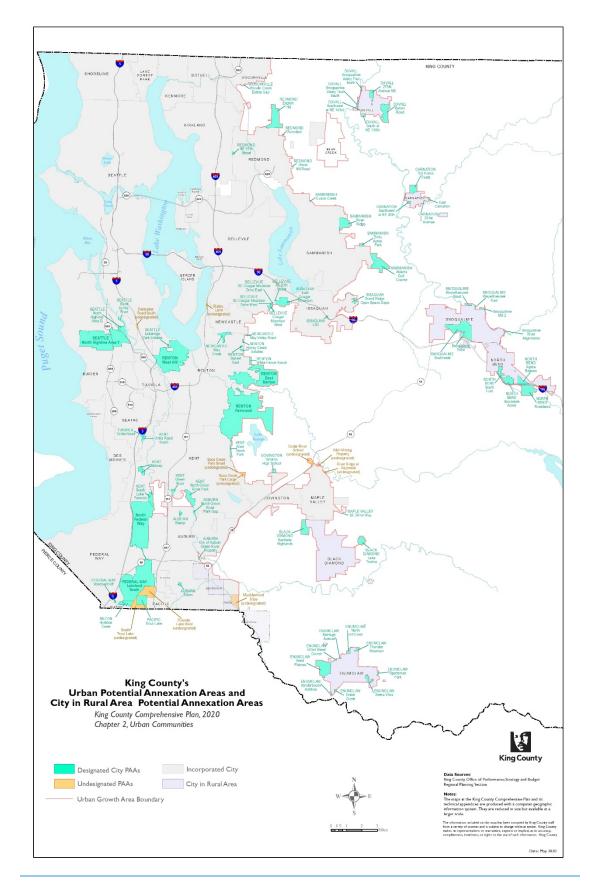

312		
313	U-186	King County shall evaluate Four-to-One proposals for both quality of open
314		space and feasibility of urban development. The highest-quality proposals
315		(( <del>shall</del> )) <u>may</u> be recommended for adoption as amendments to the Urban
316		Growth Area. Lands preserved as open space shall <u>primarily be on the site.</u>
317		shall buffer the adjacent Rural Area or Natural Resource Lands from the new
318		<u>urban development,</u> (( <del>retain their Rural Area designations</del> )) and should
319		generally be configured in such a way as to connect with open space on
320		adjacent properties.
321		
322	U-187	King County shall ((use the following criteria for)) consider the following when
323		evaluating open space in Four-to-One proposals:
324		a. Quality of fish and wildlife habitat areas;
325		b. Connections to regional open space systems or other open space along
326		the urban growth area boundary;
327		c. Protection of wetlands, stream corridors, ground water and water
328		bodies;
329		d. Unique natural, biological, cultural, historical, or archeological features;
330		e. ((Size of proposed open space dedication and connection to other open
331		<del>space ((dedications)) <u>lands</u> along the Urban Growth Area line; ((and))</del>
332		f. ((The land proposed as open space shall remain undeveloped, except
333		<del>for those uses allowed in U-188</del> )) <u>Size and configuration of the open</u>
334		space and improves the County's ability to efficiently manage the
335		property <del>; and</del> or the regional open space system.
336		g. Potential for public access.
337		
338	U-188	King County shall preserve the open space acquired through the Four-to-One
339		Program primarily as natural areas, passive recreation sites or (( <del>resource</del> ))
340		lands for farming or forestry <del>, and be given a land use designation and zoning</del>
341		classification at the time of Council approval consistent with the intended use.
342		King County may allow <u>((the following))</u> additional uses only if located on a
343		small portion of the open space, provided that these uses are found to be
344		compatible with the site's natural open space values and functions such as
345		those listed in <u>((</u> the preceding policy: <u>:)) Policy U-187.</u>
346		<u>((a. Trails;</u>

347		b. Compensatory mitigation of wetland losses on the urban designated
347 348		portion of the project, consistent with the King County Comprehensive
348 349		
		Plan and the Critical Area Ordinance; and
350 351		c. Active recreation uses not to exceed five percent of the total open space
		area. Support services and facilities for the active recreation uses may
352		locate within the active recreation area only, and shall not exceed five
353		percent of the active recreation area. An active recreation area shall not
354		be used to satisfy the active recreation requirements for the urban
355		designated portion of the project as required by King County Code Title
356		<del>21A.<u>.</u>))</del>
357		
358	U-189	Land added to the Urban Growth Area under the Four-to-One Program shall
359		have a minimum density of four (( <del>dwellings</del> )) <u>dwelling units</u> per acre and shall
360		be physically contiguous to the original Urban Growth Area, unless there are
361		limitations due to the presence of critical areas, ((, and)). Four-to-One proposals
362		shall be (((able to be)) served by sewers and other efficient urban services and
363		facilities <del>;((; provided that such sewer and other urban services and facilities</del>
364		<del>shall be<u>)) that are</u> provided directly from the urban area and shall not cross the</del>
365		open space- <u>, ((ə+))</u> Rural Area, or Natural Resource Lands. ((Drainage))
366		Infrastructure, including roads and drainage facilities, to support the urban
367		development shall be located within the urban portion of the development <u>.</u>
368		Roads that support the urban development shall, to the maximum extent
369		feasible, be located within the urban portion of the development; for example,
370		the County may allow roads to be located outside of the urban portion of the
371		development to protect critical areas or for other ecological benefit. ((In some
372		cases, lands must meet affordable housing requirements under this program.
373		((The total area added to the Urban Growth Area as a result of this policy shall
374		not exceed 4,000 acres.))
375		
376	U-190	((King County shall amend the Urban Growth Area to add Rural Area lands to
377		the Urban Growth Area consistent with Policy U-185 during the annual
378		Comprehensive Plan ((amendment)) update process. Proposals submitted by
379		property owners shall be initiated through the Comprehensive Plan Docket
380		process. Open space dedication shall occur at final formal plat recording))
381		Aland use designation and zoning classification consistent with the intended
382		use shall be established as part of the ordinance that approves the Four-to-One
383		proposal. If the applicant ((decides)) does not ((to)) pursue urban development
I		

	Attachment A to POProposed Ordinance 2019-XXXX0413 2020 Update to 2016 Comprehensive Plan
384	((or fails to record the final plat prior to expiration of preliminary plat
385	approval,)) the urban properties shall be restored to a Rural Area land use
386	designation and associated zoning <u>((during the next ((annual review)) midpoint</u>
387	or eight-year update of the King County Comprehensive Plan.)).
388	
389	U-190a For Four-to-One proposals adjacent to an incorporated area, approval of a Four-
390	to-One proposal shall require:should be coordinated with the adjacent city or
391	town, and strive to achieve an interlocal agreement with the adjacent city or
392	town for annexation of the urban portion of the proposal.
393	a. development shall only occur after the site has been annexed to the
394	adjacent city or town; and
395 396	b. establishment of an interlocal agreement between King County and the adjacent jurisdiction that identifies conditions for site development that
390 397	are consistent with the Four-to-One program requirements and goals.
398	are consistent with the rout to one program requirements and goals.
399	In Chapter 2 Urban Communities, on page 2-36, amend as follows:
400	In Chapter 2 Orban Commanues, on page 2-30, and a sjouows.
400	Although it is the policy of the county((e))County to support and promote annexation, its formal ability to do
402	so is extremely limited. State laws provide the cities, county residents and property owners with the authority
403	to initiate the annexation process. A successful annexation initiative depends on establishing a collaborative
404	and ongoing dialogue between the three affected interest groups: residents, the <u>county((e))County</u> , and the
405	affected city. However, King County has a successful history of engaging in annexation discussions with
406	urban unincorporated area residents. Most recently, from 2008 to ((2015)) 2019, there have been six major
407	annexations:
408	• Lea Hill and Auburn West Hill into Auburn;
409	• Benson Hill into Renton;
410	• North Highline Area X into Burien;
411	• Panther Lake into Kent;
412	• Juanita-Finn Hill-Kingsgate into Kirkland; and
413	Klahanie into Sammamish.
414	
415	In Chapter 2 Urban Communities, following page 2-39, deletestrike the Potential
416	Annexation Areas Map and replace with the following:
417

491		than one-half the size requirement of the base density for the zone;
492		and
493		2. The sending site is a RA zoned property and is located on a
494		shoreline of the state and has a shoreline designation of
495		conservancy or natural.
496		
497 <mark>In</mark>	Chapter 3 Rura	I Areas and Natural Resource Lands <u>, on page 3-24, amend as</u>
498 <mark>fc</mark>	llows:	
499		
	323 The <i>F</i>	Rural and Resource Land Preservation Transfer of Development Rights Program
501		include, but is not limited to, the following:
502	a.	In addition to the density that is allowed on a receiving site in the urban growth
503		area from the purchase of Transferrable Development Rights, the ((c))County
504		shall evaluate the climate change benefits achieved by reducing transportation
505		related greenhouse gas emissions that result from the transfer of development
506		rights from the sending site, provided that such consideration is not precluded
507		by administrative rules promulgated by the state;
508	b.	In order to satisfy transportation concurrency requirements in the Rural Area in
509		a transportation concurrency travel shed that is non-concurrent, a development
510		proposal for a short subdivision creating up to four lots may purchase
511		Transferrable Development Rights from other Rural Area or Natural Resource
512		Land properties in the same travel shed; allowing this is intended to reduce
513		overall traffic impacts in rural travel sheds by permanently removing
514		development potential. The transfer shall not result in an increase in allowable
515		density on the receiving site. A short subdivision creating two lots where the
516		property has been owned by the applicant for five or more years and where the
517		property has not been subdivided in the last ten years shall satisfy the
518		transportation concurrency requirements without having to purchase
519		Transferrable Development Rights;
520	<u>c.</u>	King County shall provide an added density bonus of up to a 100% increase
521		above the base density allowed in K.C. Code 21A.12.030, when Transferrable
522		Development Rights are used for projects within any designated commercial
523		center or activity center within the Urban Growth Area that provides enhanced
524		walkability design and incorporates transit oriented development, or when
525		Transfer of Development Rights are used for projects that provide affordable
526		housing in the R-4 through R-48 zones;
527	<u>d.</u>	King County may allow accessory dwelling units in the Rural Area that are
528		greater than one thousand square feet, but less than 1,500 square feet, if the
529		property owner purchases one Transferrable Development Right from the Rural
530		Area, Agriculture or Forestry designations; and
•		

	Attachment A to POProposed Ordinance 2019-XXXX0413
Į	2020 Update to 2016 Comprehensive Plan
531	e. King County may allow a detached accessory dwelling unit on a RA-5 zoned lot
532	that is two and one-half acres or greater and less than three and three-quarters
533	acres if the property owner purchases one Transferrable Development Right
534	from the Rural Area, Agriculture or Forestry designations.
535	
536	<u>In Chapter 3 Rural Areas and Natural Resource Lands, starting</u> on page 3-35, amend
537	as follows:
538	
539	D. Non-Resource Industrial Uses and Development Standards in the Rural
540	Area
541	There are ((three)) existing industrial-industrially-zoned areas ((in the Rural Area containing multiple
542	industrial uses on several sites)) and throughout the Rural Area. The primary industrially-zoned sites.
543	<u>areas include areas located ((One is located))</u> within the southwest portion of the Town of Vashon((-
544	The second is a designated industrial area)) in an area adjacent to the Rural Neighborhood Commercial
545	Center of Preston-, and in an area along State Route 169. The Preston Industrial Area ((recognizes))
546	includes an existing concentration of industrial uses that contributes to the economic diversity of the
547	Rural Area, ((but)) and expansion of this designated industrial area ((beyond the identified boundaries)) is
548	not permitted (see Policy CP-547) The ((third)) industrial area ((is located)) along State Route 169 is
549	located on ((lands)) sites that have been and continue to be used as for industrial purposes and have a
550	designation as a King County Historic Site. There are also existing industrial uses that are recognized on
551	sites in the Rural Area that are not zoned Industrial. Further expansion of these industrial uses is not
552	encouraged and the sites are not appropriate for Industrial zoning.
553	
554	R-512(The creation of new)) Industrial-zoned lands in the Rural Area shall be
555	limited to <del>((existing sites or t</del> hose that have long been used for industrial or

554	R-312	
555		limited to ((existing sites or those that have long been used for industrial or
556		<u>comparable</u> purposes, with similar impacts, ((do not have potential for
557		conversion to residential use due to a historic designation and that may be
558		accessed directly from State Route 169)) existing sites in order to reduce
559		pressure for growth, limit impacts on nearby natural resources and functions,
560		and avoid the need for infrastructure extensions. Existing industrial uses in the
561		Rural Area zone that do not qualify to be zoned Industrial may continue if they
562		are permitted uses or legal, nonconforming uses.
563		
564	R-513	Rural Public Infrastructure Maintenance Facilities, $f((x,y))$ and agriculture and
565		forestry product processing should be allowed in the Rural Area. (( <del>Other new</del>

566		industrial uses in the Rural Area shall be permitted only in Rural Towns and in		
567	the designated industrial area adjacent to the Rural Neighborhood Commercial			
568	Center of Preston.))			
569				
570	In order to p	reserve rural character and protect sensitive natural features, (( <del>new</del> )) rural industrial		
571	development	t in the Rural Area needs to be of a scale and nature that is distinct from urban industrial		
572	development	t. The scale and intensity and many of the uses allowed in urban industrial development are		
573	not appropri	ate for rural industrial ((areas)) development. The following policy applies to all new		
574	industrial de	velopment in the Rural Area.		
575				
576	In Chapter	r 3 Rural Areas and Natural Resource Lands, on page 3-36, amend as		
577	follows:			
578				
579	The intent of	f ((this policy)) these policies is to ((preclude)) limit expansion of the industrial area ((beyond		
580	<del>((the identif</del> i	<del>ed boundaries))</del> and <del>)) <u>their existing locations</u>. <u>They are also intended</u> to ensure that new</del>		
581	developmen	t <u>and uses</u> (( <del>()</del> ) not previously (( <del>constructed</del> )) <u>legally established</u> or vested (( <del>)</del> ) in (( <del>the</del> )) <u>rural</u>		
582	industrial are	eas meet((s)) rural character standards Site design, landscaping, design and construction of		
583	internal and	access roads and building scale should reinforce the ((set boundaries and)) rural nature of the		
584	industrial are	ea to further discourage future industrial expansion <u>((beyond the ((industrial boundary))</u>		
585	existing area	<u>)).</u>		
586				
587	((There are a	ulso existing ((,, isolated)) industrial uses on sites in the Rural Area that not zoned industrial.		
588	<u>These sites a</u>	re recognized, but the sites are not appropriate for expansion((new industrial uses)) Further		
589	expansion of	f these ((isolated)) industrial uses is not encouraged, and therefore ((they)) these sites are not		
590	zoned Indus	trial))		
591

599	In Chapter	<sup>r</sup> 3 Rural Areas and Natural Resource Lands, starting on page 3-38, amend		
600	<mark>as follows</mark> :			

# 602 A. Ensuring Conservation and Sustainable Use of Resource Lands

King County's Natural Resource Lands contribute to the economic prosperity of the region. They are the
lands with long-term commercial significance for farming, forestry, and ((minerals)) mineral extraction.
Businesses that rely on resource lands provide jobs and products, such as food, wood, and gravel. They
also are an important part of the cultural heritage. Conservation and responsible stewardship of working
farm and forest lands also produces multiple environmental benefits, such as:

- Stream and salmon protection;
- Clean air and water;
- 610 Wildlife habitat;
- Flood risk reduction;
- Groundwater recharge and protection; and
- Carbon sequestration and reduced greenhouse gas emissions.
- 614

615 For ((mining)) mineral extraction, responsible stormwater management, erosion and sediment control,

616 and site remediation can help to mitigate many of the impacts ((<del>of mining</del>)) while providing local sources

617 of materials such as sand and gravel.

618

619 King County has taken major steps to conserve and manage agricultural soils and activities, forestry and 620 ((mining)) mineral extraction opportunities. Natural Resource Lands and the industries they support are 621 conserved by encouraging development to occur primarily in the Urban Growth Area as directed by the 622 Growth Management Act. Under this Comprehensive Plan, Resource Lands, including designated 623 Agricultural Production Districts, the Forest Production District and sites of long-term commercial 624 significance for resource uses, will have minimal new residential and commercial development. New development that does occur will be designed to be compatible with active resource-based uses. 625 626 627 This chapter contains King County's strategy for conservation of these valuable Resource Lands and for 628 encouraging their productive and sustainable management. The strategy consists of policies to guide 629 planning, incentives, education, regulation and purchase or transfer of development rights. 630 631 Forest, ((farm)) agriculture, and mineral resource lands are not King County's only natural resources.

632 Many other resource-based industries, such as the fisheries industry, are influenced by King County's

633	land use and planning policies.	Policies for the protection and enhancement	of fisheries, as we	ell as air,
-----	---------------------------------	---	---------------------	-------------

634 water, vegetation, wildlife and other natural resources, can be found in Chapter 5, Environment.

