

visible permanent marker posts as described in the Application for Reclamation Permit SM-8A. The markers will be used to delineate the permit boundary enabling the operator, permittee, and the Department of Natural Resources (DNR) to monitor the progress of mining and reclamation. Permanent boundary markers shall be visible such that the entire perimeter of the site could be reestablished using GPS, if any marker was destroyed.

6. The permitted depth at this site is 163 vertical feet from the original ground surface. No excavation shall occur below an elevation of 597 feet mean sea level (msl). If additional mining depth is anticipated the reclamation plan shall be revised prior to exceeding the permitted depth.
7. Reclaimed slopes will not exceed 2 ft horizontal and 1 ft vertical to ensure that all slopes are stable and shall have a sinuous appearance in both plan and profile views.
8. A minimum 30-foot setback shall be maintained interior to the Permit Boundary as shown on Reclamation Plan Map Figure 3.
9. Topsoil shall be stockpiled interior of the 30-foot setback on the West boundary of the mine as shown on Reclamation Plan Map Figure 2. Stockpiles shall be seeded with grasses during storage and incorporate other Best Management Practices (BMPs) for erosion control as needed. Topsoil shall not be buried, removed or sold as a product from the permit area.
10. Revegetation shall be completed as detailed in the narrative and in Form SM-8A. Noxious weeds shall not be considered acceptable vegetation and natural revegetation only shall not be deemed satisfactory. Prior to any variation from the revegetation plan, written approval must be obtained from the Department.
11. Backfilled reclamation slopes shall be constructed as outlined in the Reclamation Narrative. All backfill shall be placed and compacted to a firm and unyielding condition which adequately supports the subsequent use and achieves stable slopes.
12. Importation of clean soil for use in reclamation is permitted at this site. Imported soils shall meet criteria outlined in the Franklin Ridge Clean Fill Monitoring Program.
13. The permit holder or operator shall maintain a complete copy of this permit, including these conditions and the approved reclamation plan with additions and amendments, at the mine site during all mining and reclamation activities.

EXHIBIT A
Conditions of the Permit
Surface Mining Reclamation Permit # 70-012688
February 22, 2019

1. This surface mining reclamation permit applies to the following permit area: a 110-acre permitted area in a portion of all quarters of Section 30, Township 21 North, Range 7 East, Willamette Meridian, King County.
2. All mining and reclamation shall comply with the rules and regulations pursuant to Chapter 78.44 RCW and Chapter 332-18 WAC.
3. All mining and reclamation shall comply with the reclamation plan dated March 26, 2018 by the permittee, and approved by the Department of Natural Resources on February 22, 2019. Any amendment or change to the plan must be submitted to and approved in writing by the Department. The Reclamation Plan consists of the following documents:
 - Permit Letter, dated February 22, 2019
 - Surface Mining Reclamation Permit (Form SM-9) dated February 22, 2019
 - Exhibit A, listing 13 conditions of the permit
 - Standard Reclamation Plan
 - Application for Reclamation Permit (Form SM-8A) dated by the permittee on March 26, 2018, date stamped received by Washington Geological Survey on July 2, 2018.
 - County or Municipality Approval for Surface Mining (Form SM-6) dated by the permittee on July 2, 2018, and approved by King County Department of Permitting and Environmental Review on August 13, 2018, date stamped received by Washington Geological Survey on August 17, 2018.
 - Narrative, date stamped received by Washington Geological Survey on July 2, 2018.
 - Franklin Ridge Clean Fill Monitoring Program, date stamped received by Washington Geological Survey on November 1, 2017.
 - SEPA MDNS issued by King County September 23, 2014 and associated SEPA checklist date stamped Received by Washington Geological Survey on December 13, 2017.
 - Reclamation Plan Maps: Figures 1 thru 7 (9 figures in total), each sheet date stamped Washington Geological Survey on November 1, 2017.
4. If there is any conflict between the conditions in Exhibit A and any other language of the approved reclamation permit (which includes the reclamation plan, maps, and supporting documents), the language in Exhibit A will prevail.
5. The permit holder shall mark the perimeter of the 110-acre permitted area with highly

Workshops

We plan to hold WQWebDMR trainings across the state from February – April, 2016. Visit <http://www.ecy.wa.gov/programs/wq/permits/paris/webdmr.html> for more information.

