1) Data are subject to delays in reporting.

2) The number of people living with HIV can change from quarter to quarter due to de-duplication efforts and other investigations.

3) Excluding people diagnosed in the most recent quarter.

4) Includes presumed heterosexual cases (females without injection drug use who had sexual intercourse with a man whose HIV status and HIV risk behaviors are unknown).

5) Deaths among all cases diagnosed with HIV or AIDS within the jurisdiction regardless of the cause of death.

6) For the recently diagnosed, this number also includes 106 individuals (9% overall) who may no longer be residing in King County.
