## John Wilson

Assessor

OFFICE: (206) 296-7300 FAX (206) 296-0595
Email: assessor.info@kingcounty.gov
http://www.kingcounty.gov/assessor/

Dear Property Owners,

Our field appraisers work hard throughout the year to visit properties in neighborhoods across King County. As a result, new commercial and residential valuation notices are mailed as values are completed. We value your property at its "true and fair value" reflecting its highest and best use as prescribed by state law (RCW 84.40.030; WAC 458-07-030).

We continue to work hard to implement your feedback and ensure we provide accurate and timely information to you. We have made significant improvements to our website and online tools to make interacting with us easier. The following report summarizes the results of the assessments for your area along with a map. Additionally, I have provided a brief tutorial of our property assessment process. It is meant to provide you with the background information about the process we use and our basis for the assessments in your area.

Fairness, accuracy and transparency set the foundation for effective and accountable government. I am pleased to continue to incorporate your input as we make ongoing improvements to serve you. Our goal is to ensure every single taxpayer is treated fairly and equitably.

Our office is here to serve you. Please don't hesitate to contact us if you ever have any questions, comments or concerns about the property assessment process and how it relates to your property.

In Service,

John Wilson
King County Assessor

## How Property Is Valued

King County along with Washington's 38 other counties use mass appraisal techniques to value all real property each year for property assessment purposes.

## What Are Mass Appraisal Techniques?

In King County the Mass Appraisal process incorporates statistical testing, generally accepted valuation methods, and a set of property characteristics for approximately 700,000 residential, commercial and industrial properties. More specifically for commercial property, the Assessor breaks up King County into geographic or specialty (i.e., apartments, office buildings, warehouses, retail centers, etc.) market areas and annually develops valuation models using one or more of the three standards appraisal indicators of value: Cost, Sales Comparison (market) and Income. For most commercial properties the income approach is the primary indicator of value. The results of the models are then applied to all properties within the same geographic or specialty area.

## Are Properties Inspected?

All property in King County is physically inspected at least once during each six year cycle. Each year Assessor's appraisers inspect a different geographic area. An inspection is frequently an external observation of the property to confirm whether the property has changed by adding new improvements or shows signs of deterioration more than normal for the property's age. For some larger or more complex commercial properties an appraiser may need to also conduct an interior inspection of the buildings or property. From the property inspections we update our property assessment records for each property.

## How are Individual Commercial Properties Valued?

The Assessor collects a large amount of data regarding commercial properties: cost of construction, sales of property, and prevailing levels of rent, operating expenses, and capitalization rates. Statistical analysis is conducted to establish relationships between factors that might influence the value of commercial property. Lastly, valuation models are built and applied to the individual properties. For income producing properties, the following are basic steps employed for the income approach:

1. Estimate potential gross income from rent
2. Add miscellaneous income
3. Deduct for vacancy and credit loss to get the effective gross income
4. Determine typical operating expenses
5. Deduct operating expenses to get the net operating income
6. Select the proper capitalization rate
7. Capitalize the net operating income into an estimated property value

## How are Property Sales Used?

For the annual revaluation of apartments, three years of sales are analyzed with the sales prices time adjusted to January 1 of the current assessment year. Sales prices are adjusted for time to reflect that market prices change over time. During an increasing market, older sales prices often understate the current market value. Conversely, during downward (or recessionary) markets, older sales prices may overstate a property's value on January 1 of the assessment year unless sales are time adjusted. Hence time adjustments are an important element in the valuation process.

## How is Assessment Uniformity Achieved?

The Assessor achieves uniformity of assessments for apartments through statistical analysis of rents, operating expenses, vacancy and credit loss collections and capitalization rates which are uniformly applied to similarly-situated commercial properties. Rate tables are generated annually that identify specific rates based on location, age, property type, improvement class, and quality grade. Rate tables are annually calibrated and updated based on surveys and collection of data from local real estate brokers, professional trade publications, and regional financial data sources. With up-to-date market rates we are able to uniformly apply the results to properties based on their unique set of attributes.

Where there is a sufficient number of sales, assessment staff may generate a ratio study to measure uniformity mathematically through the use of a coefficient of dispersion (COD). A COD is developed to measure for and show the uniformity of predicted property assessments. We have adopted the Property Assessment Standards prescribed by the International Association of Assessing Officers (IAAO) that may be reviewed at www.IAAO.org. The following is the target COD range that applies to apartments in King County based on standards set by IAAO:

| Type of property-General | Type of property-Specific | COD Range** |
| :--- | :--- | :--- |
| Single-family residential (including residential <br> condominiums) | Newer or more homogeneous areas | 5.0 to 10.0 |
| Single-family residential | Older or more heterogeneous areas | 5.0 to 15.0 |
| Other residential | Rural, seasonal, recreational, manufactured housing, 2-4 <br> unit family housing | 5.0 to 20.0 |
| Income-producing properties | Larger areas represented by large samples | 5.0 to 15.0 |
| Income-producing properties | Smaller areas represented by smaller samples | 5.0 to 20.0 |
| Vacant land |  | 5.0 to 25.0 |
| Other real and personal property |  | Varies with local conditions |

Source: IAAO, Standard on Ratio Studies - 2013, Table 1-3. www.IAAO.org

More results of the statistical testing process is found within the attached area report.

## Requirements of State Law

Within Washington property is required to be revalued each year to market value based on its highest and best use. (RCW 84.41.030; 84.40.030; and WAC 458-07-030). Washington Courts have interpreted fair market value as the amount of money a buyer, willing but not obligated to buy, would pay to a seller willing but not obligated to sell. Highest and Best Use is simply viewed as the most profitable use that a property can be legally used for. In cases where a property is underutilized by a property owner, it still must be valued at its highest and best use.

