

Never let someone “sleep it off”

Look for these signs of overdose early to save
your friend's life.

Won't wake up

Cold & clammy skin

Slow or no breathing

Blue lips or nails

Tiny pupils

Gurgling or snoring

Be ready to help your friends.

If you think someone is overdosing, keep them awake and call 911. Neither you or the person overdosing can be charged for drug use or possession.