#### In Chapter 3 Rural Areas and Natural Resource Lands, on page 3-40, amend as 636

#### follows: 637

#### 638

635

- 639 The Growth Management Act also requires designation of mineral resource lands primarily devoted to
- 640 the extraction of minerals or that have known or potential long-term significance for the extraction of
- 641 minerals. Minerals include, but are not limited to, gravel, sand, and valuable metallic substances. Coal
- 642 is not considered a mineral resource in King County. Such lands are shown as Designated Mineral
- 643 Resource Sites on the Mineral Resources Map in this chapter. The role of the Forest Production District
- 644 in the conservation of mineral resources is also explained below.
- 645

#### In Chapter 3 Rural Areas and Natural Resource Lands, on page 3-43, amend as 646

follows: 647

#### 648

- 649 Resource management strategies that protect the environment are necessary to maintain the long-term
- 650 productivity of the resource. Chapter 5, Environment, describes the value of using an integrated,
- 651 ecosystem-based approach to natural resource and environmental planning and management. This
- 652 approach, along with sound operational practices by resource-based industries, may be able to prevent or
- 653 minimize environmental impacts associated with common agricultural and forest practices and
- 654 ((mining)) mineral extraction while maximizing co-benefits.
- 655
- In Chapter 3 Rural Areas and Natural Resource Lands, on page 3-44, amend as 656
- 657 follows:
- 658 659 R-620 The Forest Production District shall remain in large blocks of contiguous forest 660 lands where the primary land use is commercial forestry. Other resource industry 661 uses, such as ((mining)) mineral extraction and agriculture, should be permitted 662 within the Forest Production District when managed to be compatible with 663 forestry. 664
- In Chapter 3 Rural Areas and Natural Resource Lands, on page 3-48, amend as 665 follows:
- 666
- 667

668	R-632	King County should continue to work with all affected parties and the Washington
669		State Department of Natural Resources to improve the enforcement of forest
670		practice regulations in the Rural Area, and to ensure that landowners comply with
671		county regulations when they are converting portions of a site to a non-forest use.
672		Harvesting of forest lands for the purpose of converting to non-forest uses shall
673		meet all applicable county standards for clearing and critical areas
674		management((-)), and the loss of carbon sequestration capacity resulting from
675		such forest conversions should be fully mitigated. Landowners opting to conduct
676		forest management activities under state approved forest practices permits should
677		be restricted from developing those areas for non-resource purposes for six years
678		from the date of forest practice approval. Recognizing that some landowners
679		combine the development of a residence or an agricultural activity on a portion of
680		the property with long-term forestry on the rest, the county should provide
681		flexibility in its regulations to address the residential development and agricultural
682		activity differently from the forest management.
683		
684	In Chapter	<u>3 Rural Areas and Natural Resource Lands, on page 3-56, amend as</u>
685	follows:	
686		
687	The 2012 Co	pmprehensive Plan (( <del>Update</del> )) <u>update</u> added policy R-650 that directed the County to
688		bilaborative watershed planning process within each of the Agricultural Production Districts.
689		choose to start the process in the Snoqualmie Valley Agricultural Production District, where
690	•	has undertaken a number of habitat restoration projects, to develop an approach to
691	•	as undertaken a number of nabitat restoration projects, to develop an approach to and balancing the interests of agricultural production, ecological function and habitat quality
692	for samon, a	and flood risk reduction and floodplain restoration.
693		
694	In Chapter	3 Rural Areas and Natural Resource Lands, starting on page 3-58, amend
695	<mark>as follows:</mark>	
696		
697	R-650a	The Snoqualmie Valley Agricultural Production District is the first Agricultural
698		Production District to undergo a watershed planning effort called for in R-650.
699		King County shall implement the recommendations of the Snoqualmie Fish,
700		Farm and Flood Advisory Committee. The recommendations of the task forces
701		and other actions identified in the final Advisory Committee Report and
702		Recommendations will form the basis for a watershed planning approach to
703		balance fish, farm and flood interests across the Snoqualmie Valley Agricultural

704		Production District and an agreement on protecting a defined number of acres
705		of agricultural land. The Advisory Committee, or a successor committee, will
706		monitor progress of the task forces and will reconvene to evaluate the
707		watershed planning approach to balancing interests prior to the next
708		Comprehensive Plan (( <del>Update</del> )) <u>update</u> . The policy issues and
709		recommendations outlined in the Snoqualmie Fish, Farm, Flood Advisory
710		Committee Report and Recommendations are largely specific to the
711		Snoqualmie Valley and are not intended to be applied broadly in other
712		Agricultural Production Districts. Future Fish, Farm, Flood efforts focused in
713		other Agricultural Production Districts will need to go through their own
714		processes to identify barriers to success for all stakeholders in these
715		geographic areas. R-649 continues to apply to the Snoqualmie Valley
716		Agricultural Production District until the watershed planning effort outlined in
717		the Fish, Farm and Flood recommendations is complete. A policy reflecting the
718		outcome of this effort shall be included in the next eight-year (( <del>cycle</del> )) <u>update <math>{ m eff}</math></u>
719		the ((Comprehensive Plan ((Update)).
720		
721	In Chapter 3	Rural Areas and Natural Resource Lands, on page 3-59, amend as
722	follows:	
723		
724	R-652	King County commits to preserve Agricultural Production District parcels in or
725		near the Urban Growth Area because of their high production capabilities, their
726		proximity to markets, and their value as open space. King County should work
727		with cities adjacent to or near Agricultural Production Districts to minimize the
728		operational and environmental impacts of urban development and public facilities
729		and infrastructure on farming and farmland, and to promote activities ((and
730		infrastructure)), such as Farmers Markets and agriculture processing businesses,
731		that benefit both the cities and the farms by improving access to locally grown
732		agricultural products.
733		
734	In Chapter 3	Rural Areas and Natural Resource Lands, <u>starting</u> on page 3-60, amend
735	<mark>as follows:</mark>	
736		
737	R-655	Public services and utilities within and adjacent to Agricultural Production
738		Districts shall be designed to support agriculture and minimize significant
739		adverse impacts on agriculture and to maintain total farmland acreage and the
740		
740		area's historic agricultural character:

741		а.	Whenever feasible, water lines, sewer lines and other public facilities
742			should avoid crossing Agricultural Production Districts. Installation
743			should be timed to minimize negative impacts on seasonal agricultural
744			practices;
745		b.	Road projects planned for the Agricultural Production Districts,
746			including additional roads or the widening of roads, should be limited to
747			those that are needed for safety or infrastructure preservation and that
748			benefit agricultural uses. Where possible, arterials should be routed
749			around the Agricultural Production Districts. Roads that cross
750			Agricultural Production Districts should be aligned, designed, signed
751			and maintained to minimize negative impacts on agriculture, and to
752			support farm traffic; and
753		с.	In cases when <u>King County concludes that <mark>regional</mark> public ((<del>or privately</del></u>
754			owned)) facilities meeting regional needs)) infrastructure cannot be
755			located outside of, and must intrude into, Agricultural Production
756			Districts, <u>the County shall ensure that the infrastructure</u> (( <del>they should</del> ))
757			be built and located to minimize disruption of agricultural activity <u>, and</u>
758			willshall establish agreements with the relevant jurisdictions or
759			agencies. If public infrastructure reduces total acreage in the Agricultural
760			Production District, these agreements shall follow the criteria established in
761			policy R-656.
762		d.	If public services and utilities reduce total acreage in the Agricultural
763			Production District, mitigation shall follow the criteria established in
764			policy R-656a.
765			
766	R-656	(( <del>Lan</del> e	<del>ds can</del> )) <u>King County may allow lands to</u> be removed from the Agricultural
767		Produ	uction Districts only when it can be demonstrated that:
768		а.	Removal of the land will not diminish the productivity of prime
769			agricultural soils or the effectiveness of farming within the local
770			Agricultural Production District boundaries; and
771		b.	The land is determined to be no longer suitable for agricultural
772			purposes; (( <del>and</del> )) <u>or</u>
773		C.	The land is needed for public infrastructureservices or facilities utilities as
774			described in policy R-655.
775			
776	<u>R-657</u>	Remo	wal656a King County may only approve the ((R))removal of ((the)) land
777		from	the Agricultural Production District (( <del>may)) <u>shall</u> occur only</del> )) if it is <u>.</u>
1			

778		concurrently with removal of the land from the Agricultural Production District,
779		mitigated through the <u>((addition)) replacement</u> of agricultural land abutting the
780		same Agricultural Production District that is, at a minimum, comparable in size,
781		soil quality and agricultural value. As alternative mitigation, the County may
782		approve a combination acquisition and restoration totaling three acres for every
783		one acre removed as follows:
784		a. The County may allow comparable land to A minimum of one acre
785		must be added to another Agricultural Production District if it
786		determines that no comparable land is available adjacent to for every acre
787		removed; and
788		b. Up to two acres of unfarmed land in the impacted same Agricultural
789		Production District. To avoid the loss of farmland in any of the districts, a
790		minimum of one and a half acres must from which land is removed shall
791		be addedrestored for every acre removed.
792		b. If the County determines that no land abutting an Agricultural
793		Production District is comparable and available, the County may
794		mitigate the loss of acreage by accepting funding for existing County
795		programs that restore lands that are farmable but unfarmed within an
796		existing Agricultural Production District in order to return them to active
797		agricultural production. To help avoid the loss of total farm
798		productivity, the funding shall be a minimum of double the financial
799		value of the land removed by the infrastructure project.
800		
801	In Ch	apter 3 Rural Areas and Natural Resource Lands, on page 3-63, amend as
802	follow	<mark>/S:</mark>
803 804	R-664	King County supports innovative technologies to process dairy and other
805		livestock waste to reduce nutrients and to create other products such as
806		energy and compost in ((the)) areas that have Agriculture and ((rural
807		classifications)) Rural Area land use designations.
808		
809	<mark>In Ch</mark>	apter 3 Rural Areas and Natural Resource Lands, starting on page 3-68, amend
810	<mark>as fol</mark>	lows:
811		
812	E.	Mineral Resources

813 King County contains many valuable mineral resources, including deposits of ((coal,)) sand, rock, gravel,

- 814 silica, clay, and metallic ores-. ((and potentially recoverable gas and oil. ((Mining)) Mineral extraction
- and processing these deposits is an important part of King County's economy, currently providing
- 816 hundreds of jobs and producing materials used locally, regionally, and nationally. ((Mining)) Mineral
- 817 <u>extraction</u> also has historic significance, in that it provided the impetus for past development in many
- 818 parts of King County, including Black Diamond and the Newcastle area.
- 819

King County is required by the Growth Management Act to designate and conserve mineral <u>resource</u>
lands and plan appropriately to protect them. In doing so the <u>county((e))County</u> must assure that land
uses adjacent to mineral <u>resource</u> lands do not interfere with the continued use of mineral <u>resource</u> lands

- 823 in their accustomed manner and in accordance with best management practices. The policies in this
- section explain the steps taken to designate and conserve mineral resource lands and provide direction on
- the comprehensive review needed before additional sites are designated for mineral resource extraction.
- Four main steps are necessary to <u>support and</u> maintain ((and enhance commercial)) <u>local availability of</u>
   mineral resources ((industries)). First, mineral resource sites should be conserved through designation
- 828 mineral resources ((industries)). First, mineral resource sites should be conserved through designation
- and zoning. Second, land use conflicts between ((mining)) mineral extraction, processing and related
- 830 operations and adjacent land uses should be prevented or minimized through policies and assessment and
- 831 mitigation of environmental impacts. Third, operational practices should protect environmental quality,
- 832 fisheries and wildlife, in balance with the needs of the industry. Finally, ((mining)) mineral extraction
- areas need to be reclaimed in a timely and appropriate manner.
- 834
- 835 The Mineral Resources Map identifies ((<del>four</del>)) <u>three</u> different types of Mineral Resource Sites <u>–</u>
- 836 Designated Mineral Resource Sites, Potential Surface Mineral Resources, and Nonconforming Mineral
- 837 <u>Resource Sites and Existing Mineral Resource Sites in the Forest Production District</u>. The sites were
- 838 identified in the 1994 King County Comprehensive Plan or in subsequent annual updates. ((Following))
- 839 Before the Mineral Resources Map is a ((spreadsheet)) table that contains information on each Mineral
- 840 Resource Site parcel.
- 841
- 842 The Designated Mineral Resources Sites on the Mineral Resources Map satisfy King County's
- 843 responsibility to designate and conserve mineral resources consistent with requirements of the Growth
- 844 Management Act. All Designated Mineral Resources Sites have Mineral zoning. Most of the
- 845 Designated Mineral Resources Sites shown on the map contain sand and/or gravel; however, a few
- 846 contain other mineral resources such as silica, rock, stone, shale, and clay. The criteria used in the 1994
- 847 King County Comprehensive Plan called for designation of properties that at the time were either zoned

outright for mining or those operating under an approved Unclassified Use Permit. In addition to the
 designated Mineral Resources Sites, the Forest Production District and Forest (F) zone preserves the
 opportunity for mineral extraction. ((Mining)) Mineral extraction is a permitted or conditional use in the
 F zone. Because forestry does not preclude future mineral extraction, King County considers the Forest
 Production District as part of its strategy to conserve mineral resources.

853

854 The Mineral Resources Map also shows Potential Surface Mineral Resource Sites. These are sites where 855 King County ((expects)) may allow some future surface mining to occur or where the owner or operator 856 indicates an interest in future ((mining)) mineral extraction. ((Most of the)) The Potential Surface 857 Mineral Resources Sites shown on the map ((contain sand and/or gravel; however, a few contain other 858 mineral resources such as quarry rock and coal)) do not indicate the material. Because of the geology of 859 King County, most valuable metallic mineral resources are located in the Forest Production District, and 860 are therefore already protected from urban development. Identification of Potential Surface Mineral 861 Resources Sites satisfies the Growth Management Act requirements to not knowingly preclude 862 opportunities for future ((mining)) mineral extraction and to inform nearby property owners of the 863 potential for future ((mining)) mineral extraction use of these areas in order to prevent or minimize 864 conflicts.

865

866 The Mineral Resources Map also shows ((Non-Conforming)) Nonconforming Mineral Resources Sites. 867 These are sites on which some mining operations predated King County zoning regulations without 868 appropriate zoning or other land use approval. Mining for these sites has not been authorized through a 869 ((Land Use Map or zoning designation)) land use designation or zoning classification. These sites are 870 shown for informational purposes only. Mining can occur on an identified site only if mining has been 871 approved as a nonconforming use by the Department of Local Services - Permitting Division ((and 872 Environmental Review)), and mining activities have received all other necessary permit approvals. 873 Because the sites have not undergone formal review to be designated on the Land Use Map or zoned for 874 mining, the sites do not have long-term commercial significance. However, they can continue to serve 875 mineral supply needs.

876

877 ((The Mineral Resources Map also shows Owner Identified Potential Coal Mining Sites that contain

878 subsurface coal resources. These sites could be mined by either underground or surface mining

879 techniques. Because of continued uncertainties involving the economics of energy and related market

880 conditions, it is not always possible to determine the timing or likelihood of coal resources extraction in

- 881 potential coal mining areas. Underground and surface coal mining is subject to permitting and
- 882 enforcement by the federal government. King County regulates land use decisions governing surface

883	facilities. Because of the difficulty in precisely locating these facilities prior to an actual proposal, King			
884	County dete	rmined to not apply Potential M zoning to owner-identified coal resources sites.))		
885				
886	R-679	King County shall identify existing and potential ((mining)) mineral extraction		
887		sites on the Mineral Resources Map in order to conserve mineral resources,		
888		promote compatibility with nearby land uses, protect environmental quality,		
889		maintain and enhance mineral resource industries and serve to notify property		
890		owners of the potential for (( <del>mining</del> )) <u>mineral extraction</u> activities. The		
891		county((c))County shall identify:		
892		a. Sites with existing Mineral zoning as Designated Mineral Resource		
893		Sites;		
894		b. Sites where the landowner or operator has indicated an interest in		
895		((mining)) mineral extraction, sites that as of the date of adoption of the		
896		1994 Comprehensive Plan had potential Quarrying/Mining zoning, or		
897		sites that the county((c))County determines might support future		
898		(( <del>mining</del> )) <u>mineral extraction</u> as Potential <u>Surface</u> Mineral Resource		
899		Sites; and		
900		c. Sites where mining operations predate zoning regulations but without		
901		zoning or other land use approvals as (( <del>Non-Conforming</del> ))		
902		<u>Nonconforming</u> Mineral Resource Sites(( <del>; and</del>		
903		d. Owner-Identified Potential Sub-Surface Coal Sites)).		
904				
905	R-680	King County shall designate as (( <del>mining</del> )) <u>Mining</u> on the Comprehensive Plan		
906		Land Use Map those sites that had Potential Mineral (M) zoning prior to the date		
907		of adoption of the 1994 Comprehensive Plan and those sites that had Mineral		
908		zoning as of the date of the adoption of the <u>2000</u> King County Comprehensive		
909		Plan (( <del>2000 Update</del> )) <u>update</u> .		
910				
911		———A mining((m))Mining designation on the Land Use Map shall not create a		
912		presumption that Mineral zoning will be approved for sites with Potential Mineral		
913		zoning. Potential Mineral zoning shall not be applied to additional sites.		
914				
915	(( <del>Mining</del> )) <u>N</u>	<u>Aineral extraction</u> is an intense operation that may continue for many years. ((Mining))		
916	Mineral extr	Mineral extraction operations can significantly change the land being mined and have impacts on the		
917	environmen	t and on nearby properties. Beyond direct impacts to the mine site and nearby properties,		
918	((the mining	((the mining, transport, and end use of coal in production of electricity releases carbon that contributes))		
919	mineral extr	action and processing can contribute to greenhouse gas emissions. In 2014, the		

- 920 county((e))County and cities updated the Countywide Planning Policies to set a goal to reduce
   921 greenhouse gas emissions 80% by 2050 at the county scale. ((-
- 922
- 923

=

924 ))The <u>county's((e))County's</u> 2015 Strategic Climate Action Plan includes the same overarching goal.

King County requires comprehensive review, including environmental analysis, prior to approving a
 Land Use Map and zoning change. Site-specific environmental review will also be required for a grading
 permit or any other permit that is necessary for a ((mining)) mineral extraction operation. Therefore, a
 comprehensive site-specific study is required prior to any such approval.

930

941

942

943

944

945

931 R-681 King County may designate additional sites on the Comprehensive Plan Land 932 Use Map as Mining only following a site-specific rezone to Mineral zoning. 933 Upon approval of a rezone to Mineral zoning, the Comprehensive Plan Land Use 934 Map shall be amended to designate the site as ((mining)) Mining during the next 935 Comprehensive Plan ((amendment cycle)) update. King County should approve 936 applications for site-specific rezones to Mineral zoning and applications for 937 permits that would authorize mineral extraction and processing only following 938 site-specific environmental study, early and continuous public notice and 939 comment opportunities, when: 940

- a. The proposed site contains rock, sand, gravel, ((<del>coal,)), oil, gas</del>)) or other mineral resources;
  - b. The proposed site is large enough to confine or mitigate all operational impacts;
    - c. The proposal will allow operation with limited conflicts with adjacent land uses when mitigating measures are applied;
- 946d.The proposal has been evaluated under the State Environmental Policy947Act so that the county((e))County may approve, condition or deny948applications consistent with the county's((e))County's substantive State949Environmental Policy Act authority, and in order to mitigate significant950adverse environmental impacts.
- 951e.Roads or rail facilities serving or proposed to serve the site can safely and952adequately handle transport of products and are in close proximity to the953site.
- 954

955 If King County denies an application for a site-specific ((mining)) Mineral rezone it should remove the 956 Mining land use designation from the Land Use map, and the associated Potential Surface Resource 957 Mineral ((zoning for the)) site designation from the ((county's Land Use maps)) Mineral Resources 958 mapMap. If the <u>county((e))County</u> denies a permit that would authorize mineral extraction and/or 959 processing on a Designated Mineral Resources Site, the <u>county((e))County</u> should consider new 960 information generated during the permit review process to determine whether the site is not properly 961 designated as mineral resource land of long-term commercial significance, the designation for the site on 962 the Mineral Resources Map should be changed from Designated Mineral Resources Site to Potential 963 ((surface)) Surface Mineral Resource Site. In addition, the Mining land use designation and the Mineral 964 zoning classification for the site should be amended to be compatible with the surrounding properties. 965 R-682 966 King County should remove the Mining land use designation on the Comprehensive Plan Land Use Map and associated Potential Mineral zone or 967 968 Mineral zoning for any sites that have been denied a rezone to Mineral. 969 970 If a grading or other permit necessary for the extraction of mineral resources is 971 denied on a Designated Mineral Resource Site, the county((c))County shall 972 evaluate whether such mineral resource designation is appropriate. The 973 re-evaluation process may occur ((during)) as part of the annual ((Comprehensive 974 Plan ((amendment cycle)) update and information produced during the permit 975 review process shall be used to evaluate the appropriateness of changing the 976 existing designation. If the county((c))County determines that the site should not 977 be designated as mineral resource land of long-term commercial significance as 978 defined in the Growth Management Act, the County shall evaluate whether the site 979 ((shall ((be redesignated to a Potential Surface)) should remain as aon the Mineral 980 Resource ((Site on the Mineral Resources)) Map, and ((to a)) whether the land use 981 designation and zoning classification should be changed, with consideration for 982 ((compatible)) compatibility with the surrounding properties. 983 984 R-683 King County may ((update)) amend the Mineral Resources Map to identify additional Potential Surface Mineral Resource Sites ((only during)) as part of 985 986 the eight-year ((Comprehensive Plan ((amendment cycle)) update or ((as part of 987 a four-year)) midpoint update. 988 989 R-684 The preferred adjacent land uses to sites designated as Mining on the Land Use 990 Map are ((mining)) mineral extraction, industrial, open space or forestry uses.