## Appraisal Area Reports

The following area report summarizes the property assessment activities and results for a general market area. The area report is meant to comply with state law for appraisal documentation purposes as well as provide the public with insight into the mass appraisal process.

# Executive Summary Report Apartments; Specialty Area: 100 

## Sales Summary

Appraisal Date: January 1, 2020
Sale Summary: Sales Used (All): 1,008; Sales Used (Ratio Study): 910
Sales Dates: Jan., 2017 - Dec., 2019

Ratio Study Summary

| Sales - Improved Ratio and Uniformity Summary |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Mean Assessed <br> Value | Mean Sale <br> Price | Weighted Mean <br> Ratio | COD | COV |  |
| 2019 Value | $\$ 11,672,300$ | $\$ 13,417,500$ | 0.870 | $9.81 \%$ | $13.48 \%$ |  |
| 2020 Value | $\$ 12,304,900$ | $\$ 13,417,500$ | 0.917 | $8.40 \%$ | $11.97 \%$ |  |
| Change | $\$ 632,600$ |  | 0.047 | $-1.41 \%$ | $-1.51 \%$ |  |
| \% Change |  |  | $5.40 \%$ | $-14.37 \%$ | $-11.20 \%$ |  |

COD (coefficient of dispersion) and COV (coefficient of variation) are measures of uniformity. The lower the number the better the uniformity. See Glossary of Terms for definitions. The ratio, COD and COV have been improved.

## Sales Used in Analysis

A list of all the sales used for any kind of analysis is provided later in this report. These are all improved sales and were verified as fair market transactions. Most of these sales are used in the ratio study, while some are excluded for various reasons, as indicated on the list. Sales were adjusted for time to the appraisal date of January 1, 2020. The ratio type used is the weighted mean ratio. The Ratio Study Analysis indicates the proposed values will result in an improvement in assessment level, uniformity, and equity. The weighted mean ratio of the proposed values is within the IAAO recommended standards ( 0.90 to 1.10 ). The values recommended in this report reflect current apartment market parameters as of the valuation date of January 1, 2020. The proposed values improve the weighted mean ratio, COD, and COV. It is recommended they be posted for the 2020 assessment year.

Population - Value Summary Data

| Population Value Summary |  |  |  |
| :---: | :---: | :---: | :---: |
|  | Land | Improvements | Total |
| 2019 Value | $\$ 21,746,835,393$ | $\$ 66,831,941,636$ | $\$ 88,578,777,029$ |
| 2020 Value | $\$ 24,099,242,099$ | $\$ 67,884,024,159$ | $\$ 91,983,266,258$ |
| Difference | $\$ 2,352,406,706$ | $\$ 1,052,082,523$ | $\$ 3,404,489,229$ |
| $\%$ Change | $10.82 \%$ | $1.57 \%$ | $3.84 \%$ |

The following table displays the percent-change in values for improved apartment parcels that have been assessed to this date. Low Income parcels were excluded. For those properties showing an increase in value, the increase is predominately
less than $10 \%$ - a change which correlates with the relatively small distance between the before (.870) ratio and after ratio (.917). Parcels which increase more than $30 \%$ tend to be new construction parcels.

| Summary of Value Changes |  |  |
| :---: | :---: | :---: |
| Change Type | Range | $\%$ of Properties |
| Decreased |  | $17.53 \%$ |
| No change |  | $5.65 \%$ |
| Increased | $0.1 \%-9.9 \%$ | $49.92 \%$ |
| Increased | $10.0 \%-19.9 \%$ | $19.37 \%$ |
| Increased | $20.0 \%-29.9 \%$ | $4.48 \%$ |
| Increased | $30 \%+$ | $3.05 \%$ |

## New Construction

As of the date of this report the value of new construction is $\$ 1,654,840,594$. The following chart shows the breakdown by King County Region and the top two neighborhoods in each of those regions.

| Construction Summary |  |  |  |
| :---: | :---: | :---: | :---: |
| Region | New <br> Construction | Top 2 Neighborhoods <br> Per Region | New <br> Construction |
| Central / North | $\$ 684,947,725$ | Capitol Hill East | $\$ 160,180,505$ |
| South | $\$ 57,942,675$ | Downtown | $\$ 99,378,510$ |
|  |  | $\$ 16,793,015$ |  |
| Total | $\$ 911,950,194$ | Auburn North | $\$ 9,718,150$ |
|  | $\$ 1,654,840,594$ | Totemue East | $\$ 343,822,099$ |

There remains a number of parcels with new construction permits that have not been valued as of the date of this report.

## Appraisal Information

## Sales Verification and Data Collection

Sales data are taken from real estate excise tax affidavits. Sales are verified as valid market sales by personal contact with involved parties, questionnaires, or various published sources. The Assessor uses sales dating to three years before the appraisal date. They are adjusted for time to the appraisal date. Sales as old as five years can appear on an individual property's worksheet for information purposes. The older sales are not used in our analysis, however.

## Approaches to Value

The income approach, sales comparison approach, and cost approach were considered in the appraisal of apartments in the county.

The income approach is the capitalization of net operating income into an indicated value. The income approach is generally given significant weight.

The sales comparison approach compares sold properties to any given subject property in order to determine an indicated value. The sales comparison approach is given significant weight. Usually four comparable sales are selected for each property. In addition to the direct comparison the Assessor also develops a multiple regression equation that is derived from all of the sales in the data base.

The cost approach is rarely, if ever, used in establishing our values. This is because of the difficulty in establishing an appropriate amount for depreciation. The cost approach frequently differs from the other approaches to value by a large amount.

## Land Value

Land values are determined by the geographic area appraisers. The apartment appraisers determine a total value for each property and the difference between that and the land value is the improvement value. If the total value is less than the land value, that indicates that the improvements no longer represent the highest and best use of the property. In those cases the improvements are said to be obsolesced and a token value of $\$ 1,000$ are assessed against them.

