2012 Population Estimates: Looking Glass Analytics and the Washington State Office of Financial Management, 4/2014

Disability: Washington State Department of Health, Center for Health Statistics, Behavioral Risk Factor Surveillance System supported in part by Centers for Disease Control and Prevention Cooperative Agreement; 2008-2012 data.

The CDC definition of adult disability is used in these data: age 18 and older limited in any way by a physical, emotional, or mental problem, or having a health problem that requires use of equipment such as a cane, wheelchair, special bed, or special telephone. A narrower focus on specific activity limitations is provided by the US Census Bureau and yield data that help monitor the need for specific disability accommodations, as mandated in the Americans with Disabilities Act of 1990.