991	Sites for newly proposed Mineral zones shall not be adjacent to or within
992	Agricultural Production Districts. Agricultural lands and operations should be
993	protected from significant impacts associated with nearby (( <del>mine</del> )) <u>mineral</u>
994	extraction operations.

1002

1010

1020

996R-685((Mining)) Mineral extraction activities are permitted within the Forest997Production District, consistent with policy R-620. However, a conditional use998permit shall be required for ((mining)) mineral extraction activities in the Forest999((Production District)) zone located within one-quarter mile of established1000residences or for proposals seeking to use local access streets where abutting1001lots are developed for residential use.

1003R-686In order to comprehensively assess the environmental impacts associated with a1004zoning change, conditional use or operating approval for a ((mining)) mineral1005extraction proposal, the range of environmental impacts, including short-term and1006long-term effects arising or existing over the lifetime of the proposal, shall be1007assessed at the earliest possible stage. This should include the potential for1008future proposals for structures and operations related to ((mining)) mineral1009extraction, such as asphalt and concrete batch plants.

1011 R-687 King County should prevent or minimize conflicts with ((mining)) mineral 1012 extraction when planning land uses adjacent to Designated Mineral Resource 1013 Sites and Potential Surface Mineral Resource Sites. Subarea studies may 1014 indicate areas where ((mining)) Mining is an inappropriate land use designation. 1015 Designated Mineral Resource Sites and Potential Surface Mineral Resource 1016 Sites and ((nonconforming sites)) Nonconforming Mineral Resource Sites 1017 should be shown on the Mineral Resources Map and subarea study maps in 1018 order to notify nearby property owners and residents of existing and 1019 prospective ((mining)) mineral extraction activities.

1021R-688The periodic review process for mineral ((extractive)) extraction and processing1022operations shall include sufficient public notice and comment opportunities.1023The purpose of the periodic review process is to provide opportunities for1024public review and comment on the mineral resource facility's fulfillment of state1025and county((e))County regulations and implementation of industry-standard1026best management practices, and for King County to modify, add or remove1027conditions to address new circumstances and/or unanticipated

1028		project-generated impacts. The periodic review process is not intended to
1029		re-examine the appropriateness of the mineral resource use, or to consider
1030		expansion of operations beyond the scope of existing permitted operations
1031		since that review would be accomplished through the <u>county's((c))County's</u>
1032		permitting process. The periodic review is intended to be a part of King
1033		County's ongoing enforcement and inspections of mineral resource sites, and
1034		not to be a part of the <del>county's ((e)) County's</del> permitting process.
1035		
1036	R-689	Conditions and mitigations for significant adverse environmental impacts
1037		associated with mineral extraction or mining operations and their associated
1038		structures or facilities should be required, especially in the following areas:
1039		a. Air quality;
1040		b. Environmentally sensitive and critical areas, such as surface and
1041		groundwater quality and quantity, wetlands, fisheries and wildlife
1042		habitats, and aquatic habitats;
1043		c. Noise levels;
1044		d. Vibration;
1045		e. Light and glare;
1046		f. Vehicular access and safety;
1047		g. Land and shoreline uses;
1048		h. Traffic impacts;
1049		i. Visual impacts;
1050		j. Cultural and historic features and resources;
1051		k. Site security;
1052		I. Climate change impacts from (( <del>coal mined</del> )) <u>minerals extracted</u> for
1053		energy production; and
1054		m. Others unique to specific sites and proposals.
1055		
1056	R-690	Where mineral extraction or mining are subject to state or federal regulations,
1057		King County should work with the state and federal governments to ensure that
1058		proposals (( <del>for underground mining, oil and gas extraction, and surface coal</del>
1059		mining)) are reviewed with consideration of local land use and environmental
1060		requirements, regional impacts from transport and assessment of climate
1061		change impacts from end-use of (( <del>oil, gas and coal</del> )) <u>minerals and mined</u>
1062		materials.
1063 1064	R-691	King County should work with the Washington State Department of Natural
1065		Resources to ensure that mining areas are reclaimed in a timely and
1000		

1066		appropriate manner. Reclamation of mineral extraction or mining sites in
1067		the Forest Production District should return the land to forestry. Where
1068		((mining)) mineral extraction is completed in phases, reclamation also
1069		should be completed in phases as the resource is depleted. When
1070		reclamation of ((mining)) mineral extraction sites located outside of the
1071		Forest Production District is completed, the site should be considered for
1072		redesignation to a land use designation and zoning classification
1073		compatible with the surrounding properties.
1074		
1075	In Chapter 3 Rι	Iral Areas and Natural Resource Lands, starting on page 3-74, amend
1076	<mark>as follows:</mark>	
1077		
1078	<u>R-693</u>	King County shall prohibit the establishment of new coal mines and the
1079		expansion of existing coal mines.
1080

• Each map number corresponds to one or more parcel number(s), and in some cases different owners and operators. The acreage listed represents the sum acreage of all the parcels of the site. Please refer to the technical appendix for the parcel-specific version of this table.

• Designated Mineral Resource Sites: Sites with Mineral Zoning.

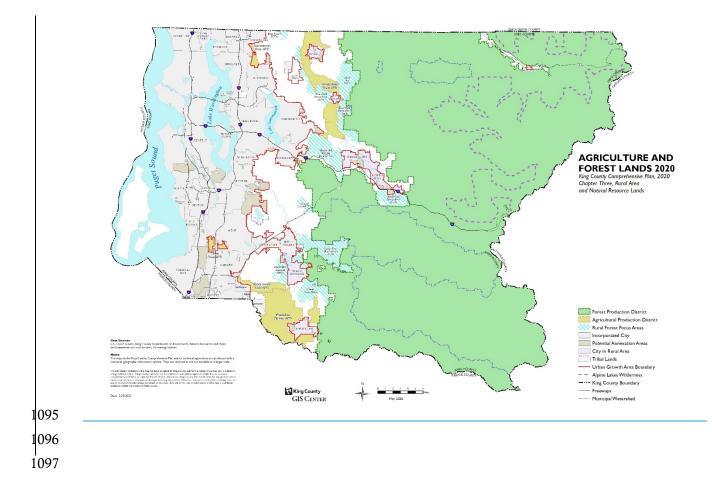

• Potential Surface Resource Mineral Sites: Sites identified by the landowner or operator prior to Nov.18, 1994 and sites as of Nov. 18, 1994 that had pending rezone applications for

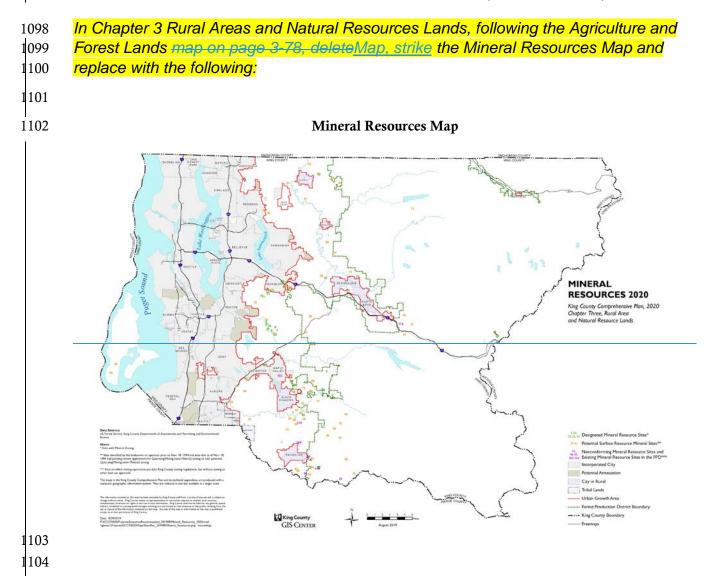

Quarrying/Mining (now Mineral) zoning or had potential Quarrying/Mining (now Mineral) zoning. Such sites may or may not be able to operate, and are subject to all federal, state and local regulations.

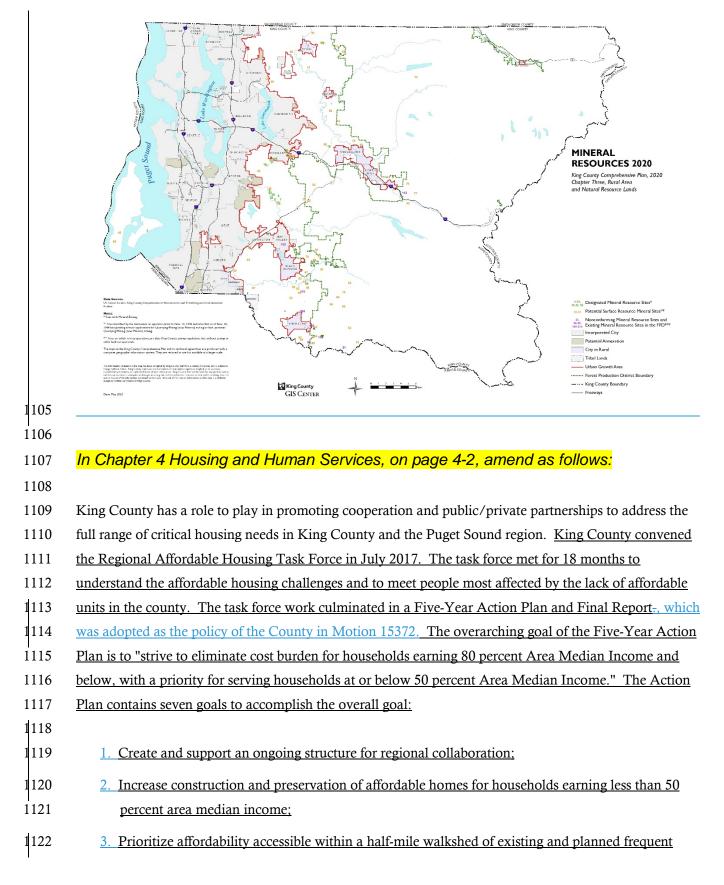

• Nonconforming Mineral Resource Sites and Existing Mineral Resource Sites in the Forest Production District: Sites on which miningmineral extraction operations pre-date King County zoning regulations, but without zoning or other land use approvals. 1086

#### Comprehensive Plan Amendments Page 44

1123	transit service, with a particular priority for high-capacity transit stations;
1124	4. Preserve access to affordable homes for renters by supporting tenant protections to increase
1125	housing stability and reduce risk of homelessness;
1126	5. Protect existing communities of color and low-income communities from displacement in
1127	gentrifying communities;
1128	6. Promote greater housing growth and diversity to achieve a variety of housing types at a range of
1129	affordability and improve jobs/housing connections throughout King County; and
1130	7. Better engage local communities and other partners in addressing the urgent need for and benefits
1131	of affordable housing.
1132	
1133	The King County Department of Community and Human Services is managing the County's role in
1134	implementing the Five-Year Action Plan, in collaboration with other internal parties such as the Metro
1135	Transit Department, the Facilities Management Division, the Department of Natural Resources and
1136	Parks, and the Department of Local Services. The King County Growth Management Planning Council
1137	created a new Affordable Housing Committee to serve as a regional advisory body with the goal of
1138	recommending actions and assessing progress toward implementation of the Five-Year Action Plan. The
1139	Committee is intended to function The Committee is comprised of representatives of King County, the
1140	City of Seattle, Sound Cities Association, housing authorities, and others with expertise in affordable
1141	housing, including preventing displacement. The Committee is responsible for recommending
1142	amendments to the Countywide Planning Policies, including regional goals, metrics, and land use
1143	policies. The Committee functions as a point of coordination and accountability for affordable housing
1144	efforts across King County.
1145	
1146	In Chapter 4 Housing and Human Services, on page 4-20, amend as follows:
1147	
1148	H-201 In coordination with local jurisdictions, funding partners and community
1149	partners, King County will seek to build and sustain coordinated regional health
1150	and human services and behavioral health systems to provide services,
1151	supports, safety and opportunity to those most in need. In carrying out its role
1152	in such systems, King County government will:
1153 1154	a. Work with other jurisdictions and organizations to define a regional
1154	health and human services and behavioral health systems and strengthen financing, access and overall effectiveness of services;
1100	שובחקוובה ההמוכוווץ, מכנבשם מוע סיפומו פוופטויפופשם טו שו אונפט;

1156	b.	Collaborate with other funders to assure coordination in how funds are
1157		used, and continue to explore improvements to system design,
1158		contracting, data collection and analysis;
1159	с.	Retain responsibility for the development and implementation of
1160		mandated, through law or adopted <u>county((c))County</u> policy, countywide
1161		specialty systems for behavioral health (including mental health and
1162		substance use disorder treatment), physical, emotional and cognitive
1163		health, public health, drug and alcohol abuse and dependency,
1164		veterans, <u>older adults, children and youth, vulnerable adults,</u> and people
1165		with developmental disabilities;
1166	d.	Define its regional role in other human service and prevention-oriented
1167		systems, including systems that address homelessness, older adults'
1168		needs, domestic violence, sexual assault, crisis diversion and re-entry,
1169		early intervention and prevention and youth and family services;
1170	e.	Assess and measure the health and needs of King County's residents
1171		on an ongoing basis and modify strategies to respond to changing
1172		needs, outcomes, and new research; and
1173	f.	Review the effectiveness and appropriateness of this policy framework
1174		periodically and revise if needed.
1175		
1176	In Chapter E Envir	armant on page 5.5, amond as follows:
1177	In Chapter 5 Enviro	onment, on page 5-5, amend as follows:
1178		
1179	As part of the <u>2004</u> Co	mprehensive Plan (( <del>Update in 2004</del> )) <u>update</u> , King County updated its critical

These regulations are functionally tandards for protection of wetlands, aquatic areas, and wildlife areas also working ape-level standards for stormwater management, water quality, and clearing and conment, on page 5-12, amend as follows:

1193	recovery plans prepared for Chinook salmon. King County, through its land use decisions, management
1194	of stormwater and wastewater discharges, development of recycled water supplies, cooperative habitat
1195	protection and restoration projects, work in flood risk reduction, salmon recovery, support for
1196	agricultural and natural land protection, actions to address climate change and ongoing environmental
1197	monitoring, is actively involved in the conservation and recovery of Puget Sound. King County has the
1198	opportunity, and responsibility, to make significant contributions to protecting and restoring Puget
1199	Sound. The Puget Sound Partnership's 2018-2020 Action Agenda for Puget Sound was revised in 2012,
1200	2014-, ((and)) 2016, and 2018, focusing on three Strategic Initiatives: protecting and restoring habitat,
1201	preventing pollution from stormwater, and recovering shellfish beds. ((The Partnership ((anticipates
1202	updating)) updated the Action Agenda again in 2018))
1203	
1204	In Chapter 5 Environment, starting on page 5-20, amend as follows:
1205	
1206	Climate change impacts are here and now; in the last century, sea level in Seattle has risen by eight inches
1207	and average annual temperatures in the Pacific Northwest have increased 1.5 degrees Fahrenheit. While
1208	greenhouse gas emissions must be reduced to avoid the worst impacts of climate change, impacts are
1209	projected even if global and local greenhouse gas emissions are drastically cut. The County is integrating
1210	climate change preparedness into:
1211	Operations and maintenance of infrastructure, programs and natural resources;
1212	Provision of public services:
1213	Policies and regulations; and
1214	Partnerships with other local governments, community groups and businesses.
1215	
1216	In Chapter 5 Environment, on page 5-20, after policy E-215b, insert the following, and
1217	renumber the remaining policies consecutively and correct any internal references
1218	accordingly:
1219	
1220	E-215c215bb King County shallshould implement land use regulations that increase
1221	residentmitigate and businessbuild resiliency to the anticipated impacts of
1222	climate change, based on best available science, such as information. Such
1223	impacts include sea level rise, changes in rainfall patterns, changes in and flood
1224	volumes and frequencies, and changes in average and extreme temperatures
1225	and weather, impacts to forests including increased wildfires, droughts and
1226	pest infiltrations. Methods could include mitigating greenhouse gas emissions,

	Attachment A to POProposed Ordinance 2019-XXX 2020 Update to 2016 Comprehensive
	establishing sea level rise regulations, and/or strengthening forests ability to
	withstand impacts.
<u>E-215d</u> 215	bbb_King County shall assess the best available sea level rise projections two year
	prior to each eight-year Comprehensive Plan-update, and shall incorporate the
	projections into the amendmentsComprehensive Plan where appropriate.
In Chapte	er 5 Environment, on page 5-33, amend as follows:
E-420	King County should incorporate climate change projections into new
	species protection plans, and shall revise older species protection plans
	when feasible or when conducting (( <del>regular plan</del> )) eight-year updates to
	incorporate projected impacts from climate change.
In Chapte	er 5 Environment, on page 5-42, amend as follows:
E-440	King County should regularly review the Washington Department of Fish and
	Wildlife's list of Priority Species and other scientific information on species of
	local importance, and evaluate whether any species should be added to or
	deleted from the lists in <u>policies</u> E-435 and E-437. Any additions or deletions
	should be made through <del>((</del> th <del>e)) <u>an</u> annual ((<del>amendment process for)) <u>update to</u></del></del>
	the comprehensive plan)) update.
In Chapte	er 5 Environment, on page 5-42, after policy E-441, insert the following:
<u>In accordar</u>	nce with new statutory requirements, as described in Chapter 9, Services, Facilities and
<u>Utilities, th</u>	e Department of Ecology has established a Watershed Restoration and Enhancement
<u>Committee</u>	in all five Watershed Resource Inventory Areas located either entirely or partially within
King Coun	ty. King County is participating in the Ecology process of developing a flow restoration
strategy for	each of the Watershed Resource Inventory Areas to mitigate the consumptive use of new
<u>permit-exer</u>	npt wells drilled in the next 20 years. The flow restoration strategies are anticipated to be
recommend	<u>led by 2021.</u>

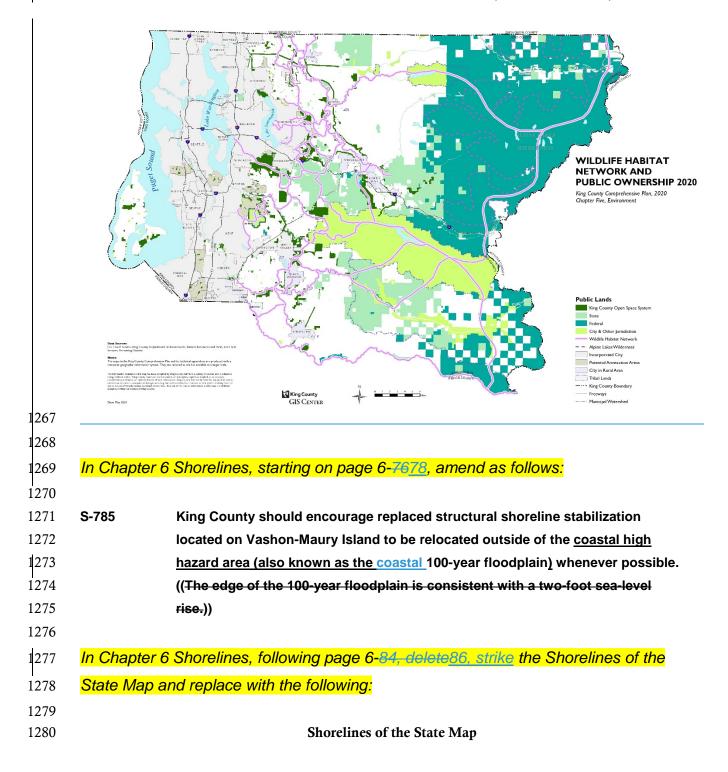

In Chapter 5 Environment, following page 5-83, deletestrike the Wildlife Habitat Network
 and Public Ownership Map and replace with the following:

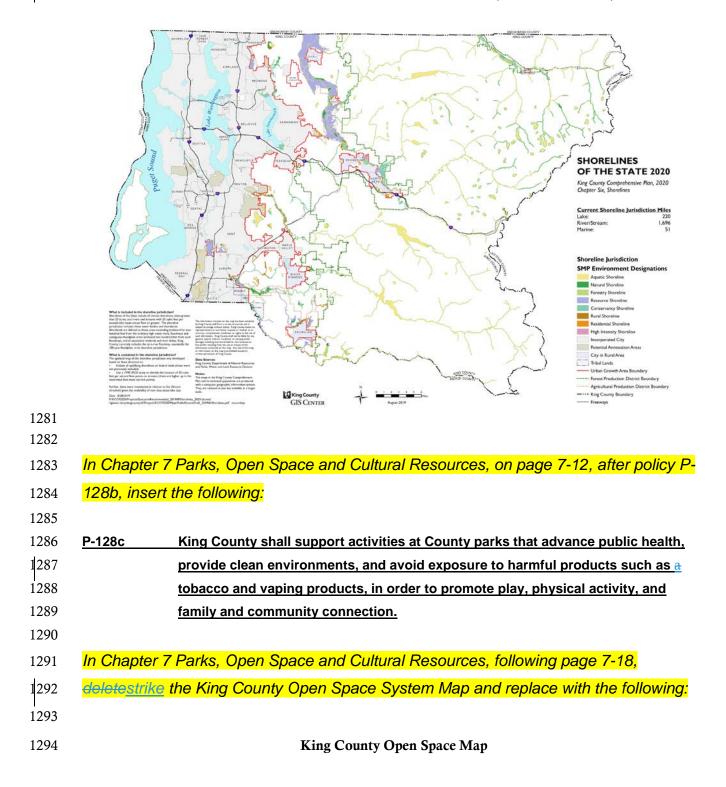

1264

# **CHAPTER 8**

# TRANSPORTATION

Transportation is critically important to King County and the surrounding region and has profound effects on quality of life and the vitality of the economy. Transportation provides access to jobs, education, services, recreation, and other destinations throughout King County. King County plays a central role in the regional transportation sector, supporting a variety of motorized, nonmotorized, air and marine transportation needs and providing services and facilities ranging from local to international.