## Identification of the Area

## Name or Designation: Apartments, Specialty Area 100

This report contains data pertinent to the annual revalue of Apartment properties. The Specialty Area is 100 . It encompasses apartments in all of King County. The apartment specialty includes apartments with 4 or more units, condominium complexes that are operated as apartment complexes, some mixed-use properties with commercial area less than $25 \%$ of the total net rentable area, and vacant land parcels that are associated with apartments. Apartments subject to low-income restrictions are valued using a different methodology. The methodology is described in the state Department of Revenue's Low-Income Housing Valuation Guide. Unless stated otherwise, the statistical data in this report include the low-income properties.

## Area Description

There are 13,261 parcels (major-minor sequences) in the King County Apartments Specialty, with 12,846 of these being actual tax-payer accounts. The remainder are administrative parcels - global condominium parcels (294) and parcels which consolidate two or more improved parcels (121). The table below summarizes the parcel and account inventory.

| Inventory - Parcels and Accounts |  |  |  |  |  |
| :---: | :---: | :--- | :---: | :---: | :---: |
|  | Parcels |  | Accounts |  | Regular Accts |
|  | $\underline{13,261}$ |  | $\underline{12,846}$ |  | $\underline{10,128}$ |
| Global Condo | 294 |  |  | Singular Imp | 8,892 |
| Consolidated | 121 | Condo Minors | 2,718 | Consol Imp | 360 |
| Accounts | 12,846 | Regular Accts | 10,128 | Vacant | 876 |

Taxpayer accounts can be legal condominium minors $(2,718)$ which are being operated as apartment units. The remaining regular accounts $(10,128)$ are: improved stand-alone complexes $(8,892)$, and consolidations of parcels into economic units for valuation reasons (360). See Glossary of Terms. Three are also 876 vacant land parcels associated with and/or supporting apartment properties. Amongst all the parcels herein described, 259 are currently designated for low-income apartment use.

The inventory may also be viewed as projects and units. A project may range from a stand-alone 4-plex to a multi-building, multi-parcel complex.

| Inventory - Projects and Units |  |  |
| :---: | :---: | :---: |
|  | Projects | Units |
| Total | $\underline{9,307}$ | $\underline{310,907}$ |
| Global Condo | 294 | 19,217 |
| Consolidated | 121 | 20,415 |
| Singular Imps | 8,892 | 271,275 |

The total quantity of projects is the sum of all the global condos, all the consolidated parcels, and all the improved regular accounts that are singular (not combined with others). To date, there are 9,307 apartment projects, with a total of 310,907 units. The distribution of the apartment projects by age and size of complex is shown below.

| Inventory - Distribution by Age and Size |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Age of Project |  |  | Size of Project |  |  |
| Year Built | \% of Total <br> Properties | \% of Total <br> Units | Number of <br> Units | \% of Total <br> Properties | Year Built <br> (Avg) |
| $1900-1919$ | $10.00 \%$ | $3.80 \%$ | $0-4$ | $25.72 \%$ | 1965 |
| $1920-1929$ | $5.31 \%$ | $3.11 \%$ | $5-9$ | $25.23 \%$ | 1961 |
| $1930-1939$ | $0.81 \%$ | $0.56 \%$ | $10-19$ | $16.98 \%$ | 1964 |
| $1940-1949$ | $1.83 \%$ | $1.25 \%$ | $20-49$ | $15.58 \%$ | 1969 |
| $1950-1959$ | $11.92 \%$ | $4.10 \%$ | $50-99$ | $7.50 \%$ | 1986 |
| $1960-1969$ | $20.90 \%$ | $12.58 \%$ | $100-199$ | $5.36 \%$ | 1996 |
| $1970-1979$ | $13.71 \%$ | $8.80 \%$ | $200-499$ | $3.48 \%$ | 1999 |
| $1980-1989$ | $15.61 \%$ | $16.63 \%$ | $500-999$ | $0.13 \%$ | 1993 |
| $1990-1999$ | $6.73 \%$ | $9.35 \%$ | $1,000+$ | $0.02 \%$ | 2018 |
| $2000-2009$ | $5.22 \%$ | $11.14 \%$ |  |  |  |
| $2010-2020$ | $7.97 \%$ | $28.68 \%$ |  | All | 1969 |

The following table displays the largest projects, by unit count, per region.

| Inventory - Largest Three Projects Per Region |  |  |  |
| :---: | :---: | :---: | :---: |
|  | Project | Units | Year Built |
|  | Onni Twin Tower - Apartments | 1,097 | 2018 |
|  | 1200 Stewart | 1,050 | 2018 |
|  | Harbor Steps | 759 | 1997 |
| South | Club Palisades | 750 | 1988 |
|  | Signature Pointe Apartments | 633 | 1990 |
|  | Central Flats | 576 | 1986 |
|  | Totem Lake Upper Mall | 650 | 2019 |
|  | Shorewood Heights | 645 | 1959 |
|  | Hyde Square Apartments | 618 | 2017 |

