* King County Juvenile Court transferred from one data system (JJWEB) to another (JIMS) on 5/12/2012. Data transition has presented some problems (i.e. new queries had to be developed, inherent issues in data migration, differences in the capture and storage of detention data). On 12/12/2012 a fix was put in place to resolve some of the issues with the detention data. The Juvenile Justice Research & Evaluation Analyst is continuing to work with IT to improve the data reporting.