In Chapter 8 Transportation, on page 8-1, amend as follows:

The <u>county((e))County</u> has direct responsibility for the unincorporated area road network. It provides transit services and facilities throughout the <u>county((e))County</u>, including within cities, and also performs many of Sound Transit's services under contract. King County Metro also operates <u>streetcar</u> <u>services within</u> the City of Seattle ((<del>South</del> <u>Lake Union streetcar</u>)). The King County International Airport/Boeing Field is owned, operated and maintained by the <u>county((e))County</u>.

King County's Marine Division operates passenger-only ferry service from downtown Seattle to Vashon Island and West Seattle.

The county((e))County also provides requested road-related services to over two dozen cities or other agencies through contractual agreements where there is mutual benefit to the county((e))County and its customer cities and agencies.

1305

1306 In Chapter 8 Transportation, on page 8-3, amend as follows:

1307

The current and projected economic climate, however, places severe constraints on the
county's((e))County's ability to meet these important goals. The strategic plans for the <u>Road Services</u>
<u>Division</u>, Metro Transit <u>Department</u>, <u>and the</u> Marine-((, <u>and Road Services Divisions</u>)) <u>Division</u> identify
priorities, analyze available funding and constraints, and set targets to help reach these goals.

1313 In Chapter 8 Transportation, on page 8-5, amend as follows:

1314	
1315	Public transportation is vitally important to the Puget Sound region. It provides connections to jobs,
1316	schools, and other destinations, and enables those with limited mobility options to travel. Public
1317	transportation enhances regional economic vitality by freeing up roadway capacity and improving the
1318	mobility of people, goods, and services. It saves the region time and money. It helps accommodate
1319	regional growth by making better use of the region's existing infrastructure and benefiting the
1320	environment. Public transportation improves the quality of life and health for residents and visitors to the
1321	Puget Sound region. King County provides public transportation services through the Metro Transit
1322	(( <del>Division</del> )) <u>Department</u> , as well as passenger ferry service through the Marine Division.

1323

#### 1324 Metro Transit ((Division)) Department

1325 The King County ((Department of Transportation's)) Metro Transit ((Division)) Department (Metro) is 1326 the designated public transit provider for King County. Metro's mission is to provide the best possible 1327 public transportation services and improve regional mobility and quality of life in King County. Metro 1328 provides more than 120 million fixed-route transit rides per year. Its fixed route system includes a 1329 network of all-day, two-way bus routes between residential, business and other transit activity centers; 1330 peak-period commuter service to major destinations from many neighborhoods and from a network of 1331 park-and-ride lots; and local bus services that connect people to the larger transportation system. In 1332 addition to bus service, Metro provides alternative services, such as commuter vanpools, Access 1333 paratransit service, Commute Trip Reduction programs, and Rideshare Online, as well as community 1334 programs such as In Motion and car-sharing. 1335

#### In Chapter 8 Transportation, starting on page 8-6, amend as follows: 1336

- 1337
- 1338 Water Taxis: King County's Marine Division
- 1339 ((On January 1, 2015, the King County Ferry District was assumed by King County. The Marine
- 1340 Division continues to operate passenger-only ferry service routes from downtown Seattle to West Seattle
- 1341 and Vashon Island. State legislation passed during the 2014 legislative session allowed King County to
- 1342 take this action. King County gained many administrative efficiencies as the Marine Division will no
- 1343 longer be maintaining two separate budgets, transferring funds between multiple agencies and accounts,
- 1344 and providing reports to two governments.))
- 1345
- 1346 The Marine Division, which is a part of the Metro Transit Department, provides service from downtown
- 1347 Seattle to West Seattle and Vashon-Maury Island. The Marine Division is guided by the King County
- 1348 Ferry District 2014 Strategic Plan, which was developed while under the King County Ferry District's

1349 governance. The plan expresses the vision and goals for passenger-only ferry service in King County for 1350 the next three to five years. The strategies are the broad initiatives to pursue the vision and goals, with 1351 specific actions listed under each strategy. The plan's vision is to be a leader in regional mobility 1352 benefiting the community and economic development needs of King County through providing water 1353 taxi service that is safe, reliable, and a great customer experience while being responsive and accountable 1354 to the public. The goals are to: 1) provide reliable and safe service; 2) deliver financially sustainable water 1355 taxi service; and 3) to integrate water taxi service with the broader regional transportation system and 1356 economy. The strategies to achieve these goals include: 1) build on strengths and grow ridership; 2) 1357 achieve financial stability; 3) coordinate with regional planning and emergency management efforts; and 1358 4) explore growth and partnership opportunities.

1359

#### In Chapter 8 Transportation, starting on page 8-7, amend as follows: 1360

1361

1362 The Strategic Plan for Road Services defines the vision and mission for the King County Department of 1363 ((Transportation's Road)) Local Services - Road Services Division. The Strategic Plan for Road Services 1364 provides detailed direction for the response to the many complex challenges, including two trends that 1365 have had significant impacts on the <del>county's((e))County's</del> road services. One is that annexations, consistent with the goals of the Growth Management Act, have reduced the urban unincorporated area 1366 1367 and therefore the tax base that supports the unincorporated road system has shrunk significantly. By 1368 ((2023)) 2024, when the next ((major)) eight-year Comprehensive Plan update is completed, Road 1369 Services Division's responsibilities will likely focus almost entirely on the Rural Area and Natural 1370 Resource Lands. A second trend is the decline in County road funding, described in greater detail in 1371 Section IV. The Strategic Plan for Road Services guides the Road Services Division as it is faced with the 1372 consequences of a smaller service area and reduced funding and seeks to manage the unincorporated 1373 King County road system through focused investment of available resources to facilitate the movement of 1374 people, goods and services, and respond to emergencies. 1375 1376

## In Chapter 8 Transportation, on page 8-9, amend as follows:

1377

1378 T-104 The Strategic Plan for Public Transportation 2011-2021, King County Metro 1379 Service Guidelines and the King County Metro Long Range Plan for Public 1380 Transportation, or successor plans, shall guide the planning, development and 1381 implementation of the public transportation system and services operated by 1382 the King County Metro Transit ((Division)) Department.

1383

1384 In Chapter 8 Transportation, on page 8-10, amend as follows:

	Attachment A to POProposed Ordinance 2019-XXXX0413 2020 Update to 2016 Comprehensive Plan
T-107	The King County International Airport Strategic Plan, or successor plans, shall
	guide the planning, development and implementation of airport facilities and
	services managed by the King County <u>International</u> Airport (( <del>Division</del> )).
In Chapt	er 8 Transportation, on page 8-15, amend as follows:
T-213	King County should use its authority including zoning, permitting and
	development standards to protect the public use airports of (( <del>Banderra</del> ))
	Bandera near the town of North Bend and Skykomish airport in King County
	from encroachment of non-compatible land uses. Compatible airport land uses
	are those that comply with generally accepted Federal Aviation Administration
	guidance on location, height, and activity that provide for safe aircraft
	movement, airport operations, including expansion, and community safety.
In Chapt	er 8 Transportation, on page 8-18, amend as follows:
The State	Environmental Policy Act establishes environmental review of project impacts on all elements
	ronment including transportation. ((In addition, the county has a mitigation payment system
	evelopments are charged proportionate shares for transportation projects and services needed
5	of the related growth.))
as a result	
In Chapt	er 8 Transportation, on page 8-19, amend as follows <del>, and renumber the</del>
	a policies consecutively and correct any internal references accordingly:
<del>enann</del>	g poincies consocutively and content any internal references accordingly.
(( <del>T-229</del>	King County shall implement a system that establishes fees needed to mitigate
((1 220	the growth-related transportation impacts of new development. The fees will be
	used to pay a development's proportionate share of transportation capital
	projects needed to support growth including, but not limited to, road, transit,
	and nonmotorized facilities. Such fees are in addition to any requirements
	established for transportation services and facilities needed solely as a result of
	the development.))
In Chapt	er 8 Transportation, on page 8-20, amend as follows:
onapt	

1422 such as bicycle lanes, sidewalks, or shoulders on  $\frac{county}{(e)}$  County roads. The division also provides 1423 crosswalks and specialized signals or signage that help facilitate safer nonmotorized travel. The King 1424 County Road Design and Construction Standards include accommodation for nonmotorized uses and 1425 specify bicycle lane, sidewalk, or road shoulder criteria for unincorporated urban and rural roads. 1426 Sidewalks are allowed in Rural Towns and, under certain circumstances, sidewalks are allowed in the 1427 Rural Area as a spot improvement to address an existing safety or high-use issue when other walkway 1428 alternatives would not be as effective, or for safe routes to school. Road-related nonmotorized capital 1429 needs in the unincorporated area are included in the Transportation Needs Report and are programmed 1430 in the six-year Roads Capital Improvement Program as funding allows. The HealthScape Transportation 1431 Programming Tool, along with other criteria, is used in evaluating nonmotorized projects in the 1432 Transportation Needs Report. 1433 1434 King County also plays a countywide role in nonmotorized transportation through its Regional Trails 1435 System and transit services. The regional trail network, discussed in Chapter 7, Parks, Open Space and 1436 Cultural Resources, is an integral component of the  $\frac{\text{county's}((e))\text{County's}}{\text{transportation system}}$ . It

In unincorporated King County, the Road Services Division is responsible for nonmotorized facilities

1437includes facilities located both in cities and the unincorporated area. The trail network functions as the1438spine of the  $county's((\epsilon))County's$  nonmotorized system in many areas. Transit and walking or biking are1439highly synergistic; transit use tends to be highest in locations where walking and biking are prevalent, and1440vice versa. The Metro Transit ((Division)) Department supports nonmotorized transportation programs1441such as bicycle racks on transit buses and bicycle lockers at park-and-ride lots, employment sites and1442other locations.

1443

1421

- 1444 In Chapter 8 Transportation, on page 8-27, amend as follows:
- 1445

Road Services Division's Capital Improvement Program and Financial Plan must be consistent with this
Comprehensive Plan and consider the current performance of the transportation system, concurrency
needs of planned developments, priority projects, phased implementation of improvements, and other
related factors. Revenues from a range of sources, including grants ((and Mitigation Payment System
fees)), are programmed to appropriate projects.

1451 1452

#### In Chapter 8 Transportation, on page 8-29, amend as follows:

1453

1454T-311The ((King County)) Department of ((Transportation)) Local Services has1455responsibility for development and maintenance of transportation facilities in1456county((c))County-owned road rights-of-way. Other right-of-way users must

		Attachment A to POProposed Ordinance 2019-XXXX0413 2020 Update to 2016 Comprehensive Plan
57		obtain approval from the department regarding projects, maintenance and other
.58		activities impacting the right-of-way.
	In Chapter	r 8 Transportation, on page 8-32, amend as follows:
	The goals an	nd activities of ((the)) King County ((Department of ((Transportation)) Local
	Servicesdepa	artments and agencies that provide transportation services in King County are integrally
	linked to the	e county's((e))County's strategies and activities for addressing climate change. This linkage
	was refined i	in the County's 2012 Strategic Climate Action Plan, with an entire chapter focused on the
	operational a	and service targets related to transportation and land use. The Strategic Climate Action Plan
	identifies cle	ar performance targets (how much change is the County attempting to achieve) and
	strategies an	d priority activities that reduce greenhouse gas emissions. It allows for the reporting of
	strategies, pr	ogram activities, and performance measures related to climate change in one location.
	In Chapter	r 8 Transportation, on page 8-35, amend as follows:
		1ty Marine Division
		Division provides passenger-only ferry service between downtown Seattle, Vashon Island,
	and West Se	attie.
	T. 2015	end of the stand of 2015 2017 Occurs Destant the Occurs it is denoted the Marine Division to
		part of the adopted 2015-2016 County Budget, the Council instructed the Marine Division to
	-	port on the potential for expansion of passenger ferry service in King County. This report
	-	ted in 2015 and could be used to inform potential expansion of County passenger ferry
	service and a	associated future property tax levies.))
	In Chapter	r 8 Transportation, on page 8-36, amend as follows:
	T-401	Financial investments in transportation should support a sustainable,
		transportation system, consistent with the priorities established in the King
		County Strategic Plan and each <u>department and division's strategic plans</u> or other
		functional plans.
	In Chapter	r 8 Transportation, on page 8-37, amend as follows:

	Attachment A to POProposed Ordinance 2019-XXXX0413 2020 Update to 2016 Comprehensive Plan
T-404	When funding transportation projects in areas where annexations or
	incorporations are expected, <u>((the ((Department of Transportation))</u> King County
	should seek interlocal agreements with the affected cities and other service
	providers to provide opportunities for joint grant applications and cooperative
	funding of improvements.

1531	the following:
1532	
1533	6. Water Availability and New State Laws
1534	In January 2018, the Washington State Legislature approved Engrossed Substitute Senate Bill (ESSB)
1535	6091, now codified in chapters 19.27, 58.17, 90.03, and 90.94 Revised Code of Washington. The
1536	adopted statutes clarify the steps building permit and subdivision applicants must take to establish that
1537	water is "legally available" when proposing to obtain water from a new permit-exempt well.
1538	
1539	In King County, the new water law requirements most directly affect development in the Rural Area and
1540	on Natural ResourcesResource Lands where new development may not be served by public water
1541	systems and applicants are proposing to use permit-exempt wells for a source of water supply. King
1542	County has had a long standing preference prioritization for limiting newwater use that intends to limit
1543	permit-exempt wells and requiring require new development to be connected to larger public water
1544	systems, known as Group A water systems. Consistent with the new water law requirements, King
1545	County permitting processes ensure that the hierarchy of water service is fully implemented with the
1546	Comprehensive Plan policies and the King County Code. Additionally, consistent with new water law,
1547	King County will participate in the Washington State Department's Department of Ecology's Watershed
1548	Restoration and Enhancement Committee process, which may lead to the identification of new water
1549	planning provisions in future Comprehensive Plan updates.
1550	
1551	
1552	In Chapter 9 Services, Facilities and Utilities, starting on page 9-18, amend as follows:
1553 1554	Under King County Code chapter 9.14, the Department of Natural Resources and Parks is to act as lead
1555	agency in coordinating the activities of <u>the</u> Department of <u>Local Services</u> Permitting <u>Division</u> ((and
1556	Environmental Review)) and Public Health – Seattle & King County in order to ensure that groundwater
1557	quality and quantity are protected, and facilitate implementation of the plans that have been developed to
1558	protect groundwater in five groundwater management areas within King County. In accordance with
1559	new water law requirements, King County has an established a hierarchy of water service that restricts
1	

the creation of new permit-exempt wells in closed basins, except in very limited circumstances, and as
consistent with state law and the instream flow rules applicable to permit-exempt wells.
In Chapter 9 Services, Facilities and Utilities, on page 9-36, amend as follows:
Implementation of the 2006 King County Flood Hazard Management Plan has played a significant role
in protecting King County's economic base. The 2006 Flood Hazard Management Plan ((is now being))
was updated in 2013.
In Chapter 9 Services, Facilities and Utilities, starting on page 9-37, amend as follows:
King County's economy and quality of life depend on readily available, affordable and clean energy and
telecommunications resources. Energy and electronic communications systems provide important public
services and their implementation must be coordinated with land use planning. The sustainable
development and efficient use of energy resources can ensure their continued availability while
minimizing long-term costs <u>, risks</u> and impacts to ((the individual, society, and the shared environment))
public health and safety, air and water quality, and essential public infrastructure and services.
In order to help mitigate global climate impacts resulting from human energy use, King County is
planning its energy uses in ways that will manage its procurement, production, use, policies, and
planning in order to improve energy efficiency; increase production and use of renewable energy; reduce
risk to public health, safety, critical services, and the environment; and reduce the release of greenhouse
gases and emissions. This includes rigorous and transparent review and regulation of fossil fuel facilities.
((Toward ((that goal, King County implemented the 2010 King County Energy Plan and)) these goals,
the 2015 Strategic Climate Action Plan ((,, which)) includes the following objectives for reducing energy
use and greenhouse gas emissions in King County:
1. Reduce energy use through continuous improvements in facility and equipment efficiency,
procurement, construction practices, and resource conservation;
2. Increase transit use and provide transportation choices that reduce overall energy use and
emissions in the county, while improving the efficiency of King County's fleet;
3. Be a leader in early adoption and promotion of innovative technology for buildings and vehicles
with a focus on electric vehicles;
4. Increase the production and procurement of renewable energy and the development of waste-to
energy applications; and

1595

## 1596 1597

# 5. Pursue sustainable funding strategies for energy efficiency, renewable energy projects, waste-to-energy projects and greenhouse-gas-reduction efforts...)