The apartment parcel population is divided, for administrative and appraisal purposes, into three regions: Region 1 (Central), Region 2 (South), Region 3 (East). Each region contains the following neighborhoods:

| Inventory - Regions and Neighborhoods |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Region 1 NHD \# | NHD Name | Region 2 <br> NHD \# | NHD Name | Region 3 NHD \# | NHD Name |
| 5 | Downtown | 160 | Seward Park | 340 | Mercer Island |
| 10 | Regrade | 165 | Skyway | 350 | Issaquah |
| 15 | Lower Queen Anne | 170 | Rainier Valley | 355 | Kennydale |
| 20 | South Lake Union | 175 | Beacon Hill | 360 | Bellevue West |
| 30 | International | 185 | Georgetown | 365 | Bellevue East |
| 35 | Central District | 195 | White Center | 370 | Kirkland |
| 40 | Madison / Leschi | 200 | Highland Park | 380 | Totem Lake |
| 45 | Queen Anne | 205 | Westwood | 385 | Bothell |
| 50 | North Queen Anne | 215 | High Point | 400 | Kenmore |
| 55 | Westlake | 220 | Delridge | 425 | Woodinville |
| 60 | Roanoke | 240 | Des Moines | 430 | Redmond |
| 65 | Capitol Hill East | 245 | Burien |  |  |
| 70 | Belmont | 250 | Boulevard Park |  |  |
| 75 | Magnolia | 255 | SeaTac |  |  |
| 80 | Interbay | 270 | Federal Way |  |  |
| 85 | First Hill | 285 | Auburn South |  |  |
| 90 | Greenwood | 290 | Auburn North |  |  |
| 95 | Lake City | 295 | Algona |  |  |
| 100 | Northgate | 300 | Enumclaw/Black Diamond |  |  |
| 110 | University | 305 | Kent Valley |  |  |
| 115 | Wallingford | 310 | Covington/Maple Valley |  |  |
| 125 | Wedgewood | 315 | Renton |  |  |
| 130 | Fremont | 320 | Benson / East Hill |  |  |
| 135 | Leary | 325 | Tukwila |  |  |
| 140 | Ballard East | 330 | Renton Highlands |  |  |
| 145 | Ballard West | 440 | Carnation |  |  |
| 150 | Greenlake | 460 | Duvall |  |  |
| 155 | Phinney | 465 | Snoqualmie |  |  |
| 225 | Junction | 475 | Vashon |  |  |
| 230 | Alki/Fauntleroy |  |  |  |  |
| 235 | Admiral |  |  |  |  |
| 415 | Shoreline East |  |  |  |  |
| 420 | Shoreline West |  |  |  |  |

Almost all of the apartments in King County are in the Urban Growth area which is the western portion of the county lying west of a meandering north-south line encompassing Woodinville, Redmond, Issaquah, Renton, Kent, and Auburn. It also includes some areas to the east like Maple Valley and North Bend.

## Maps

General and Regional apartment area maps are included in the Addenda. More detailed Assessor's maps showing individual parcels are located on the 7th floor of the King County Administration Building. Maps are also available when looking up individual properties on the Assessor's website using eReal Property. http://info.kingcounty.gov/Assessor/eRealProperty/default.aspx

## Analysis of Data and Conclusions

Effective Date of Appraisal:
Date of Appraisal Report:
$01 / 01 / 2020$. New construction is valued as of 07/31/2020
07/29/2020

## Purpose

The purpose of the mass appraisal is to determine and set the annual revaluation, represented by market value, of Apartment properties in King County.

## Appraisal Team Members - Modeling and Valuation

Thomas Bradbury, Rick Davison and Angelique Tinney performed the analysis of the parameters to be used in the apartment appraisal model. Joe Arnold, Thomas Bradbury, Russ Butler, Yuen Chin, Rick Davison, Valerie Dreas, Jill Gardine, Jeremy Gray, Mary Guballa, Angela Hegedus, Ryan Jimenez, Matthew Landry, Joyce LaRoche, Scott Mar, Nick Moody, David O'Hern, Diane Owings, Ed Pangan, Raphael Roberge, Steven Roberts, Darrell Rogers, Robert Rosenberger, Chris Savage, Burke Shethar, Lori Sorrell, Trevor Swedberg, Kent Walter, and Rick Welch valued the parcels and placed them in Ready to Post status. Kent Walter, Senior Appraiser, provided oversight to the process.

## Physical Inspection Identification

The following Apartment neighborhoods were physically inspected for the 2020 assessment year: 015, 040, 065, 090, $125,160,165,255,430$, and 475.

## Highest and Best Use Analysis

As if vacant: Market analysis of the county, together with current zoning and current anticipated use patterns, indicate the highest and best use of the majority of the appraised parcels as multi-family use or mixed-use. Any opinion not consistent with this is specifically noted in our records and considered in the valuation of the specific parcel. Land values are set by the geographic area appraisers.

As if improved: Based on neighborhood trends, both demographic and current development patterns, the existing buildings represent the highest and best use of most sites. The existing use will continue until land value, in its highest and best use, exceeds the sum of the value of the entire property in its existing use and the cost to remove the improvements. In those properties where the property is not at its highest and best use, a token value of $\$ 1,000$ is assigned to the improvements.

## Standards and Measurement of Data Accuracy

Each sale was verified with the buyer, seller, real estate agent or tenant when possible. Current data were verified and corrected when necessary via field inspection.

## Scope of the Appraisal

- All three approaches to value were considered in this appraisal, although the cost approach was rarely, if ever, used.
- Sales from Jan., 2017 through Dec., 2019 were used for ratio analysis.
- Sales were adjusted for time to the appraisal date of 01/01/2020.
- This report intends to meet the requirements of the Uniform Standards of Professional Appraisal Practice, Standards 5 and 6.

## Approaches to Value - Detail

## Income Approach

Rent: Apartment rent, in the form of actual and asking rates per month, is collected in the field, online, from appeals, and from published sources. Multiple regression analysis was performed on the rents and was used to assign rents to each unit type in each property. Typical variables used in the multiple regression equation for rent assignment addressed such characteristics as:

1. Age
2. Quality
3. Actual or asking rent
4. Elevator
5. Location
6. Pool
7. Unit Type and Size
8. Building views
9. Condition

For mixed-use properties commercial rents were directly determined from the geo-area commercial income tables and applied to the commercial area of the project.

Other Income: This is a yearly figure attributed to each property, composed mostly from parking fees and income from common laundry facilities. Also included is moorage and miscellaneous charges, such as late fees and forfeited deposits.

