Dear Dan:

As you are aware, I am interested in the proposal to develop a new basketball/hockey arena in Seattle. In particular, I am reviewing the impact such a project would have on King County.

Please provide me the following information: (1) the number of hours (and approximate cost of those hours) attorneys in your office have spent on the arena project; and (2) the legal fees and costs incurred by the county for outside counsel. Additionally, please provide me an estimation of the amount of prosecuting attorney time and outside council expenses expected to be incurred in the next 30 days.

If you have any questions about this request, please contact me by phone (206) 296-1007.

With best wishes,

Pete von Reichbauer
