

**Which C&D Materials Are Recycled?**  
**(When Collected Together For Hauling to Individual C&D Recyclers)**

**Almost Always**

Cardboard  
Pallets and crates  
Unpainted/unstained/untreated (clean) wood scraps  
Metal  
    Rebar, structural steel  
    Flashing and drip edge  
    Metal strapping  
    Electrical wire (coated and non-coated),  
    Steel or cast iron based bath tubs  
    Metal siding and metal roofing  
    Metal pipe  
    Nails and screws

**Sometimes**

Engineered wood (plywood, particle board, MDF)  
Asphalt roofing  
Beverage containers (glass, plastic, aluminum)  
Vinyl siding  
Plastic plumbing (PVC, ABS, HDPE)  
Carpet  
Carpet pad  
Clean drywall  
HVAC units  
Pallet wrap  
Five-Gallon Plastic (#2) buckets  
Rubble  
    Asphalt pavement  
    Brick  
    Concrete  
    Porcelain (sinks, toilets, etc.)

## Very Rarely

Plastic sheet vapor barrier  
Window glass  
Painted drywall  
Ceiling panels  
Other recyclable paper (not cardboard)  
Clean polystyrene foam (Styrofoam)  
Rigid insulation (EPS foam)  
Rocks, dirt

## Never

(Household) Garbage  
Yard Waste  
Trees  
Loose fill insulation (cellulose, fiberglass)  
Painted/stained/treated wood scraps  
PEX tubing  
Hazardous Materials  
    Fluorescent bulbs,  
    Older (PCB) light ballasts  
    Thermostats,  
    Paints, sealers, adhesives  
Asbestos Containing Materials (ACMs)  
Tires