Rent and Other Income combine to express potential gross income (PGI).

Vacancy and Credit Loss: (VCL) is an amount of income, expressed as a rate, deducted from each property's PGI. It is composed mostly of typical market vacancy - a rate tailored per neighborhood and property characteristics (age, size). Included in VCL is also an allowance for credit loss, which is a form of effective vacancy, equating to incentives (e.g., temporary free rent). VCL rates are typically derived from market studies and operating statements. For mixed-use properties commercial VCL rates were directly determined from the geo-area commercial income tables and applied to the commercial area of the project.

The figure resulting from the reduction of PGI by the VCL rate is the effective gross income (EGI).
Operating Expenses: (OEX) is expressed as a percentage of EGI. The rate represents a total amount of expenses (which can also be expressed as expenses per unit). Included in OEX are property taxes, utilities, and other major typical operating costs. The Assessor also includes in this figure an allowance for yearly reserves for future capital expenditures. VCL rates are typically derived from market studies and operating statements. For mixed-use properties commercial OEX rates were directly determined from the geo-area commercial income tables and applied to the commercial area of the project.

The figure resulting from the reduction of EGI by the OEX rate is the net operating income (NOI).
Capitalization Rates: Capitalization rate information is gathered from a variety of published sources as well as directly from sales. Generally about $25-30 \%$ of the sales in the Assessor's sales file have capitalization rates associated with them.

The capitalization rates are adjusted for quality, condition, and view. For mixed-use properties commercial cap rates were directly determined from the geo-area commercial income tables and applied to the commercial area of the project. The income approach indication of value is derived by dividing the NOI by the capitalization rate.

## Sales Comparison Approach

Sale prices continue to increase on a price-per-unit basis. Since January 2017 there have been 25 properties that have sold for $\$ 500,000$ per unit or higher.

| Summary of Top Sales - Last Three Years |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| By Price Range | Top Six in the County |  |  |  |  |  |
| Price per <br> Unit | Sales | Price per <br> Unit | Project | NHD | Sale Year |  |
| $\$ 700,000+$ |  | $\$ 716,357$ | Tower 12 | Regrade | 2017 |  |
|  | $\$ 698,219$ | Voda Apartments | Kirkland | 2018 |  |  |
| $\$ 600,000+$ | 7 | $\$ 692,431$ | LUX Apartments | Bellevue West | 2019 |  |
|  |  | The Carillon Apartment | Kirkland | 2018 |  |  |
| $\$ 500,000+$ | 25 | $\$ 648,750$ | Apt/Office | Leary | 2019 |  |
|  |  | Mixed Use Triplex | Greenlake | 2018 |  |  |

Four comparable sales are selected for each apartment property by the County's computer-assisted mass appraisal (CAMA) application. The value-select appraiser can also manually select sales if desired. The sales are adjusted for time and various property characteristics such as age, number of units, average unit size, quality, condition, view, and location.

EMV
The other indicator of value derived from the sales data is the Estimated Market Value (EMV) indicator. A multiple regression equation is also developed from, using the trended sales prices, and typically these variables:

1. Age
2. Quality
3. Condition
4. Airport Noise
5. Average unit size
6. Location
7. Commercial area
8. View
9. Number of units

The CAMA system applies the resulting multiple regression equation to each property to estimate market value.

## Valuation of Low-income Apartments

Included in the apartment specialty are 259 parcels designated for operation / use as low-income apartments. These properties are valued in accordance with guidelines issued by the Washington State Department of Revenue. The steps to be used are as follows:

1. Determine the unrestricted market value.
2. Determine the owner's restricted leased fee value.
3. Determine the owner's positive leasehold reversion value (number 1 minus number 2 above).
4. Determine the present value of the owner's positive leasehold reversion
5. Determine the restricted-use value (number 2 plus number 4 above). This would be the assessed value.

If the low-income agreement for a property specifies specific rents, then those are used. If not, then tables published by the Washington State Housing Finance Commission are used. The tables list maximum rents by unit type for different household income levels. The Assessor uses rents that are somewhat lower than the table rents to recognize the fact properties typically are unable to actually achieve the maximum allowed. The vacancy and credit loss figures used are lower than the figures used in market rate apartments. Expenses are increased to a level higher than the expenses used for market rate apartments. The capitalization rate used is increased by adding a change rate as required by the Washington State Department of Revenue guidelines.

## Model Validation

Reconciliation and/or validation study of calibrated value models
Appraisers made a review of the appropriateness of the application of the valuation models before final value was selected for each parcel. There are several choices of value indicators; the income approach, multiple regression equation (EMV), individual comparable sales, and a weighted value which is a combination of the above indicators. Individual appraisers may choose any one of the indicators or a value that lies between two indicators. The appraiser can change parameters used in the income approach, such as, rent, expenses, vacancy and credit loss, and capitalization rate if better information becomes available at the time of value selection. An appraiser may also change the comparable sales that were used. Appraisers make the determination of value based on the appraiser's judgment of the appropriateness of the method for each property. Properties are further reviewed when, for example, proposed value change is outside of a certain range, parcels are part of an economic unit, there has been recent building permit activity, or a recent board decision has occurred for a prior value.

About 44\% of the improved properties valued to date were valued by the income approach model. The sales comparison approach indication was selected about 9\%, and the EMV model at around 10\%. A weighted indication, which reconciles income, sales and EMV, was selected about $23 \%$ of the time. The remainder were valued by various other methods (cost, percent-complete, appraiser-select, etc.). An administrative review of the selected values was made by the following Senior Appraisers: Kent Walter, Marie Ramirez, Andrew Murray, and Nick Moody.

Total Value Conclusions, Recommendations and Validation:
Appraiser judgment prevails in all decisions regarding individual parcel valuation. A value is selected based on general and specific data pertaining to the parcel, the neighborhood, and the market. The Appraiser determines which available value estimate is appropriate and may adjust for particular characteristics and conditions.