The <u>2015</u> Strategic Climate Action Plan provides targets for reducing energy usage in operations and increasing the amount of renewable energy that the <u>county((e))County</u> produces or uses. These targets are measured for the <u>county((e))County</u> government as a whole; divisions are directed to make policies and plans consistent with the King County Strategic Climate Action Plan and implement those as practical, considering the Plan and their other service priorities. Some divisions may exceed the targets, while others may not meet them in given years – but all divisions will use the Strategic Climate Action Plan as the basis for strategic energy planning and direction.

1605

1606 King County divisions are taking steps to translate countywide energy targets into agency specific plans 1607 and action. Agency specific plans are important steps that support progress towards countywide targets. 1608 The Strategic Climate Action Plan sets the county's((e))County's long term goal of reducing its 1609 greenhouse gas emissions from government operations, compared to a 2007 baseline, by at least at least 1610 80% by 2050. In order to accomplish this goal, the county((e))County is dedicated to reducing its energy 1611 use, which ((most heavily contributes to its)) is the most cost-effective approach to reducing greenhouse 1612 gas emissions. Energy reduction goals are included in the Strategic Climate Action Plan. In its 1613 government operations, the <u>county((e))County</u> set buildings and facilities normalized energy use 1614 reduction goals of five percent reduction by 2020 and 10% by 2025, as measured against a 2014 baseline. 1615 In its vehicle operations, the <u>county((e))County</u> set a reduction goal of at least 10% of its normalized net 1616 energy use by 2020, again measured against a 2014 baseline. 1617 In Chapter 9 Services, Facilities and Utilities, on page 9-40, amend as follows: 1618 1619

- 1620F-307King County should foster the development and increased use of clean, renewable1621and alternative fuel and energy technologies.
- 1622
   1623 In Chapter 9 Services, Facilities and Utilities, on page 9-49, prior to section amend as
  - 1624 <mark>follows:</mark>
  - 1625
  - 626 5<mark>. Hazardous Liquid and Gas Transmission </mark>Pipeline, amend as follows: Pipelines
  - 1627 Part of the fossil fuel system is the movement of hazardous liquid and gas by transmission pipelines.
  - 1628 <u>Hazardous liquid and gas transmission pipelines, as defined by Revised Code of Washington</u>
  - 1629 81.88.((040))010 and Washington Administrative Code 480-93-005, ((consecutively)) respectively,

1630 provide a vital service of transporting hazardous materials from one location to another. Long-distance

631 <u>transmission pipelines move a variety of hazardous materials, including crude oil, petroleum products,</u>

632 <u>natural gas and hazardous liquids, such as anhydrous ammonia</u>. Pipeline rupture or failure can result in

- 633 <u>release of these materials, which are highly flammable, explosive or toxic.</u> The policies in this chapter
- 634 <u>identify public values and goals to assure that the transmission of hazardous materials by pipeline address</u>
- 635 <u>public health and safety.</u>
- 1636

638

# 637 In Chapter 9 Services, Facilities and Utilities, on page 9-49, amend as follows:

- 639 F-331 King County recognizes that federal and state regulatory programs govern the 640 design, construction, and operation of hazardous liquid and gas transmission 641 pipelines. ((To preserve the safety and reliability of the hazardous liquid and gas 642 transmission pipeline system,)) King County's land use designations, zoning 643 classifications and development regulations ((shall)) should be ((consistent with state and federal requirements)) focused on increasing safety and reducing 644 645 environmental impacts of transmission pipelines regulated by the federal and 646 state government. King County shall actively engage in federal and state review 647 processes to identify local impacts and risks and advocate for safety and 648 environmental protections. 649 650 **F-332** Any new, modified, or expanded hazardous liquid and gas transmission pipelines 651 proposed for construction in King County shall meet the ((e))County's 652 development regulations, including but not limited to. King County's zoning code. 653 building code, grading code, and shoreline management code. Proposals for
- 654modifications, such as regular maintenance or changes required to address655hazards or comply with federal or state safety requirements, shall be clearly656distinguished from proposals to modify or expand facility capacity or uses.
- 658 In Chapter 9 Services, Facilities and Utilities, on page 9-52, amend as follows:
- 1659

657

# 660 <u>7. Crude Oil Transport by Rail, Truck and Vessel</u>

661 Part of the fossil fuel system is the transport of crude oil by rail, truck and vessel. King County and local

1662 governments across the United States are facing rapid and significant increases in train traffic carrying

1663 <u>crude oil. According to the Washington State Department of Ecology's 2014 Marine and Rail Oil</u>

- 1664 <u>Transportation Study, the volume of crude oil transported by rail across the US increased 42-fold from</u>
- 665 <u>2008 to 2013.</u>

666	
667	In Chapter 9 Services, Facilities and Utilities, on page 9-53, amend as follows:
668	
669 670 671 672 673	<u>F-344a King County Office of Emergency Management shall convene local emergency managers,</u> <u>first responders, railroads and others to prepare for and mitigate the increasing risk of oil spills,</u> <u>fire and explosions posed by oil ((-by-rail)) transport by rail</u> <u>5, truck and vessel. This work should consider potential risks from related fossil fuel facilities.</u>
674	F-344b King County should advocate for environmental reviews of proposed oil
675	terminals and other related fossil fuel facilities in Washington State to
676	assess and mitigate for area-wide, cumulative risks and impacts to public
77	safety, infrastructure, traffic, health, water supplies and aquatic resources
78	from increased oil ((train traffic)) transport by rail, truck, and vessel.
79	
80	In Chapter 9 Services, Facilities and Utilities, on page 9-53, after Policy F-344c, insert
81	the following:
82	
83	8. Fossil Fuels and Fossil Fuel Facilities
84	Fossil fuels includeare petroleum and petroleum products, coal, petroleum products (such as crude oil
35	and gasoline), and gaseous fuels (such as natural gas and, such as methane, propane). and butane,
36	derived from prehistoric organic matter and used to generate energy. Fossil fuels do not include non-fuel
57	products; denaturedpetrochemicals, fuel additives, or renewable fuels such as biodiesel, or fuels generated
8	from waste management processes, such as wastewater treatment, anaerobic digesters, landfill waste
)	management, livestock manure, and composting processes.
)	
	The transport of fossil fuels has grown substantially. Between 2012 and 2017, movement of fossil fuel
2	products through Washington state by rail grew from zero to 54 million barrels of oil, and the movement
3	of oil through the State has increased by 27 percent since 2006.
ŀ	
5	In recognition of this growth, in 2019, King County studied the impacts from fossil fuels and fossil fuel
5	facilities in order to identify, avoid, and mitigate the potential range of impacts to public health and
7	safety, air and water quality, habitats, natural resource lands, and other resources and functions. King
3	County studied definitions, use classifications, policies, development regulations, zoning tools, and
)	review procedures used by other local and state governments, to regulate fossil fuel facilities. Based on
)	this review, fossil. Fossil fuel facilities, as defined further in the King County Code, are commercial
1	facilities used primarily to receive, store, refine, process, transfer, wholesale trade, or transport fossil fuels.

1702 They do not include individual storage facilities of up to 30,000 gallons and total cumulative facilities per 703 site of 60,000 gallons for the purposes of retail or direct to consumer sales, facilities or activities for local consumption;, non-commercial facilities;, and uses preempted by federal or state rule or law. 704 1705 1706 Through this review and study, the County recognized that newNew or expanded fossil fuel facilities 1707 may create significant public health risks, including air pollution causing impaired respiratory functions 1708 from fine particulates, noise pollution affecting hearing loss and psychological health, exposure to heavy 1709 metals, and contamination of drinking water sources. These risks may result in cancer, premature death, 710 and lung and heart diseases. In addition, given that the siting of these facilities are often in lower income areas, the impacts can demographically disproportionate. 711 712 The County also identified that fossilFossil fuel facilities mayalso pose a threat to King County's ecology 713 1714 through extensive land disturbing activities that cause adverse impacts to natural ecosystems, contamination of surface water and groundwater, risks from impacts in areas with seismic and geological 1715 instability, and destruction of critical habitat for wildlife. The study observed that newNew and 1716 717 expanded major fossil fuel facilities may create congestion at vehicle/train crossings, increase noise levels 718 through additional vehicle trips, and generate dust, debris, and odor. The study also noted that on numerous occasions Additionally, there have been multiple incidents across the United States and 719 720 Canada, in which spills of crude oil from train derailments and tanker ships and natural gas pipeline 1721 explosions have caused numerous fatalities and illnesses, substantial loss of property, and significant 1722 environmental damage.<sup>1</sup> 1723 1724 Fossil fuel miningextraction, processing, infrastructure, associated transport, and end use as a fuel are a 725 significant source of carbon dioxide, heavy metals, nitrogen oxide, and sulfur dioxide; these contribute 726 significantly to climate change and environmental pollution. According to the International Panel on 727 Climate Change, the combustion of fossil fuels is by far the largest human source of global greenhouse gas emissions, and it recognizes that most fossil fuel reserves will need to be left in the ground if global 728 729 warming is to be kept to levels that avoid the most dangerous climate change impacts. Additionally, 730 studies from the State of.<sup>2</sup> Washington, the University of Washington's Climate Impacts Group, and

   sector with 5,000 jobs.<sup>4</sup>
- 1874

# 1875 In Chapter 10 Economic Development, starting on page 10-6, amend as follows:

1876

# 1877 Working Collaboratively in the Region

1878 Central Puget Sound Economic Development District (serving King, Kitsap, Pierce, and Snohomish
1879 Counties) adopted a ""Regional Economic Strategy for the Central Puget Sound Region" in 2005,
1880 ((and)) updated it in 2012, and then adopted an updated version entitled "Amazing Place: Growing Jobs
1881 and Opportunity in the Central Puget Sound Region" in 2017. ((The 2017 Regional Economic Strategy))
1882 Amazing Place was developed by the Puget Sound Regional Council (('s Prosperity Partnership – a
1883 coalition of more than 200 government, business, labor, nonprofit and community leaders from the four

1884 <u>counties</u>)) to ((ensure long-term regional prosperity)) sustain economic vitality and global

1885 competitiveness.

1886

In order to accomplish this, <u>((the Regional Economic Strategy)) Amazing Place</u> identifies ((ten)) <u>14</u>
 industrial clusters that, based on regional economic analysis, offer the best opportunities for business
 growth and job creation in the Central Puget Sound region for the next several years.

1890

1891 Clusters are concentrations of industries that export goods and services that drive job creation and import 1892 wealth into the region. An industry cluster differs from the classic definition of an industry sector because

1893 it represents the entire horizontal and vertical value-added linkages from suppliers to end producers,

1894 including support services, specialized infrastructure, regional universities' research and development,

1895 and other resources. Clusters are supported by the economic foundations such as workforce training,

1896 infrastructure, quality education, a stable and progressive business climate, and more. The clusters are

1897 Aerospace, <u>Architecture and Engineering</u>, Business Services, Clean Technology, <u>Food and</u>

1898 <u>BeveragesBeverage</u>, Information <u>and Communication</u> Technology, Life Sciences and Global Health,

1899 Maritime, Materials Manufacturing, Military and Defense, ((Philanthropies))Recreational Gear, Tourism

1900 ((and Visitors, and)), Transportation and Logistics, and Wood Products. ((The Regional Economic

1901 <u>Strategy) Amazing Place</u> identifies specific strategies and actions to help support the growth of each 1902 cluster.

In	Chapter 10 Economic Development, on page 10-4815, amend as follows:
E	0-604 King County will continue to partner with organizations that support programs
	and strategies that strengthen the interdependence and linkage between the
	rural, resource and urban economies((, such as the Regional Food Policy
	Council and Puget Sound Fresh)).
Th	e ((e))County also recognizes that the land areas, economies, and natural beauty of the Rural Area and Natural
Re	source Land((s classifications)) designations benefit all county residents. The agriculture sector provides a safe
	d reliable local food source—keeping costs low and quality high—to restaurants and households, the majority of
	nich are in urban areas, and regionally to farmers markets and specialty stores. Rural King County provides many
	verse recreation and tourism opportunities, including scenic vistas; trails for hiking, bicycling, off-road, and uestrian use; harvest festivals; open space and wildlife habitat; and working farms and forest lands, all within a
	Chapter 11 Community Service Area Subarea Planning, on page 11-1, amend as llows:
	CHAPTER 11
	COMMUNITY SERVICE AREA
	SUBAREA PLANNING

1926

1927

King County had a robust community planning program that occurred in two distinct periods—1973 through 1984 to implement the 1964 Comprehensive Plan, and 1985 through 1994 to implement the 1984 Comprehensive Plan. Since then, there have only been minor updates to community plans that were processed After nearly two decades of aging plans and significant growth, King County leadership renewed its interest in more detailed long-range planning for unincorporated rural and urban communities in 2014 by providing funding ((for the Department of Permitting and Environmental Review)) to re-initiate a subarea planning program. The policies in this chapter are based on these historical adopted through updates to the Comprehensive Plan.

Community Plans and will be updated as part of the community planning process in coming years.

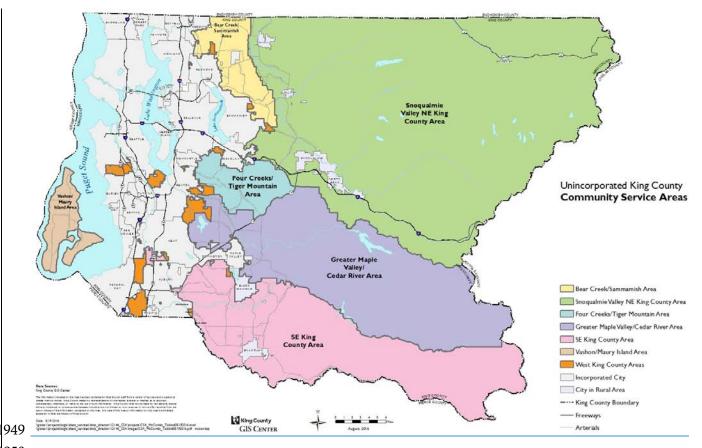

1928

#### 1929 In Chapter 11 Community Service Area Subarea Planning, on page 11-2, amend as

- 1930 follows:
- 1931

# 1932 A. Planning Framework and Geography

1933 Beginning with the 2016 Comprehensive Plan the geographical boundaries of the County's seven Community 1934 Service Areas will be used as the framework for subarea plans created and amended from that point forward. 1935 Subarea plans will be developed for the six rural Community Service Areas, and for the five remaining large urban 1936 unincorporated potential annexation areas. The primary focus of subarea plans will be on ((land use)) locally 937 specific issues in these subarea geographies. 1938 1939 There are a number of key benefits to defining subarea planning boundaries to be coterminous with the Community 940 Service Area boundaries. This structure organizes the County's unincorporated planning area into fewer and more 941 manageable territories so that updates of the plans can occur within a shorter time horizon. Using the Community 942 Service Area boundaries also aligns land use planning with other county services and programs thereby increasing 943 consistency between planning and public service delivery. Finally, since the last round of subarea planning in 1994 944 there have been numerous major annexations and incorporations which mean some subareas are now largely within 945 the jurisdiction of cities and thus the County now has just a regional, rather than local, planning role in those areas. 946 947 Figure: Community Service Areas Map 948

1950

951

952 The following table illustrates how the Community Service Area geography aligns with the former Community

953 <u>Planning Area geography; this is provided to identify how the existing policies are re-assigned into the new</u>

954 geographic structure.

955

Community Service Area	Includes parts of the following former Community Planning Areas
Bear Creek / Sammamish Area	Bear Creek, Northshore, East Sammamish
Four Creeks / Tiger Mountain Area	Tahoma Raven Heights, Snoqualmie
Greater Maple Valley / Cedar River Area	Tahoma Raven Heights, Soos Creek, East King County, Snoqualmie
SE King County Area	Enumclaw, Tahoma Raven Heights, East King County, Soos Creek
Snoqualmie Valley / NE King County Area	Snoqualmie, East King County, East Sammamish
Vashon / Maury Island	Vashon
West King County Areas (unincorp. urban)	Portions of 10 Community Planning Areas

1956

While there a	are differences a	mong the Community Service Areas in terms of their boundaries, range of land uses,		
annexation is	ssues, and more	, using this accepted geography will ensure the entire unincorporated portion of the		
((e))County receives some level of planning on a regular cycle. This includes ((a regular assessment)) development				
of ((the)) eac	h Community S	Service Area's subarea plan. Each plan will establish goals, policies, and community		
<u>needs using i</u>	nformation suc	h as population changes, ((new development,)) employment targets and similar		
demographic	and socioecon	omic indicators. ((These assessments are called Community Service Area Subarea		
Plans.)) To a	address the uniq	ue issues in each geography, Community Service Area subarea plans may also have		
more refined	<u>((, land uses))</u> fo	ocuses on rural town centers, urban neighborhoods, business districts, or corridor		
approaches.				
The In Che	optor 11 Cou	nmunity Service Area Subarea Planning, starting on page 11-3.		
		ninumy service Alea subarea Flatining, statung on page 11-s,		
<del>amend as</del>	<del>s follows:</del>			
high level rev	view along with	more detailed land use planning will be guided by a series of ((criteria)) considerations		
such as com	<u>munity interest,</u>	social equity, funding, and new development. Equity and social justice principles will		
play a particu	ularly key role d	luring subarea plan public engagement activities. The County will use the tools and		
resources dev	veloped by the C	Office of Equity and Social Justice to develop the scope of work and the plans so that		
((P))people o	of color, low-inc	ome residents, and populations with limited English proficiency will be informed and		
offered equit	able and cultura	ully-appropriate opportunities to participate in its planning process.		
<u>CP-100</u>	King	County shall implement a Community Service Area subarea planning program.		
	This p	program includes the following components for the development and		
	imple	mentation of each subarea plan:		
	<u>a.</u>	A subarea plan shall be adopted for each of the six rural Community Service		
		Areas and five large urban Potential Annexation Areas consistent with the		
		scheduled established in the Comprehensive Plan and King County Code		
		Title 20. Each subarea plan shall be streamlined to be focused on locally-		
		specific policies that address long-range community needs.		
	<u>b.</u>	The County shall adopt and update on an ongoing basis, a list of services,		
		programs, facilities, and capital improvements that are identified by the		
		community for each geography, known as a community needs list, to		
		implement the vision and policies in the subarea plan and other County		
plans and to build on the strengths and assets of the community.				
c. Implementation of each subarea plan and community needs list shall be				
		monitored on an ongoing basis via established performance metrics.		
	<u>d.</u>	Community engagement for development, review, amendment, adoption,		
		and implementation of each subarea plan shall use the Office of Equity and		
		Social Justice's equity toolkit.		
	<u>e.</u>	The King County Council shall have an established role in the Community		
	<u>e.</u>	The King County Council shall have an established role in the Community Service Area subarea planning process, including in the development,		

