

# King County Pandemic Community Advisory Group

June 25, 2020      10:30 – 11:30

## AGENDA

1. Welcome 10:30 – 10:35
2. Announcements from Advisory Group members 10:35 – 10:50
3. Discuss King County Budget 10:50 – 11:30  
*- With Aaron Rubardt, King County Deputy Budget Director*

# Preview of upcoming Pandemic Community Advisory Group meetings

## Thursday, July 2, 2020

- Explore Phase 2 reopening issues: What issues are you grappling with? What's working and what's not? Sharing and learning from each other.
- Review a new mental health data brief (with Public Health Assessment, Policy Development, and Evaluation staff)

## Thursday, July 9, 2020 **Note: we plan to extend this to a 2-hour meeting to run 9:30 a.m. – 11:30 a.m.**

- Continue discussion of King County budget issues with Aaron Rubardt
- Updated meeting invitation coming soon

# Testing locations continue to expand

**Testing:** Find free, open access testing locations at [www.kingcounty.gov/testing](http://www.kingcounty.gov/testing)

- **New eastside testing locations in Bellevue and Duvall**
- [The list of locations is also available in PDF format](#) and in the following languages: [Arabic](#), [Chinese](#), [Traditional](#), [Filipino/Tagalog](#), [Khmer](#), [Russian](#), [Spanish](#), [Vietnamese](#)
- Seattle Coronavirus Assessment Network (SCAN): new SCAN participants are invited to enroll at <https://scanpublichealth.org/> (home-based, self-collected samples).

**Isolation and quarantine:** Share the new infographic [When can I be around others again?](#)

# Get to know the updated COVID-19 data dashboards

Use this short URL to visit the webpage that displays all the King County COVID-19 data dashboards:  
[www.kingcounty.gov/covid/data](http://www.kingcounty.gov/covid/data)

The recently expanded “[Daily COVID-19 outbreak summary](#)” shows the latest data for test results, hospitalizations and deaths in King County and in each city, town and zip code. Dashboard users can use “tabs” to filter by race, age and gender for each location. They can also compare how each city or zip code area compares to the overall rates for King County. (Most unincorporated areas are also included, and more will be added.)

On the blog: [Seven questions people ask about our daily COVID-19 data dashboard.](#)

## COVID-19 data dashboards

[Daily Summary Dashboard](#)

This data dashboard shows total cases, deaths and demographics.

[Key indicators of COVID-19 activity](#)

This dashboard displays data on key indicators that track COVID-19 activity.

[Economic, Social and Overall Health Impacts Dashboard](#)

This dashboard shows changes in key economic, social, and other health indicators resulting from strategies to slow the spread of COVID-19.

[Race/Ethnicity Dashboard](#)

This dashboard shows the impacts of COVID-19 on communities of color compared to whites in King County, WA.

[Syndromic Surveillance Dashboard](#)

This dashboard shows emergency department visits and hospitalizations for COVID-like illness and pneumonia at King County healthcare facilities.

[Long Term Care Facility Dashboard](#)

This dashboard shows the impacts of COVID-19 on residents and staff of long term care facilities.

# King County now in Phase 2 of the Safe Start recovery plan

On Friday June 19, following Washington State Department of Health approval, King County officially entered Phase 2. Phase 2 allows for twice the capacity in retail, restaurants, and other businesses previously allowed in King County's modified Phase 1.

## Looking for information?

- Link/share our site at [www.kingcounty.gov/Safe-Start](http://www.kingcounty.gov/Safe-Start) . The King County Safe Start page is also available [in Spanish](#).

## On the blog: [The virus hasn't let up and we can't either](#)

- Adults 60 and older and those with underlying health conditions remain at especially high risk for severe disease and they and their families should continue to take extra precautions.
- This disease spreads mostly person to person by respiratory droplets released when an infected person talks, coughs, or sneezes. So, when you gather, it's better to be outside.
- Keep your distance—at least 6 feet away. Be diligent that you and your friends and family are washing hands. Wear those masks when in public.
- Remember, just because you can do something doesn't mean it's risk free or a good idea for your personal circumstances.

# Statewide requirement for face coverings

- Effective June 26, a statewide order requires individuals to wear a face covering in indoor public spaces such as stores, offices and restaurants. The order also requires face coverings outdoors when you can't stay 6 feet apart from others.
- There are exemptions, including people with certain disabilities or health conditions, people who are deaf or hard of hearing, and children under the age of 5 (though it's encouraged to have children ages 3-5 wear a covering if possible).
- There are also situations when you can remove your face covering, such as when seated at a restaurant or when recreating alone.
- You do not need to wear a cloth face covering in your home when you are only with people in your household, or when you are alone in your car. You do not need to wear one when you are outdoors and people are far apart.
- More information: <https://coronavirus.wa.gov/information-for/you-and-your-family/face-masks-or-cloth-face-covering>

# COVID-19 Call Centers

- King County Novel Coronavirus Call Center,