A final ratio study was done using the proposed values after revaluation. The results appear on the following page. Application of the total value model, described above, results in improvement in measures of equity among individual properties. The weighted mean ratio, COV (coefficient of variation), and the COD (coefficient of dispersion) all improved. The PRD (price-related differential) did not improve; however, it is still within the acceptable range.

It is recommended the proposed values be posted.
Ratio Studies Analysis
Ratio studies were done for the entire county using the values in place before the valuation work and another one for the proposed values for the 2020 assessment (taxes payable 2021). The results are in the addenda. The sale prices in both studies were adjusted for time at a rate of $5.0 \%$ to $9.5 \%$ per year depending on location.

## Specialty Area 100 - Apartments - Ratio Study Reports

## PRE-REVALUE RATIO ANALYSIS

Pre-revalue ratio analysis compares time adjusted sales from 2017 through 2019 in relation to the previous assessed value as of $1 / 1 / 2019$.

| PRE-REVALUE RATIO SAMPLE STATISTICS |  |
| :--- | :---: |
| Sample size (n) | 910 |
| Mean Assessed Value | $\$ 11,672,300$ |
| Mean Adj. Sales Price | $\$ 13,417,500$ |
| Standard Deviation AV | $\$ 26,424,077$ |
| Standard Deviation SP | $\$ 30,522,138$ |
| ASSESSMENT LEVEL |  |
| Arithmetic Mean Ratio |  |
| Median Ratio | 0.894 |
| Weighted Mean Ratio | 0.895 |
| UNIFORMITY |  |
| Lowest ratio | 0.870 |
| Highest ratio: |  |
| Coefficient of Dispersion | 0.4011 |
| Standard Deviation | 1.4800 |
| Coefficient of Variation | $9.81 \%$ |
| Price Related Differential (PRD) | 0.1205 |

## POST-REVALUE RATIO ANALYSIS

Post revalue ratio analysis compares time adjusted sales from 2017 through 2019 in relation of the current assessment level as of $1 / 1 / 2020$.

| POST-REVALUE RATIO SAMPLE STATISTICS |  |
| :--- | :---: |
| Sample size ( n ) | 910 |
| Mean Assessed Value | $\$ 12,304,900$ |
| Mean Adj. Sales Price | $\$ 13,417,500$ |
| Standard Deviation AV | $\$ 27,574,850$ |
| Standard Deviation SP | $\$ 30,522,138$ |

| Price Related Differential (PRD) | $8.40 \%$ |

# Uniform Standards of Professional Appraisal Practice Compliance 

## Client and Intended Use of the Appraisal:

This mass appraisal report is intended for use by the public, King County Assessor and other agencies or departments administering or confirming ad valorem property taxes. Use of this report by others for other purposes is not intended by the appraiser. The use of this appraisal, analyses and conclusions is limited to the administration of ad valorem property taxes in accordance with Washington State law. As such it is written in concise form to minimize paperwork. The assessor intends that this report conform to the Uniform Standards of Professional Appraisal Practice (USPAP) requirements for a mass appraisal report as stated in USPAP Standards 5 and 6. To fully understand this report the reader may need to refer to the Assessor's Property Record Files, Assessors Real Property Data Base, separate studies, Assessor's Procedures, Assessor's field maps, Revalue Plan and the statutes.

The purpose of this report is to explain and document the methods, data and analysis used in the revaluation of King County. King County is on a six-year physical inspection cycle with annual statistical updates. The revaluation plan is approved by Washington State Department of Revenue. The Revaluation Plan is subject to their periodic review.

## Definition and date of value estimate:

## Market Value

The basis of all assessments is the true and fair value of property. True and fair value means market value (Spokane etc. R. Company v. Spokane County, 75 Wash. 72 (1913); Mason County Overtaxed, Inc. v. Mason County, 62 Wn. 2d (1963); AGO 57-58, No. 2, 1/8/57; AGO 65-66, No. 65, 12/31/65).

The true and fair value of a property in money for property tax valuation purposes is its "market value" or amount of money a buyer willing but not obligated to buy would pay for it to a seller willing but not obligated to sell. In arriving at a determination of such value, the assessing officer can consider only those factors which can within reason be said to affect the price in negotiations between a willing purchaser and a willing seller, and he must consider all of such factors. (AGO 65,66, No. 65, 12/31/65)

Retrospective market values are reported herein because the date of the report is subsequent to the effective date of valuation. The analysis reflects market conditions that existed on the effective date of appraisal.

## Highest and Best Use

## RCW 84.40.030

All property shall be valued at one hundred percent of its true and fair value in money and assessed on the same basis unless specifically provided otherwise by law.

An assessment may not be determined by a method that assumes a land usage or highest and best use not permitted, for that property being appraised, under existing zoning or land use planning ordinances or statutes or other government restrictions.

## WAC 458-07-030 (3) True and fair value -- Highest and best use.

Unless specifically provided otherwise by statute, all property shall be valued on the basis of its highest and best use for assessment purposes. Highest and best use is the most profitable, likely use to which a property can be put. It is the use which will yield the highest return on the owner's investment. Any reasonable use to which the property may be put may be taken into consideration and if it is peculiarly adapted to some particular use, that fact may be taken into consideration. Uses that are within the realm of possibility, but not reasonably probable of occurrence, shall not be considered in valuing property at its highest and best use.