1996		review, amendment, adoption, and monitoring the implementation of each
1997		subarea plan and community needs list.
1998		
1999	<u>This p</u>	blicy applies going forward with the subarea plans, starting with the Snoqualmie Valley/NE
2000	<u>King C</u>	County CSA geography. Two CSA subarea plans, for the Skyway-West Hill PAA and North
2001	<u>Highliı</u>	ne PAA, were under development prior to adoption of this policy. To the extent possible, the
2002	Count	y will follow this policy for these two plans. Some known deviations include:
2003		
2004	•	Skyway-West Hill: The County adopted a Phase 1 Land Use Strategy that includes a focus on
2005		land use, planning, and the built environment, in June 2020. The Phase 1 Land Use Strategy
2006		includes seven Action items. This includes five Action items initially proposed by the
2007		Executive, and two added by the Council. The two added by Council:
2008		• Action 1 sets the scope of work for the CSA Subarea Plan.
2009		o Action 2 requires performance monitoring and evaluation, including metrics related
2010		to community engagement and Service Partnership Agreements.
2011	•	North Highline: A Public Review Draft of the Land Use Strategy is issued, and Executive
2012		continues to work with the community on the CSA Subarea Plan. Executive completes
2013		scoping with community to identify topics of the plan. "Action Items" identified in the Public
2014		Review Draft of the Land Use Strategy are complete and results of those Action Items
2015		included in transmittal of the Plan.
2016		
2017	B.	Planning Schedule
2010	Dalarr	is the schedule for subcree planning using the Community Corrige Area goography. Deviewing a

Below is the schedule for subarea planning using the Community Service Area geography. Reviewing all 2018 2019 six rural Community Service Area subareas and five large urban Potential Annexation Areas over the 2020 ((course of an approximately thirteen year period (while pausing the subarea planning process during the 2021 ((Eight-Year)) eight-year update of the Comprehensive Plan))) next decade at both the broad, policy 2022 level and at the local, community level with detailed planning will facilitate a more equitable planning 2023 process. The plan sequencing was determined by subarea plans already underway, the ability to partner 2024 with other jurisdictions, anticipated ((land use changes)) community needs within a Community Service 2025 Area, and striving for a countywide geographic balance in alternating years. The anticipated duration of 2026 each subarea planning process will be two years, which includes time for community engagement, plan 2027 development, and Council review and adoption. 2028

(( <del>Note: The plann</del>	<del>ing year is a 12-month, Jul</del>	y to June process. The adoption yea	<del>r is a 12 month, July to June process.</del> ))
Note: Planning	for each geography is	anticipated to take eighteen	months, beginning in July and endir
the following I	December. After transr	nittal of the plan to the Counc	<u>cil on <mark>page 11-5, amend as</mark></u>
<mark>follows:</mark> the fir	st business day of Janu	ary, review is anticipated to	last six months with adoption
anticipated to c	occur in June.		
1. The Skyway	-West Hill Land Use S	Strategy, Phase 1 of the Skywa	ay-West Hill Subarea Plan, adopted
2020 is only a <u>p</u>	portion of the subarea	plan anticipated by this sched	lule, accounting for the longer plan
<u>development ti</u>	<u>meline.</u>		
2. The plan dev	velopment timeline for	the North Highline Commu	nity Service Area Subarea Plan refle
changes made in the 2020 Comprehensive Plan update.			
For each of the	Community Service	Area subarea planning proces	ses, the subarea plans included in
Motion 14351, which adopted the scope of work for the 2016 King County Comprehensive Plan, shall be			
		adopted scopes of work:	

Study in Motion 14351	Community Service Area
Snoqualmie Pass Subarea Plan: Initiate a subarea plan for Snoqualmie Pass rural town and ski area. The subarea plan should be developed in collaboration with Kittitas County, evaluate and address the current and future housing and economic development needs of this growing community, and include outreach with the local community in its development.	Snoqualmie Valley/Northeast King County CSA
Highline Subarea Plan: Initiate an update to the Highline Community Plan, and incorporate the updated subarea plan into the Comprehensive Plan. The updated subarea plan should include zoning and regulations that: address the historic wide gaps in equity of infrastructure investments and services; facilitate the revitalization of its neighborhoods, local economy, and quality of life of its residents; and have included outreach with the local community in their development.	<u>West King County CSA – North Highline</u>
Cedar Hills/Maple Valley Subarea Plan: Initiate a subarea plan for the "Cedar Hills/Maple Valley" area. Review land use designations and implementing zoning on parcels 2823069009, 2923069019, 2923069080, 2923069082, 2923069083, 2923069084, 3223069001, 3223069003, 3223069068,	Four Creeks/Tiger Mountain CSA

	or this area, including coordination with the <u>'s planning on future closure of the adjacent</u>
land us	Hills landfill. Include evaluation of options for ses other than mining, including residential uses,
approp	sidential uses; whether a four-to-one proposal is riate for this area; and outreach with the local
comm	inity in its development.
The scl	edule above ensures that subarea plan goals and objectives are up-to-date and relevant bas
	and future needs. Within this larger structure, if a property owner has an interest in a land
	outside of this planning cycle, they are able to use the existing land use processes. Propert
owners	can submit for a Site Specific Land Use Amendment or Zone Reclassification, per King C
Code 2	0.18.050 and 20.20 respectively. If a significant land use issue arises in a Community Servi
<u>outside</u>	of the planning cycle, the cycle may be adjusted.
In cons	ideration of the restructure of the subarea planning program adopted in 2018 and 2020, the
County	will evaluate initiating a performance audit of the program once the restructure has been
implen	ented, by adding a requirement to the King County Auditor's work plan during the <u>((2021</u>
<u>2023-2(</u>	224 biennium. Additionally, following the completion of the first ((thirteen-year)) subarea
plannir	g cycle, the subarea planning schedule for developing and adopting updates to the subarea
moving	forward will be reviewed as part of the <u>((2031 ((major)) 2032 eight-year</u> Comprehensive P
undata	This review will include evaluation of whether the subarea plan update schedule and pro
upuale	lensed from its current ((thirteen-year)) planning cycle.
-	chised from its current (((mitteen-year))) planning cycle.

2081 The Bear Creek/Sammamish Community Service Area consists of portions of the following former

- 2082 Community Planning Areas: Bear Creek, Northshore and East Sammamish. Large sections of this area
- 2083 have been annexed into the cities of Bothell and Redmond and have incorporated into the cities of
- 2084 Kenmore, Sammamish and Woodinville. The Urban Planned Developments east of the City of
- 2085 Redmond ((are)) were controlled through ((detailed)) development agreements ((and built-out for all
- 2086 practical purposes)); however, those agreements were expiring and, in 2020, King County established
- 2087 <u>land use and zoning for these areas</u>. King County will not permit additional similar urban-scale
- 2088 development outside the Urban Growth Area. The policies listed below pertain to areas within the
- 2089 Community Service Area that are still within unincorporated King County.
  - 1 The plans currently in effect are the West Hill Community Plan, Skyway-West Hill Land Use Strategy (Phase 1 of the Skyway-West Hill Subarea Plan), White Center Community Action Plan, Fall City Subarea Plan, and the Vashon-Maury Island Community Service Area Subarea Plan.
- 2096 2097 In Chapter 11 Community Service Area Subarea Planning, starting on page 11-40, 2098 amend as follows:

# 2100 D. ((West Hill – ))Skyway-West Hill Potential Annexation Area

4101 ((The West Hill <u>Community</u> Plan was adopted by King County in 1993, and as such was prepared in
 2102 conformance with the Growth Management Act and incorporated as part of the 1994 King County
 2103 Comprehensive Plan.

2104

2090 2091 2092

2093

2094

2095

2099

In 2014 and 2015, the County adopted Motion 14221 and 14351, which called for a comprehensive

- 2106 update to the West Hill Community Plan. Around this same time, the County was also providing
- technical assistance to a community-led effort to update some elements of the Community Plan. This
- 2108 community-led effort resulted in the development of a local Action Plan, which was proposed to be an
- addendum to the existing Community Plan. <u>Since then, as part of the 2016 Comprehensive Plan update.</u>
- 2110 The <u>County ultimately did not adopt the Action Plan in 2016, as ((Since then,)) the County also</u>
- 2111 reinitiated its Subarea Planning Program—. ((--and, as a result, the County now has resources available to
- 2112 comprehensively review the Community Plan, consistent with Motion 14221...)) The County has
- 2113 <u>committed to ((will))</u> work with the community to <u>complete a Community Service Area Subarea Plan</u>
- that includes a review of the ((proposed)) Action Plan and ((to)) an update the Community Plan ((within
- the context of the new Subarea Planning Program.)). A process to ((update to the Community Plan will
- 2116 be)) develop the Community Service Area Subarea Plan was initiated in ((approximately July)) 2018, ((,
- with adoption anticipated in June 2020.)))). As part of the 2020 Plan update, the County adopted a Land

118	Use Strategy, Phase	1 of the Skyway-West	Hill Subarea Plan,	that outlined the	potential	policy and

- 2119 implementation steps for land use development in Skyway-West Hill. A Skyway-West Hill Community
- 2120 Service Area Subarea Plan that replaces the West Hill Community Plan is expected to be adopted in
- 2121 <u>2022. The Subarea Plan will be developed based on a scope of work developed with the community.</u>
- 2122

### 2123 Plan History

- 2124 June 2020, the County adopted the Skyway-West Hill Land Use Subarea Plan following two years of
- 2125 <u>engagement with a broad set of community stakeholders. The Skyway-West Hill Land Use Subarea Plan</u>
- 2126 sets the stage for the next 20 years of land use in the urban unincorporated community of Skyway-West
- 2127 <u>Hill and replaces the 1994 West Hill Community Plan that had guided land use in this portion of the</u>
- 2128 <u>West King County Community Service Area for the previous 25 years.</u>
- 2129

# 2130 Vision & Guiding Principles

- 2131 <u>Community Vision</u>
- 2132 <u>Skyway-West Hill's residential neighborhoods and commercial centers are vibrant and walkable places</u>
- where people from diverse backgrounds can live, work, play, and thrive.

### 135 Plan Purpose

- 2136 Reflect the community's desire for equitable development and economic growth that enriches its cultural
- 2137 <u>diversity.</u>

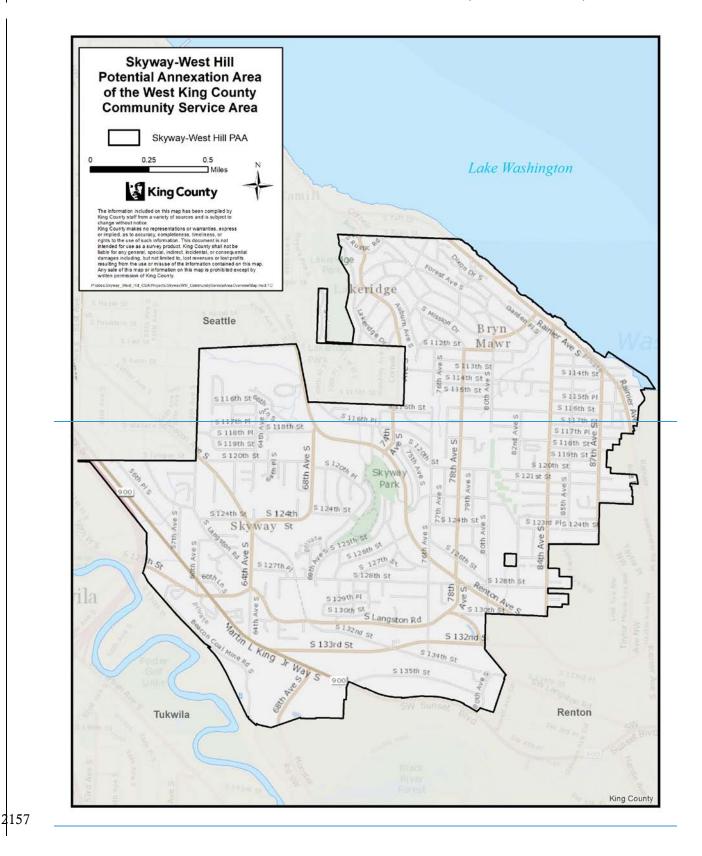

#### 2138

2134

# 2139 Guiding Principles

- 2140 <u>The Community Vision and Plan Purpose are achieved by the following the Plan's guiding principles:</u>
- <u>King County will encourage equitable development by promoting access to a variety of housing</u>
   <u>choices, incentivizing the creation of public amenities, addressing displacement risk, encouraging</u>
   <u>economic opportunity, and cultivating neighborhood character.</u>
- 2144 <u>The community will inform how the County develops land use regulations and will ensure that</u>
   2145 <u>the Skyway-West Hill Land Use Subarea Plan and its associated Land Use and Zoning Map</u>
- Amendments incorporate equity values.
- 147 <u>The character of the community's residential neighborhoods will be respected.</u>
- New residential development will be encouraged along major corridors, on transit routes, and
   <u>near commercial centers.</u>
- <u>The development of community-desired amenities will be promoted, and the community's</u>
   <u>diverse physical and cultural assets will be enriched.</u>

	Attachment A to POProposed Ordinance 2019-XXXX04 2020 Update to 2016 Comprehensive PI	
2152	• <u>Existing affordable housing will be protected and the creation of new affordable housing will be</u>	
2153	encouraged.	
2154	• <u>Commercial areas will be sustainable, vibrant, walkable, and provide opportunities for local</u>	
2155	businesses to succeed.	
2156		

2158	In Chapter 12 Implementation, Amendment	ts and Evaluation, on page 12-1, amend as
2159	follows:	
2160		
2161		CHAPTER 12
2162	IMPLEMENT	ATION, AMENDMENTS AND
2163		EVALUATION
2164 2165		
	The Comprehensive Plan policies, development regulations and countywide policy framework have been adopted to achieve the <u>county((e))County</u> and region's growth management objectives. This chapter describes the tools, processes and procedures used to implement, <u>review and</u> amend (( <del>and</del> <del>review</del> )) the Comprehensive Plan.	The chapter explains the relationship between planning and zoning, lists the incentives programs, identifies actions that will be undertaken between ((major)) eight- year updates to implement or refine provisions within the Comprehensive Plan, and outlines and distinguishes between annual updates ((eycles)), midpoint updates, and eight-year ((eycle))-amendments)) updates.
2166 2167		
2168	In Chapter 12 Implementation, Amendment	<u>'s and Evaluation, starting on page 12-4,</u>
2169	<u>amend as follows:</u>	
2170	In Chapter 12 Implementation, Amendment	<del>'s and Evaluation, on page 12-4, amend as</del>
2171	<del>follows:</del>	
2172		
2173	The II. Comprehensive Plan	<u>Amendments</u>
2174	In the process of implementing the Comprehensive	Plan, there may be a need for amendments to address
2175	emerging land use and regulatory issues. The $((e))C$	County has established the Comprehensive Plan
2176	((amendment)) update process to enable individual i	
2177	county departments and others to propose changes t	o existing Comprehensive Plan policies and

developme	nt regulations. This process provides for continuous and systematic review of Comprehens	
Plan polici	es and development regulations in response to changing conditions and circumstances that	
could affec	t growth and development throughout King County.	
The Comp	<u>rehensive Plan ((<del>amendment</del>)) update</u> process includes <u>((<del>an</del>)) the</u> annual (( <del>cycle)), a-</del> )) upda	
<u>((<del>a</del>)) the </u> mi	idpoint (( <del>cycle)),)) update,</del> and <u>((an)) the</u> eight-year (( <del>cycle</del> )) <u>update</u> . The annual (( <del>cycle</del> ))	
<u>update</u> gen	erally is limited to those amendments that propose technical changes and adoption of CSA	
subarea pla	ans. The eight-year (( <del>cycle</del> )) update is designed to address amendments that propose	
substantive changes. The midpoint update is an optional process that allows for consideration of a		
smaller ran	ge of substantive changes, but only if initiated by motion. This (( <del>amendment)) <u>update</u> pro</del>	
<del>((, based o</del>	n a defined cycle,)) update schedule provides the measure of certainty and predictability	
necessary t	o allow for new land use initiatives to work. By allowing annual ((update)) and midpoint	
updates (( <del>a</del>	mendments)), the process provides sufficient flexibility to account for technical adjustmen	
	rcumstances. The process requires early and continuous public involvement and necessita	
U	l public dialogue.	
0	I at the Oat	
In Chapte	or 12 Implementation, Amendments and Evaluation, starting on page 12-4,	
<del>amend a</del>	<del>s follows:</del>	
King Coun	ity has established a docket process to facilitate public involvement and participation in the	
	nsive Plan (( <del>amendment</del> )) update process in accordance with RCW 36.70A.470. Parties	
*	n proposing changes to existing Comprehensive Plan policies, development regulations, la	
	ations, zoning, or other components of the Comprehensive Plan can obtain and complete a	
	n outlining the proposed amendment. Docket forms are available via the King County	
website.	in outlining the proposed antendment. Docket forms are available via the King County	
website.		
I-201	The (( <del>amendment</del> )) update process shall provide continuing review and	
	evaluation of Comprehensive Plan policies and development regulations.	
I-202	Through the ((amendment)) update process, King County Comprehensive Plan	
	policies and supporting development regulations shall be subject to review,	
	evaluation, and amendment according to <u>((an)) the</u> annual (( <del>cycle</del> )), midpoint	
	(( <del>cycle</del> )), and <u>((an))</u> eight-year (( <del>cycle</del> )) <u>update schedule</u> in accordance with	
	RCW 36.70A.130 (1) and (2).	
I-203	Except as otherwise provided in this policy, the annual (( <del>cycle</del> )) <u>update</u> shall no	
	consider proposed amendments to the King County Comprehensive Plan that	

2215       regulations or that alter the Urban Growth Area Boundary. Substantive         2216       amendments may be considered in the annual ((amendment cycle)) update only         217       ((#) to consider the following:         218       a. 2266 I-205 In accordance with RCW 36.70A.140 and the State Environmental Policy Act, as 2267 applicable, King County shall ensure public participation in the ((amendment)) 2268 update process for Comprehensive Plan policies and development regulations. 2269 King County shall disseminate information regarding public involvement in the 2270 Comprehensive Plan ((amendment)) update process, including, but not limited to, 2271 the following: description of procedures and schedules for proposing 2272 amendments to Comprehensive Plan policies and development regulations; 2273 guidelines for participating in the docket process; public meetings to obtain 2274 comments from the public or other agencies; provision of public review 2275 documents; and dissemination of information relating to the Comprehensive Plan 2276 ((amendment)) update process on the Internet or through other methods.

#### 2284 <mark>follows:</mark>

2285

2286 A new feature of the 2016 Comprehensive Plan is this Workplan section. While Workplan tasks have 2287 accompanied the Comprehensive Plan as part of the adoption process by the County Council, these tasks 2288 were historically included with the Ordinance rather than inside of the Comprehensive Plan. In the 2016 2289 Comprehensive Plan, these tasks will be included in the body of the document. Workplan tasks work in 2290 conjunction with the other tools discussed in this chapter, such as regulations, incentive programs, and 2291 other core regional planning and implementation activities. Each Workplan item includes a summary 2292 description, general timeline and anticipated outcomes. In the 2018 update to the 2016 King County 2293 Comprehensive Plan, as part of the restructure adopted in Ordinance 18810 (((Proposed Ordinance 2294 2018-0153))) and Motion 15142, the County modified the structure of the King County Comprehensive 2295 Plan update process ((review cycle,)) to include a comprehensive update every eight years, as well as 2296 potential annual and midpoint updates. As part of this review, Workplan items were amended to reflect 2297 this restructure, and to add direction for future updates to the Comprehensive Plan, including a 2020 2298 update. Consistent with policies I-203 and I-204a, modifications and additions to the Workplan were 2299 included in the 2020 Comprehensive Plan update.