We plan on holding workshops across the state on the reissued permit in late March through early April. We will post information about the workshops on the following website: <http://www.ecy.wa.gov/programs/wq/sand/index.html>.

Right to Appeal the Permit

You have a right to appeal the terms and conditions of the permit to the Pollution Control Hearing Board (PCHB) within 30 days of the date of receipt this notice. The appeal process is governed by Chapter 43.21B Revised Code of Washington (RCW) and Chapter 371-08 Washington Administrative Code (WAC). “Date of receipt” is defined in RCW 43.21B.001(2).

To appeal you must do the following within 30 days of the date of receipt of this notice:

- File your appeal and a copy of this notice with the PCHB (see addresses below). Filing means actual receipt by the PCHB during regular business hours.
- Serve a copy of your appeal and this notice on Ecology in paper form – by mail or in person. E-mail is not accepted.

Address and Location Information:

Street Address	Mailing Address
Department of Ecology Attn: Appeals Processing Desk 300 Desmond Drive Southeast Lacey, WA 98503	Department of Ecology Attn: Appeals Processing Desk PO Box 47608 Olympia, WA 98504-7608

Permit Documents

In addition to the permit, Ecology also issues a Fact Sheet for the permit. The Fact Sheet explains the legal and technical basis for the permit conditions and requirements. Ecology has also responded to comments that were submitted on the formal draft of the permit. The Response to Comments is an appendix to the Fact Sheet. The permit, Response to Comments, and Fact Sheet are available at: <http://www.ecy.wa.gov/programs/wq/sand/index.html>. You may request hardcopies of these documents from Dena Jaskar at dena.jaskar@ecy.wa.gov or (360) 407-6401.

Fees

Ecology, in response to the passage of Initiative 97 in 1988, has adopted a regulation to recover costs associated with the issuance and administration of Wastewater Discharge Permits (Chapter 173-224 WAC). Please contact Charles Gilman at (360) 407-6425, or by email at charles.gilman@ecy.wa.gov, with any fee related questions.

Permit No. WAG503365

RE: Sand and Gravel General Permit Coverage

Dear David Morris:

On February 17, 2016, the Washington State Department of Ecology (Ecology) reissued the Sand and Gravel General Permit (permit). Ecology is issuing your facility coverage under the new permit based on the information you provided in your application. A copy of the new permit is enclosed. The effective date of the new permit is April 1, 2016.

Coverage Page and Authorization

Coverage under this general permit is limited to the discharges specified on the enclosed coverage page. ***Retain the enclosed coverage page on site, or within reasonable accesses to your site. The enclosed coverage page is the official record of permit coverage for your site.*** Please review all of the information on your coverage page. Contact Ecology if changes are necessary.

Electronic Discharge Monitoring Reports (WQWebDMR)

You must submit your Discharge Monitoring Reports (DMRs) using the Water Quality Permitting Portal (WQWebDMR) starting with the DMR due July 30, 2016 (unless you have applied for and received an Electronic Reporting Waiver). Ecology typically only grants Electronic Reporting Waivers to permittees that do not have a computer, printer, or internet connection. If you have previously submitted an ESAF you do not need to submit another one.

For active sites: By May 1, 2016, you must set up your WQWebDMR account and submit an Electronic Signature Account Form (ESAF) or submit an Electronic Reporting Waiver Request Form.

For inactive sites: Two months before your first DMR due date, you must set up your WQWebDMR account and submit an Electronic Signature Account Form (ESAF) or submit an Electronic Reporting Waiver Request Form

You can find more information regarding WQWebDMR in the enclosed brochure and on our website at: <http://www.ecy.wa.gov/programs/wq/permits/paris/webdmr.html>. If you have technical questions regarding Ecology's Water Quality Permitting Portal, please contact the portal staff at 800-633-6193/**option 3** or email WQWebPortal@ecy.wa.gov.