If a property is particularly adapted to some particular use this fact may be taken into consideration in estimating the highest and best use. (Samish Gun Club v. Skagit County, 118 Wash. 578 (1922))

The present use of the property may constitute its highest and best use. The appraiser shall, however, consider the uses to which similar property similarly located is being put. (Finch v. Grays Harbor County, 121 Wash. 486 (1922))

The fact that the owner of the property chooses to use it for less productive purposes than similar land is being used shall be ignored in the highest and best use estimate. (Samish Gun Club v. Skagit County, 118 Wash. 578 (1922))

Where land has been classified or zoned as to its use, the county assessor may consider this fact, but he shall not be bound to such zoning in exercising his judgment as to the highest and best use of the property. (AGO 63-64, No. 107, 6/6/64)

## Date of Value Estimate

## RCW 84.36.005

All property now existing, or that is hereafter created or brought into this state, shall be subject to assessment and taxation for state, county, and other taxing district purposes, upon equalized valuations thereof, fixed with reference thereto on the first day of January at twelve o'clock meridian in each year, excepting such as is exempted from taxation by law.

## RCW 36.21.080

The county assessor is authorized to place any property that is increased in value due to construction or alteration for which a building permit was issued, or should have been issued, under chapter 19.27, 19.27A, or 19.28 RCW or other laws providing for building permits on the assessment rolls for the purposes of tax levy up to August 31st of each year. The assessed valuation of the property shall be considered as of July 31st of that year.

Reference should be made to the property card or computer file as to when each property was valued. Sales consummating before and after the appraisal date may be used and are analyzed as to their indication of value at the date of valuation. If market conditions have changed then the appraisal will state a logical cutoff date after which no market date is used as an indicator of value.

## Property Rights Appraised: Fee Simple

## Wash Constitution Article 7 § 1 Taxation:

All taxes shall be uniform upon the same class of property within the territorial limits of the authority levying the tax and shall be levied and collected for public purposes only. The word "property" as used herein shall mean and include everything, whether tangible or intangible, subject to ownership. All real estate shall constitute one class.

Trimble v. Seattle, 231 U.S. 683, 689, 58 L. Ed. 435, 34 S. Ct. 218 (1914)
...the entire [fee] estate is to be assessed and taxed as a unit...

Folsom v. Spokane County, 111 Wn. 2d 256 (1988)
...the ultimate appraisal should endeavor to arrive at the fair market value of the property as if it were an unencumbered fee...

The Dictionary of Real Estate Appraisal, 3rd Addition, Appraisal Institute.
Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat.

## Assumptions and Limiting Conditions:

1. No opinion as to title is rendered. Data on ownership and legal description were obtained from public records. Title is assumed to be marketable and free and clear of all liens and encumbrances, easements and restrictions unless shown on maps or property record files. The property is appraised assuming it to be under responsible ownership and competent management and available for its highest and best use.
2. No engineering survey has been made by the appraiser. Except as specifically stated, data relative to size and area were taken from sources considered reliable, and no encroachment of real property improvements is assumed to exist.
3. No responsibility for hidden defects or conformity to specific governmental requirements, such as fire, building and safety, earthquake, or occupancy codes, can be assumed without provision of specific professional or governmental inspections.
4. Rental areas herein discussed have been calculated in accord with generally accepted industry standards.
5. The projections included in this report are utilized to assist in the valuation process and are based on current market conditions and anticipated short term supply demand factors. Therefore, the projections are subject to changes in future conditions that cannot be accurately predicted by the appraiser and could affect the future income or value projections.
6. The property is assumed uncontaminated unless the owner comes forward to the Assessor and provides other information.
7. The appraiser is not qualified to detect the existence of potentially hazardous material which may or may not be present on or near the property. The existence of such substances may have an effect on the value of the property. No consideration has been given in this analysis to any potential diminution in value should such hazardous materials be found (unless specifically noted). We urge the taxpayer to retain an expert in the field and submit data affecting value to the assessor.
8. No opinion is intended to be expressed for legal matters or that would require specialized investigation or knowledge beyond that ordinarily employed by real estate appraisers, although such matters may be discussed in the report.
9. Maps, plats and exhibits included herein are for illustration only, as an aid in visualizing matters discussed within the report. They should not be considered as surveys or relied upon for any other purpose.
10. The appraisal is the valuation of the fee simple interest. Unless shown on the Assessor's parcel maps, easements adversely affecting property value were not considered.
11. An attempt to segregate personal property from the real estate in this appraisal has been made.
12. Items which are considered to be "typical finish" and generally included in a real property transfer, but are legally considered leasehold improvements are included in the valuation unless otherwise noted.
13. The movable equipment and/or fixtures have not been appraised as part of the real estate. The identifiable permanently fixed equipment has been appraised in accordance with RCW 84.04.090 and WAC 458-12-010.
14. I have considered the effect of value of those anticipated public and private improvements of which I have common knowledge. I can make no special effort to contact the various jurisdictions to determine the extent of their public improvements.
15. Exterior inspections were made of all properties in the physical inspection areas (outlined in the body of the report) however; due to lack of access and time few received interior inspections.

## Scope of Work Performed:

Research and analyses performed are identified in the body of the revaluation report. The assessor has no access to title reports and other documents. Because of legal limitations we did not research such items as easements, restrictions, encumbrances, leases, reservations, covenants, contracts, declarations and special assessments. Disclosure of interior home features and, actual income and expenses by property owners is not a requirement by law therefore attempts to obtain and analyze this information are not always successful. The mass appraisal performed must be completed in the time limits indicated in the Revaluation Plan and as budgeted. The scope of work performed, and disclosure of research and analyses not performed are identified throughout the body of the report.