2300

In Chapter 12 Implementation, Amendments and Evaluation, starting on page 12-11,
 amend as follows:

2303

Action 1: Implementation of the Community Service Area Subarea Planning Program. Under the
 direction of the Department of Local Services - Permitting Division ((Permitting and Environmental
 Review)), King County has launched a new regular subarea planning program. While this is described in
 greater detail in Chapter 11: Community Service Area Subarea Planning, launching and implementing

this effort will be a major activity following the adoption of the Comprehensive Plan. For each plan, the
<u>County shall comply with Policy CP-100 and K.C.C. 2.16.055.</u>

- *Timeline:* Ongoing; the Executive will propose a subarea plan for each area ((approximately once every thirteen years)) based on planning schedule in Chapter 11.
- Outcomes: A proposed subarea plan for each Community Service Area for Council consideration and possible adoption. Each subarea plan shall be transmitted by the Executive to the Council in the form of an ordinance that adopts the subarea plan, at a time consistent with King County Code Chapter 20.18. A Public Review Draft of each subarea plan shall be made available to the public and the Council for comment prior to finalizing the plan for transmittal.
- Lead: Department of Local Services Permitting Division ((Permitting and Environmental Review)), in coordination and collaboration with the Office of Performance Strategy and Budget.
   Executive staff, including the Department of Local Services - Permitting Division ((Permitting and Environmental Review)), the Office of Performance, Strategy and Budget, or other appropriate agencies, shall update and coordinate with the Councilmember office(s) representing the applicable study area throughout the community planning process.
- 2323 2324 Action 2: Develop a Performance Measures Program for the Comprehensive Plan. The purpose of the 2325 program is to develop longer-term indicators to provide insight into whether the goals of the 2326 Comprehensive Plan are being achieved or if revisions are needed. Given the longer-term nature of the 2327 issues addressed in the Comprehensive Plan, this program will be implemented on an eight-year ((eycle)) 2328 update schedule. Reports are to be released in the year prior to the initiation of the eight-year update in 2329 order to guide the scoping process for the update. Additionally, to the extent practicable for each dataset, 2330 indicators will be reported at the level most consistent with the major geographies in the Growth 2331 Management Act and Comprehensive Plan - incorporated cities, unincorporated urban areas, Rural 2332 Areas, and Natural Resource Lands.
- *Timeline:* The motion adopting the program framework shall be transmitted by June 1, 2017. A ((2021)) 2022 Comprehensive Plan Performance Measures Report released by March 1, ((2021)) 2022, will inform the ((2021)) 2022 Scope of Work for the ((2023)) 2024 Comprehensive Plan update.
   *Outcomes:* The 2017 framework for the program shall be transmitted by the Executive to the Council by June 1, 2017, in the form of a motion that adopts the framework. The ((2021)) 2022 Comprehensive Plan Performance Measures Report shall be completed as
- 2340directed by the 2017 framework motion adopted by the Council. The Executive shall file2341with the Council the ((2021)) 2022 Comprehensive Plan Performance Measures Report.

2342	The ((2021)) 2022 Scope of Work for the ((2023)) 2024 Comprehensive Plan ((Update))
2343	update shall be informed by the ((2021)) 2022 Performance Measures Report. The
2344	Executive's transmitted (((2023)) 2024 Comprehensive Plan shall include updated
2345	references to the new Performance Measures Program.
2346	• Lead: Office of Performance Strategy and Budget. Executive staff shall work with the
2347	Council's Comprehensive Plan lead staff in development of the 2017 framework for the
2348	program.
2349	
2350	In Chapter 12 Implementation, Amendments and Evaluation, starting on page 12-14,
2351	amend as follows:
2352	
2353	Action 5: Review 2016 King County Comprehensive Plan Implementation Needs. The 2016
2354	Comprehensive Plan includes new policy direction that may need updates in the King County Code in
2355	order to be implemented before the $((2023)) 2024$ Comprehensive Plan update. The County will utilize
2356	an interbranch team to review the 2016 Comprehensive Plan and any necessary code updates. This
2357	analysis will result in a report that identifies the areas of the code in need of updating and subsequent
2358	legislation to address the areas of inconsistencies. The legislation will also include code changes to
2359	K.C.C. 16.82.150 and 16.82.152, and associated references, to reflect court rulings and current case law.
2360	• <i>Timeline:</i> An Implementation Report shall be filed with the Council by July 31, 2017. The Report
2361	will inform a code update ordinance(s), which shall be transmitted to the Council no later than
2362	December 31, (( <del>2019</del> )) 2021.
2363	• Outcomes: The interbranch team shall prepare, and the Executive shall file with the Council, the
2364	2016 Comprehensive Plan Implementation Report and the code update ordinance(s).
2365	• Leads: Interbranch team comprised of staff from at least the: King County Council, Office of
2366	Performance Strategy and Budget, Department of Local Services – Permitting Division
2367	((Permitting and Environmental Review)), and Prosecuting Attorney's Office.
2368	
2369	Action 6: Alternative Housing Demonstration Project. There is considerable interest to explore
2370	temporary and permanent alternative housing models to address the issues of homelessness and
2371	affordable housing in the Puget Sound region. King County is currently exploring microhousing pilot
2372	projects across the region that can inform a larger demonstration project under King County Code on
2373	alternative housing models in unincorporated King County. Based on what the County learns from the

experience of pilots across the region, the County should pursue a larger demonstration project that looks
at a broader range of temporary and permanent alternative housing models under its land use authority.

2377 This work plan item will utilize an interbranch team to analyze the potential for a demonstration project 2378 under K.C.C. chapter 21A.55 for one or more temporary or permanent alternative housing projects, such 2379 as single and/or multi-family microhousing (i.e., very small units clustered around a shared kitchen and 2380 other similar models) or tiny houses, modular construction, live/work units, and co-housing projects. A 2381 demonstration project will allow the County to test development regulations and other regulatory barriers 2382 related to alternative housing models before adopting or amending permanent regulations. Such 2383 regulations could include amendments to or establishment of regulations related to permitted uses or 2384 temporary uses, building and fire codes, water and sewer supply requirements, setbacks, landscaping 2385 screening, location requirements, light and glare requirements, public notice, and mitigation of impacts to 2386 the surrounding area. This work plan item should also analyze potential funding sources and funding 2387 barriers for projects that may or may not require public funding, including funds managed by the King 2388 County Housing and Community Development Division of the Department of Community and Human 2389 Services.

2390 *Timeline:* Two phases. Phase One – Issuance of a request for proposals to identify a project or • 2391 projects in unincorporated King County that will participate in an Alternative Housing 2392 Demonstration Project. While a project or projects are being chosen, a Demonstration Project 2393 ordinance package that pilots necessary regulatory flexibilities will be developed for approval by the 2394 Council. Such a Demonstration Project shall be transmitted to Council by ((June 28)) December 2395 31, 2019. Phase II – An Alternative Housing Demonstration Project Report, including proposed 2396 regulations and/or amendments to implement the recommendations of the report shall be 2397 transmitted to the Council for consideration by December 31, 2021((by December 31, 2021)) within 2398 two years from the final certificate of occupancy for buildings developed under the Demonstration 2399 Project Ordinance.

• *Outcomes:* The interbranch team shall prepare, and the Executive shall file with the Council, the Alternative Housing Demonstration Project Report, which shall include analysis of the issues learned in the Demonstration Project(s), and identification of recommended amendments to the Comprehensive Plan and King County Code. The Executive shall also file with the Council an ordinance adopting updates to the Comprehensive Plan and/or King County Code as recommended in the Report.

*Leads*: The King County Council will convene an interbranch team comprised of staff from at least:
 King County Council, Department of Community and Human Services, Department of Local

- 2408 Services - Permitting Division ((Permitting and Environmental Review)), Public Health, and Office 2409 of Performance Strategy and Budget.
  - 2411 Action 7: Agricultural Related Uses Zoning Code Updates. As part of the transmitted 2016
  - 2412 Comprehensive Plan, the Executive included recommended code changes related to agricultural uses in
  - 2413 unincorporated King County. In order to give the Council additional time to consider these proposed
  - 2414 changes and to address the identified policy issues, the transmitted code changes will not be adopted in
  - 2415 2016. Instead, the code changes will be further developed through this work plan item.
  - In Chapter 12 Implementation, Amendments and Evaluation, starting on page 12-16. 2416 2417 amend as follows:

2410

2418

2419 The Council identified several policy issues through review of the code changes as part of the 2016 2420 Comprehensive Plan update. Through use of an interbranch team, this work plan item aims to resolve 2421 these policy issues, draft a new ordinance, and complete outreach to affected stakeholders such as the 2422 King County Agriculture Commission, ag related business owners, and/or Community Service Areas. If 2423 the results of the winery study, currently being reviewed by the Executive, are not complete in time to 2424 incorporate into the 2016 Comprehensive Plan, then this work plan item should also address the 2425 recommendations of that study.

- 2426 Timeline: Six to nine month process. An Agricultural Related Uses Zoning Code Updates Report 2427 and proposed regulations to implement the recommendations in report shall be transmitted to the Council for consideration by September 30, 2017. 2428
- 2429 • Outcomes: The interbranch team shall prepare, and the Executive shall file with the Council, the 2430 Agricultural Related Uses Zoning Code Updates Report, which shall include identification of 2431 recommended amendments to the King County Code. The Executive shall also file with the 2432 Council an ordinance adopting updates to the King County Code as recommended in the Report.
- 2433 Leads: The King County Council will convene an interbranch team comprised of at least King 2434 County Council staff, the Department of Local Services - Permitting Division ((Permitting and Environmental Review)), the Department of Natural Resources and Parks, and the Office of 2435 Performance Strategy and Budget. 2436
- 2437

2438 Action 8: Cottage Housing Regulations Review. Cottage housing is a method of development that 2439 allows for multiple detached single-family dwelling units to be located on a commonly owned parcel. In 2440 unincorporated King County, cottage housing is currently only permitted in the R-4 through R-8 urban 2441 residential zones, subject to certain conditions in the King County Code, such as in K.C.C. 21A.08.030

and 21A.12.030, which includes being only allowed on lots one acre in size or smaller. This work plan
item will review Comprehensive Plan policies and development code regulations for the potential for
expanded allowances for cottage housing in unincorporated King County, including in Rural Areas, and
recommend policy and code changes as appropriate. The review will include evaluation of encouraging:
close proximity of garages to the associated housing unit; and development of units with a wide variety of
square footages, so as to address various needs and a diversity of residents.

- *Timeline:* A Cottage Housing Regulations Report shall be transmitted to the Council by December
   31, 2018. Any proposed policy or code changes to implement the recommendations in the report
   shall be transmitted to the Council for consideration by September 30, 2019 as part of the 2020
   Comprehensive Plan update.
- Outcomes: The Executive shall file with the Council the Cottage Housing Regulations Report,
   which shall include identification of any recommended amendments to the King County Code
   and/or Comprehensive Plan. The Executive shall also file with the Council an ordinance adopting
   updates to the King County Code and/or the Comprehensive Plan, if recommended in the Report.
- *Leads*: The Department of <u>Local Services Permitting Division</u> ((<del>Permitting and Environmental</del> Review)) and the Office of Performance Strategy and Budget.
- 2458

2461

# In Chapter 12 Implementation, Amendments and Evaluation, starting on page 12-17<u>19</u>, amend as follows:

2462 Action 10: Green Building Handbook Review. The 2016 Comprehensive Plan includes policy direction 2463 in Policies U-133, R-336a, F-215a, and ED-501a that encourages green building practices in private 2464 development. To support these implementation of these policies, and consistent with direction in the 2465 2015 Strategic Climate Action Plan, the County will soon be in the process of reviewing potential green 2466 building code requirements and/or encouraged standards for private development for possible adoption. In the meantime, the County intends to continue to use the Department of Local Services Permitting 2467 Division ((Permitting and Environmental Review)) existing "Green Building Handbook" to help 2468 2469 encourage private green building development, which is referenced in the 2016 Comprehensive Plan. 2470 This work plan item directs the Executive to transmit to the Council the Green Building Handbook for 2471 review and potential approval. 2472 *—Timeline:* The Green Building Handbook and a motion approving the Handbook shall be

- transmitted to the Council for consideration by March 1, 2017.
- Outcomes: The Executive shall file with the Council for review and potential approval the Green
   Building Handbook and a motion adopting the Handbook.

*Leads*: The Department of <u>Local Services - Permitting Division</u> ((Permitting and Environmental 2477 Review)).

Action 11: Bicycle Network Planning Report. The Puget Sound Regional Council has identified a
 regional bicycle network, for both the existing network and the associated gaps and needs, in its Active
 Transportation Plan, which is an element of *Transportation 2040*. King County also identifies local bicycle
 network needs throughout its planning, such as in the Transportation Needs Report and the Regional
 Trail Needs Report.

- This Workplan item directs the King County Department of ((Transportation)) <u>Local Services Road</u> Services Division, in coordination with the Department of Natural Resources and Parks and the Department of <u>Local Services - Permitting Division</u> ((Permitting and Environmental Review)), to evaluate and report on how to enhance the bicycle network within unincorporated King County and address identified regional and local bicycle infrastructure needs (such as standards for bicycle lanes,
- tracks and trails; plans and financing for capital improvements; bicycle racks and parking; air filling
   stations; etc). This report will include:
  - a. Evaluation of existing King County planning efforts and possible areas for improvement, such as addressing bicycle facility provisions in:
    - o roadway designs and standards, including lighting standards,
- 2495 <del>○ plat approvals,</del>
  - <del>o commercial developments,</del>

- 2499b. Evaluation of bicycle and/or active transportation plan elements of other jurisdictions,2500including the City of Seattle, for opportunities to connect to King County planning and2501active transportation facilities.
- 2502 c. Working with stakeholders for identification of needs and areas for possible improvements.
- *Timeline:* The Bicycle Network Planning Report and a motion approving the report shall be
   transmitted to the Council for consideration by December 31, 2017.
- *Outcomes:* The Executive shall file with the Council for review and potential approval the Bicycle
   Network Planning Report and a motion adopting the Report.
- **2507** Lead: Department of ((Transportation))Local Services Road Services Division.
- 2508

2478

2484

2492

2493

2494

2496

- 2509 Action 12: Update Plat Ingress/Egress Requirements. State law gives King County the responsibility
- 2510 to adopt regulations and procedures for approval of subdivisions and plats. The Department of Local
- 2511 <u>Services Permitting Division</u> ((Permitting and Environmental Review)) reviews ingress and egress to
- subdivisions and plats during the preliminary subdivision approval process using the Department of
- 2513 ((Transportation)) Local Services Road Services Division's "King County Road Design and
- 2514 Construction Standards 2007<sup>2</sup> (Roads Standards). In recent years, subdivision layouts have included
- one entry/exit (or ingress/egress) point and a looped road network within the subdivision.
- 2516

Utilizing one entry/exit point can cause access issues if the roadway were to be physically impeded (such as due to: a fire, debris, flooding, ice, snow, etc.). This configuration may also cause traffic backups while waiting for the ability to turn in to or out of the development. Sometimes, this one access point may also be located too close to other intersecting roadways to the roadway that the development intersects; this can contribute to traffic back-ups.

2522

2523 This Workplan item directs the Executive to transmit legislation to update the code, (such as K.C.C. Title 2524 21A), and the King County Department of ((Transportation)) Local Services - Road Services Division's 2525 Road Standards to address these access issues. This code update will include requiring two entry/exit 2526 points for plats and subdivisions over a certain size; requiring sufficient distance between the two 2527 entry/exit points so as to not impact traffic flows; addressing access for emergency vehicles, including 2528 requiring adequate roadway width to accommodate emergency vehicles; and increasing the distance 2529 between adjacent intersecting streets. The transmittal letter for the ordinance(s) shall indicate the rational 2530 for the chosen size threshold for when the County will require two entry/exit points.

- *Timeline:* The proposed amendments to the King County Code and <u>/or</u> the King County Roads
   Standards shall be transmitted to the Council for consideration by ((June 28, 2019)) June 30, 2020.
- Outcomes: The Executive shall file with the Council an ordinance(s) adopting updates to the King
   County Code and the King County Roads Standards.
- *Lead*: Department of <u>Local Services</u> ((<del>Transportation and Department of Permitting and</del> Environmental Review</del>)).
- 2537

Action 13: Water Availability and Permitting Study. The recent Washington State Supreme Court
 decision in *Whatcom County v. Western Washington Growth Management Hearings Board (aka, Hirst)* held that

2540 counties have a responsibility under the Growth Management Act to make determinations of water

- 2541 availability through the Comprehensive Plan and facilitate establishing water adequacy by permit
- 2542 applicants before issuance of development permits. *Hirst* also ruled that counties cannot defer to the State

2543 to make these determinations. This case overruled a court of appeals decision which supported deference 2544 to the State. The Supreme Court ruling will require the County to develop a system for review of water 2545 availability in King County, with a particular focus on future development that would use permit exempt 2546 wells as their source of potable water. This system will be implemented through amendments to the King 2547 County Comprehensive Plan and development regulations. The County will engage in a Water 2548 Availability and Permitting Study to address these and related issues. This study will analyze methods to 2549 accommodate current zoning given possible water availability issues and will look at innovative ways to 2550 accommodate future development in any areas with insufficient water by using mitigation measures (e.g. 2551 water banks). This study will not include analysis of current water availability. 2552 *Timeline:* Eighteen month process. Initial report will be transmitted to the Council by December •

- 1, 2017; final report, with necessary amendments, will be transmitted to the Council by
  December 31, 2018. This report may inform the scope of work for the 2020 Comprehensive Plan
  update.
- Outcomes: Modifications, as needed, to the Comprehensive Plan, King County Code and County
   practices related to ensuring availability of water within the Comprehensive Plan and
   determining the adequacy of water during the development permit process.
- Leads: Performance, Strategy and Budget. Work with the Department of Local Services Permitting Division ((Permitting and Environmental Review)), Department of Natural Resources
   and Parks, Department of Public Health, Prosecuting Attorney's Office, and King County
   Council. Involvement of state agencies, public, local watershed improvement districts, and non governmental organizations.
- 2564

2565 Action 14: 2020 Comprehensive Plan Update. In 2018, the County restructured its comprehensive 2566 planning program and associated Comprehensive Plan update ((eveles)) process. This restructure 2567 includes moving to an eight-year update ((eycle)) update schedule. As part of the transition to this new 2568 ((planning cycle)) update schedule and given that the next ((major)) eight-year plan update will not be 2569 completed until ((2023)) 2024, there is a need to make substantive changes in the interim. The scope of 2570 the update proposed by the executive((e))Executive in the motion shall include any changes as called for 2571 by applicable Workplan Action items, any policy changes or land use proposals that should be considered 2572 prior to the ((2023)) 2024 update, review and inclusion of changes related to docket proposals that were 2573 recommended to be reviewed as part of the next ((<u>"major"</u>)) majoreight-year update, aligning the language in the Comprehensive Plan and Title 20 regarding what is allowed during annual, midpoint and 2574 2575 eight-year updates, and reviewing and updating the terminology to consistently describe the various 2576 updates.

