King County International Airport
Boeing Field

BFI AIRPORT ADVISORY

DATE: September 26, 2016

TO: King County International Airport Tenants
Distributed by e-mail

FROM: Charity Catalfomo, Safety and Security Manager

SUBJECT: Airport to use new Emergency Notification System

On September 25, King County International Airport will begin using Everbridge Communications to provide routine and emergency information to airport users, including pilots, tenants, and the general public. Everbridge provides an efficient and dependable email, text, and phone system for distributing timely alerts. This system will replace our current airport advisory email system.

To continue receiving KBFI Airport Advisories, each subscriber must create an account on the Everbridge member portal. Current subscribers will receive an email this week with registration instructions. The email will come from KBFI.notifications@kingcounty.gov. Be sure to add this email to your “safe” email list. Your subscriber information will remain confidential and will only be used for communications from King County International Airport.

If you are not currently registered to receive KBFI Airport Advisories, but would like to receive this information in the future, please send email to KBFI.notifications@kingcounty.gov

Note: Advisories will also be posted on the Airport website and on our blog, the Centerline.

Questions? Please contact Charity Catalfomo, Safety and Security Manager, at charity.catalfomo@kingcounty.gov or 206-477-0229.