## Certification:

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct
- The report analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- I have no bias with respect to the property that is the subject of this report or to the parties involved.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice.
- The areas) physically inspected for purposes of this revaluation are outlined in the body of this report.
- The individuals listed below were part of the "appraisal team" and provided significant real property appraisal assistance to the person signing this certification. Any services regarding the subject area performed by the appraiser within the prior three years, as an appraiser or in any other capacity is listed adjacent their name.
- To the best of my knowledge the following services were performed by the appraisal team within the subject area in the last three years:
- Members: Joe Arnold, Dan Atkinson, Thomas Bradbury, Russ Butler, Yuan Chin, Rick Davison, Valerie Dreas, Avi Epstein, Jill Gardine, Jeremy Gray, Mary Guballa, Angela Hegedus, Ryan Jimenez, Matthew Landry, Joyce LaRoche, Scott Mar, Nick Moody, Andrew Murray, David O'Hern, Diane Swings, Ed Pangan, Stephanie Pratt, Marie Ramirez, Raphael Roberge, Steven Roberts, Darrell Rogers, Robert Rosenberger, Joshua Rubin, Chris Savage, Burke Shethar, Lori Sorrell, Trevor Swedberg, Kim Thurman, Angelique Tinney, Kent Walter, Rick Welch.
- Services:
- Physical Inspection and Data Collection
- Sales Verification
- Appeals Response Preparation / Review
- Appeal Hearing Attendance
- Land and Total Valuation
- New Construction Evaluation
- Model, Value and Report review
- Any services regarding the subject area performed by me within the prior three years, as an appraiser or in any other capacity is listed adjacent to my name.
- To the best of my knowledge the following services were performed by me within the subject area in the last three years:
- Physical Inspection and Data Collection
- Sales Verification
- Appeals Response Preparation / Review
- Appeal Hearing Attendance
- Annual Model Development and Report Preparation
- Land and Total Valuation
- New Construction Evaluation

Seattle, WA 98104-2384

## John Wilson

Assessor
(206) 296-7300 FAX (206) 296-0595

Email: assessor.info@kingcounty.gov

As we start preparations for the 2020 property assessments, it is helpful to remember that the mission and work of the Assessor's Office sets the foundation for efficient and effective government and is vital to ensure adequate funding for services in our communities. Maintaining the public's confidence in our property tax system requires that we build on a track record of fairness, equity, and uniformity in property assessments. Though we face ongoing economic challenges, I challenge each of us to seek out strategies for continuous improvement in our business processes.

Please follow these standards as you perform your tasks.

- Use all appropriate mass appraisal techniques as stated in Washington State Laws, Washington State Administrative Codes, Uniform Standards of Professional Appraisal Practice (USPAP), and accepted International Association of Assessing Officers (IAAO) standards and practices.
- Work with your supervisor on the development of the annual valuation plan and develop the scope of work for your portion of appraisal work assigned, including physical inspections and statistical updates of properties;
- Where applicable, validate correctness of physical characteristics and sales of all vacant and improved properties.
- Appraise land as if vacant and available for development to its highest and best use. The improvements are to be valued at their contribution to the total in compliance with applicable laws, codes and DOR guidelines. The Jurisdictional Exception is applied in cases where Federal, State or local laws or regulations preclude compliance with USPAP;
- Develop and validate valuation models as delineated by IAAO standards: Standard on Mass Appraisal of Real Property and Standard on Ratio Studies. Apply models uniformly to sold and unsold properties, so that ratio statistics can be accurately inferred to the entire population.
- Time adjust sales to January 1, 2020 in conformance with generally accepted appraisal practices.
- Prepare written reports in compliance with USPAP Standards 5 and 6 for Mass Appraisals. The intended users of your appraisals and the written reports include the public, Assessor, the Boards of Equalization and Tax Appeals, and potentially other governmental jurisdictions. The intended use of the appraisals and the written reports is the administration of ad valorem property taxation.

Thank you for your continued hard work on behalf of our office and the taxpayers of King County. Your dedication to accurate and fair assessments is why our office is one of the best in the nation.

John Wilson
King County Assessor

## Glossary of Terms

Account number: Account numbers in King County consist of ten digits. There is an $11^{\text {th }}$ and $12^{\text {th }}$ digit that for most purposes can be ignored. The first six digits are often called the major number and refer to a particular plat, a donation claim, or unplatted property in which case the major number describes the section, township, and range. The next four digits are called the minor number and refer to a specific property.

Assessment date: The effective date of appraisal for the assessed values making up the tax rolls. In Washington the assessment date is January $1^{\text {st }}$ of each year except for new construction which is assessed as of July $31^{\text {st }}$. The value established on the assessment date is used to calculate the following year's taxes.

Capitalization rate: A rate used to convert an estimate of net income to an estimate of market value. Net income is divided by the capitalization rate to arrive at a value estimate.

Coefficient of A normalized statistical measure of uniformity - the ratio of the sum of differences Dispersion:

Coefficient of A normalized statistical measure of uniformity - the ratio of the standard deviation Variation:

Cost approach: An approach to value that involves determining the cost to replace a building, less depreciation, plus land value.

Comparable sale: A recently sold property that is similar to a property being appraised. Differences in characteristics are accounted for by adjusting the sale price of the comparable sale.

Economic Unit: A grouping of two or more parcels, typically contiguous and under the same ownership, which contribute toward the viability of a single property. Parcel value reflects the parcels' contribution to the overall property value. "Multiparcel" economic units have a primary improved parcel and one or more vacant parcels. "Consolidated" economic units have multiple improved parcels which operate together in the same complex.

Income approach: An approach to value based on the concept that a property's value is the present worth of future benefits. The net income that a property is capable of generating is capitalized into value. The net income is divided by the capitalization rate.

Multiple regression: In real estate valuation, a type of statistical analysis which uses multiple data points from multiple observations (e.g. sales) to "predict" values for the larger population.

Ratio study: A study of the relationship between assessed values and market values (as indicated by sale prices). The assessed value is divided by the sale price.

Rent comparable: The rent of a property that is similar to a property being appraised. Differences in characteristics should be accounted for by adjusting the rent of the rent comparable.

Sales comparison approach:

An approach to value that involves comparing the characteristics of a property with the characteristics of other properties that sold (comparable sales).