2577 • *Timeline:* A motion authorizing the 2020 Comprehensive Plan update shall be transmitted to the

- Council for consideration by January 2, 2019. The Council shall have until February 28, 2019 to
  adopt the motion. The 2020 Comprehensive Plan update shall be transmitted to the Council for
  consideration by September 30, 2019. The Council shall have until June 30, 2020 to adopt the
  2020 Comprehensive Plan update.
- 2582 *Outcomes:* The Executive shall file with the Council a motion authorizing the 2020 2583 Comprehensive Plan update. The Council shall have until February 28, 2019 to adopt the 2584 motion, either as transmitted or amended. In the absence of Council approval by February 28, 2585 2019, the Executive shall proceed to implement the scope as proposed. If the motion is approved 2586 by February 28, 2019, the scope shall proceed as established by the approved motion. The 2587 Executive shall then file with the Council the proposed 2020 Comprehensive Plan update by 2588 September 30, 2019. The Council shall have until June 30, 2020 to adopt the 2020 2589 Comprehensive Plan update.
- *Leads:* Office of Performance, Strategy and Budget, in coordination and collaboration with the
   Department of <u>Local Services Permitting Division</u> ((Permitting and Environmental Review)).
- 2592

2593 Action 15. Annual DLS Briefing at ((PRE.)) Local Services Committee. In order to better serve the 2594 residents of unincorporated King County, the ((Executive transmitted legislation in 2018 (Proposed 2595 Ordinance 2018-0312) to)) Council adopted Ordinance 18791 to establish a new Department of Local 2596 Services effective January 1, 2019, following guidance for the creation of the Department adopted in 2597 Motion 15125. ((If approved by the Council, thet))The Department will be evaluating processes, 2598 procedures, and policies to identify areas of improvement in the delivery of unincorporated services. In 2599 addition to this evaluation, the Department will report at least annually to the ((Planning, Rural Services 2600 and Environment (PRE))) Local Services Committee or its successor on key issues related to 2601 unincorporated areas.

- *Timeline:* The Department will report to the ((PRE)) Local Services Committee or its successor at least annually.
- Outcomes: The Department of Local Services shall coordinate with the Regional Planning Unit
   and other departments to inform the 2020 Comprehensive Plan ((Update)) update, and will brief
   the ((PRE)) Local Services Committee at least annually.
- *Leads:* Department of Local Services, in coordination with the Regional Planning Unit of Office of
   Performance, Strategy and Budget.

2609

Action 16: Streamlining the Comprehensive Plan. Public participation, as expressed in Policy RP-103,
is to be actively sought out throughout the development, amendment, and implementation of the

2612 Comprehensive Plan. The Plan, and various iterations before final adoption, are posted online in order to 2613 be accessible to the public, and active outreach efforts during plan updates seek to reach a wide range of 2614 County residents. However, such a lengthy document with many complex regulatory requirements can 2615 be difficult to navigate and understand. To make the Comprehensive Plan and relevant sections in King 2616 County Code Title 20 more reader-friendly and accessible to a wider audience, redundancies and excess 2617 detail should be minimized. This workplan item will initiate the process of streamlining the 2016 2618 Comprehensive Plan and portions of King County Code Title 20 over the next several years, with the 2619 goal of becoming shorter, easier to understand, and more accessible to the general public. This review 2620 will consider: removal of text or policies that are redundant and/or repetitive within the plan; removal of 2621 text or policies that are redundant to other existing plans and policy documents; removal of outdated text 2622 or policies; removal of text or policies that are at a level of detail that is more appropriate for functional 2623 plans, implementation plans, development regulations, etc.; increasing readability and conciseness; 2624 clarifying the process for amending the plan; and making the document and sections of the Code more 2625 streamlined, user friendly, and accessible for the public. 2626 • *Timeline:* A streamlined version of the Comprehensive Plan and relevant sections of King 2627 County Code Title 20, including but not limited to KCC 20.08, 20.12, and 20.18 shall be 2628 transmitted to the Council for consideration by June 30, ((2022)) 2023. • *Outcomes:* The Executive shall file with the Council an ordinance adopting a streamlined version 2629 2630 of the Comprehensive Plan and associated code changes as part of the Executive's proposed 2631 ((2023-((Eight-Year)) 2024 eight-year Comprehensive Plan update. 2632 • Leads: Office of Performance, Strategy and Budget, in coordination and collaboration with the 2633 Council's Comprehensive Planning lead staff and the Department of Local Services - Permitting 2634 Division ((Permitting and Environmental Review)). 2635 2636 In Chapter 12 Implementation, Amendments and Evaluation, on page 12-22, amend as 2637 follows:

- Action 17: Update the Residential Density Incentive Code. As part of the 2020 Comprehensive Plan
- update, the King County Executive included a code study regarding the County's Residential Density
- <u>Incentive (RDI) regulations in K.C.C. Chapter 21A.34. This code study included recommendations for</u>
- 2641 updating the RDI regulations, but ultimately the 2020 Comprehensive Plan update did not include any
- 2642 updates with the 2020 Comprehensive Plan update. The code study states that the "key factors identified
- and recommendations should be considered as the Affordable Housing Committee seeks to develop
- 2644 model ordinances or provide technical assistance to other jurisdictions interested in implementing
- inclusionary housing policies." As part of this Work plan Action, the King County Executive will update
- 2646 the County's RDI regulations. This work can be coordinated with the Affordable Housing Committee of

the G	rowth Ma	nagement Planning Council, which has been established to implement the Regional
Afford	<u>lable Hou</u>	sing Task Force Five Year Action Plan and will recommend action and assess progress
towar	<u>d impleme</u>	enting the Plan.
•	Timelin	e: A proposed ordinance modifying the Residential Density Incentive Code shall be
		itted to the Council by June 30, 2023.
•		es: The Executive shall file with the Council a proposed ordinance as part of the
		ive's proposed 2024 eight-year Comprehensive Plan update.
•		epartment of Local Services – Permitting Division, in coordination with the Department of
		nity and Human Services and the Affordable Housing Committee of the Growth
	Manage	ment Planning Council.
Actio	<u>n 18: Gre</u>	enhouse Gas Mitigation. As part of the 2020 update to the 2016 Comprehensive Plan,
<u>policie</u>	es and reg	ulations related to some aspects of climate change and greenhouse gas emissions were
<u>adopte</u>	ed. More	work is needed to address resiliency for the natural and built environment, and to
<u>mitiga</u>	<u>ite impact</u>	s from climate change, including avoiding or sequestrating greenhouse gas emissions.
<u>The lc</u>	oss of carb	on sequestration capacity resulting from the conversion of forestland to non-forest uses is
one ar	rea where	the County can make a difference in addressing these impacts. In order to implement the
policy	direction	in the 2020 update related to sea level rise, climate change, greenhouse gas emissions,
<u>and fo</u>	ossil fuel fa	acility impacts, this Workplan item directs:
<u>A</u>	. Prepara	tion of a Forest Conversion Review Study that includes and evaluates the following
	informa	ition:
	<u>1.</u>	The current process and standards for reviewing and approving Class-IV General Forest
		Practices relating to forest conversion, and for reviewing and approving Conservation
		Option Harvest Plans.
	<u>2.</u>	The number of forest conversions permitted in King County since January 1, 2010,
		regardless of whether a separate Class-IV Forest Practice permit was issued, and the
		average and total acreage of forest removed.
	<u>3.</u>	The number of Conversion Option Harvest Plans approved since January 1, 2010, and
		the number of participating properties that were not subsequently replanted.
	<u>4.</u>	Potential pathways to achieving zero net loss carbon sequestration capacity from forest
		conversions, including, but not limited to, off-site replanting, payment into a mitigation
		bank, and purchase of carbon credits. This should include both standard forest
		conversions and properties with Conversion Option Harvest Plans that are subsequently
		converted to non-forest uses.

- 2681B. Drafting and transmittal of a proposed ordinance that establishes or modifies regulations, and if2682necessary, Comprehensive Plan policies, that will result in zero net loss of carbon sequestration2683capacity from forest conversions, based on the recommended strategies in the Forest Conversion2684Review Study.
- <u>*Timeline:*</u> The Forest Conversion Review Study report and a proposed ordinance making
   <u>Comprehensive Plan and/or King County Code changes shall be transmitted to the Council for</u>
   <u>consideration by June 30, 2022.</u>
- Outcomes: The Executive shall file with the Council the Forest Conversion Review Study report
   and a proposed ordinance with recommended code and/or policy updates.
  - Leads: Department of Local Services Permitting Division and Department of Natural Resources and
     Parks.
- Action 19: Skyway-West Hill and North Highline Anti-Displacement Strategies. King County will

2694 <u>complete an Anti-Displacement Strategy for Skyway-West Hill and North Highline</u>. In the context of

Motion 15539, the work done by the County's Regional Affordable Housing Task Force and the ongoing

work by the Affordable Housing Committee of the Growth Management Planning Council, this strategy

697 <u>will evaluate tools, programs, and regulations to retain and create affordable housing and prevent</u>

residential displacement. The strategy, at minimum, shall consider the following: mandatory

<u>inclusionary zoning; preservation for manufactured housing and manufactured housing communities;</u>

2700 residential community benefit agreements; relocation assistance; redevelopment assistance; right to return

programs; community preference programs; and other tools, programs, and regulations identified in

Motion 15539. The report will be informed by best practices, research, other ongoing efforts in King

2703 <u>County, and a robust community engagement process.</u>

2690

691

2692

- Timeline: A Skyway-West Hill and North Highline Anti-Displacement Strategies Report and
   proposed legislation to implement the recommendations in the report shall be transmitted to the
   Council for consideration by September 30, 2021. This deadline supersedes the deadlines adopted
   in Motion 15539.
- Outcomes: The Executive shall file with the Council the Skyway-West Hill Equitable Housing
   Development Strategies Report, which shall include recommended strategies and tools and
   identification of recommended legislation, if appropriate. The Executive shall also file with the
   Council legislation as recommended in the Report. These outcomes supersede the deliverables
   adopted in Motion 15539.
- 2713 Leads: Department of Community and Human Services, Department of Local Services, the Office
   2714 of Equity and Social Justice, and the Office of Performance Strategy and Budget. Executive staff

2715 shall update and coordinate with the Councilmember offices representing the area throughout the 2716 planning process. 2717 2718 Actions Related to the Growth Management Planning Council 2719 The Growth Management Planning Council (GMPC) is a separate formal body consisting of elected 2720 officials from King County, Seattle, Bellevue, other cities and towns in King County, special purpose 2721 districts, and the Port of Seattle. The GMPC developed the Countywide Planning Policies, providing a 2722 countywide vision and serving as a framework for each jurisdiction to develop its own comprehensive plan, which must be consistent with the overall vision for the future of King County. The GMPC is 2723 2724 chaired by the King County Executive; five King County Councilmembers serve as members. 2725 Recommendations from the GMPC are transmitted to the full King County Council for review and 2726 consideration. 2727 2728 The GMPC develops its own independent work program every year; this section of the 2016 2729 Comprehensive Plan Workplan identifies issues the County will bring forward to the GMPC for review, 2730 consideration and recommendations. King County will submit these Workplan items to the GMPC for 2731 consideration at its first meeting of 2017, with a goal of completing the GMPC review and 2732 recommendations by December 31, 2018. The Executive will work with the Council to determine 2733 whether the amendments are appropriate for inclusion in ((an ((Annual)) the annual or ((Midpoint))) 2734 midpoint Comprehensive Plan ((Amendment)) update prior to the next ((Eight-Year)) eight-year update. 2735 2736 In Glossary, Chapter 12 Implementation, Amendments and Evaluation, starting on page G-10, after 12-22, amend as follows: 2737 2738 2739 Action ((17))GMPC-1 (Was Action 17): Develop a Countywide Plan to Move Remaining Unincorporated Urban Potential Annexation Areas Toward Annexation. The GMPC has authority to 2740 propose amendments to the definition for Forest Production Districts, insert 2741 2742 Planning Policies, and a unique defined role related to recommending approval or denial of Urban Growth Area expansions. In order to move remaining unincorporated areas, which vary in size and 2743 2744 complexity, towards annexation, the GMPC would reconsider the Potential Annexation Areas map and the "Joint Planning and Annexation" section of the Countywide Planning Policies. This effort would 2745 2746 include an evaluation of how to address Potential Annexation Areas that have been previously 2747 unsuccessful in annexation and/or where annexation does not appear feasible in the near future. The 2748 report shall include review of tax revenue impacts to the County resulting from annexations, evaluation 2749 of requirements regarding annexation of roadways within Potential Annexation Areas, and identification

- 2750 of current orphaned roads and potential methods to transfer ownership to cities. Deadline: December 31,
  2751 2019.
- 2753 Action ((18)) GMPC-2 (Was Action 18): Review the Four-to-One Program. The County's Four-to-2754 One Program has been very effective in implementing Growth Management Act goals to reduce sprawl 2755 and encourage retention of open space. This is done through discretionary actions by the County Council, following a proposal being submitted by a landowner(s) to the County. Over time, there have 2756 2757 been proposals that vary from the existing parameters of the program; these have included possible 2758 conversion of urban zoning for lands not contiguous to the original 1994 Urban Growth Area, allowing 2759 the open space to be non-contiguous to the urban extension, use of transfer of development rights, providing increased open space credit for preserved lands with high ecological value (such as lands that 2760 could provide for high value floodplain restoration, riparian habitat, or working resource lands), and 2761 consideration of smaller parcels or parcels with multiple ownerships. Allowing these changes have the 2762 2763 potential for increasing the use of the tool, with attendant risks and benefits. The Growth Management Planning Council would review the Four-to-One program and determine whether changes to the existing 2764 2765 program should be implemented that will strengthen the program and improve implementation of the 2766 Comprehensive Plan, including evaluation of the proposals listed above. 2767 2768 **Fossil Fuel Facility** 2769 Fossil fuel facilities, as defined further in King County Code Chapter 21A.06, are commercial facilities used 2770 primarily to receive, store, transfer, wholesale trade, or transport fossil fuels. They do not include individual 2771 storage facilities of up to 30,000 gallons and total cumulative facilities per site of 60,000 gallons for the 2772 purposes of retail or direct to consumer sales, facilities or activities for local consumption; non-commercial 2773 facilities; and uses preempted by federal rule or law. 2774 Action ((19)) GMPC-3 (Was Action 19): Buildable Lands Program Methodology Review. As required by the Growth Management Act, King County and the 39 cities participate in the Buildable 2775 Lands Program to evaluate their capacity to accommodate forecasted growth of housing units and jobs. 2776 2777 The program, administered by the Washington State Department of Commerce, requires certain counties 2778 to determine whether the county and its cities are achieving urban densities within urban growth areas by 2779 comparing assumptions and targets regarding growth and development with actual growth and development in the county and cities. Since issuance of the first Buildable Lands Report in 2002, 2780 jurisdictions and stakeholders have expressed the potential for possible refinements of the methodology 2781 2782 used by King County and the cities. The Growth Management Planning Council would work with 2783 stakeholders to review the methodology, including testing the accuracy of the Buildable Lands Report
- 2784 <u>model and results, for potential refinements.</u>

2752

	In Glossary, on page G-14, amend as follows:
	Land Use Map
'	The land use map ((for)) adopted as part of the Comprehensive Plan designates the general location and
•	extent of the uses of land for agriculture, timber production, housing, commerce, industry, recreation,
•	open spaces, public utilities, public facilities, and other land uses as required by the Growth Management
	Act. ((The)) A representation of the Land Use Map is ((not included in the Plan because it is very large;
	however a smaller representation of it is reproduced)) included at the end of Chapter 1: Regional Growth
	Management Planning. ((The full size map is available for review at the Department of Local Services-
	Permitting Division ((Permitting and Environmental Review)) and at the Clerk of the King County
1	Council. The map is also available in digital format on the County's Comprehensive Plan website))
	In Glossary, on page G-15, amend as follows:
	Mineral Resource Sites
	The Growth Management Act requires cities and counties to designate, where appropriate, mineral
	resource lands that are not already characterized by urban growth and that have long-term significance
f	for the extraction of minerals. The comprehensive plan designates as Mineral Resource Sites existing,
	approved ((mining)) mineral extraction sites, and also designates as Potential Surface Mineral Resource
	Sites properties on which King County expects some future mines may be located. (See Chapter 3: Rural
	Areas and Natural Resource Lands)
	In Glossary, on page G-20, amend as follows:
	Public Review Draft
	A Public Review Draft is a draft of ((e))Executive proposed Comprehensive Plan ((amendments))
	updates, including proposed Community Service Area subarea plans, made available to the public for
1	review and comment. A Public Review Drafts is published prior to transmittal of proposed
	Comprehensive Plan ( $(amendments)$ ) updates to the $((e)$ ) Council so as to provide the public an
	<u>Comprehensive Plan ((amendments)) updates to the ((e))Council so as to provide the public an</u>
	Comprehensive Plan ((amendments)) updates to the ((e))Council so as to provide the public an opportunity to record comments before the ((e))Executive finalizes the recommended ((amendments)) updates.

In the Vashon-Maury Island Community Service Area Subarea Plan, starting on page 2818 2819 96, amend as follows: 2820 VMI CSA Workplan Action 2: Sewer Local Service Area 2821 2822 Portions of Vashon-Maury Island have an established "local service area" (LSA) that allows for 2823 the provision of sewer service within certain areas of the island. Adoption of the LSA dates back to at least 1986, with the adoption of the Vashon Community Plan in Ordinance 7837. 2824 2825 Subsequent to the adoption of that plan, the Growth Management Act (GMA) was passed. which defined provision of sewer as an urban service. Provision of sewer service outside the 2826 2827 urban growth boundary is tightly restricted. Because there was already sewer service on portions of Vashon-Maury Island, this existing LSA was continued in the County's planning 2828 2829 documents and code provisions (such as in K.C.C. Title 13). With the adoption of the Vashon-Maury Island subarea plan, as well as the adoption of the affordable housing incentive SDO, 2830 2831 future development is anticipated, some of which would desire or rely on sewer service. 2832 However, the legislative history of the LSA is unclear, and for the Rural Town area, the LSA 2833 boundary does not match the boundaries of the Rural Town. This Workplan item directs an 2834 Interbranch Team to review the legislative history of the LSA on Vashon-Maury Island, and 2835 determine what the current LSA boundary is. This work shall include: 1) review of the past 2836 ordinances adopting, and/or repealing, various land use planning and sewer planning 2837 documents (including Vashon Sewer District plans), 2) evaluation of GMA and other applicable legal limitations on modifying the boundaries of the LSA and the Rural Town, 3) proposing an 2838 ordinance to officially adopt the correct LSA boundary, and 4) evaluation of the effects of this 2839 correct LSA boundary on the existing land use designations, zoning and affordable housing 2840 SDO. If review by the Utilities Technical Review Committee is required, this shall be completed 2841 2842 by the Executive prior to transmittal of the report and accompanying proposed ordinance. 2843 Timeline: A Vashon-Maury Island Sewer Local Service Area Report and proposed 2844 2845 ordinance to implement the recommendations in report shall be transmitted to the 2846 Council for consideration by ((June 30)) December 31, 2019. 2847 Outcomes: The Interbranch Team shall develop and the Executive shall file with the 2848 Council the Vashon-Maury Island Sewer Local Service Area Report, which shall include 2849 identification of recommended amendments to the King County Code. The Executive 2850 shall also file with the Council an ordinance adopting updates to the Code as 2851 recommended in the Report.

2852	•	Lead: Department of Permitting and Environmental Review shall lead an interbranch
2853		team including the Prosecuting Attorney's office, Council staff, and the Department of
2854		Natural Resources and Parks, including coordination with the Utilities Technical Review
2855		Committee. Work with the Vashon Sewer District will be required. Executive staff shall
2856		update and coordinate with the Councilmember office(s) representing Vashon-Maury
2857		Island throughout the community planning process.
2858
