

Todd Beamer High School

School District: Federal Way

School Location: Federal Way

Began Participating in the Green Schools Program: March 2016

Level One of the Green Schools Program: Achieved in April 2017

Waste Reduction and Recycling (Level One)

- Todd Beamer High School improved its recycling program.
- Students in Mrs. Sproul's Environmental Science class visited every classroom, noted whether or not there was a recycling bin, adjusted bin placement if needed, and recorded the items they saw in the garbage and recycling.
- The school's Green Team (also known as the Environmental Club) had seven consistent members. A member of Mrs. Sproul's Environmental Science class also participated in conservation activities.
- To reduce paper use, students created a handout to explain to teachers how to make double-sided copies.
- The principal began to send school newsletters via email.
- Students added signs to a share table in the cafeteria to increase its visibility and encourage students to place unwanted, unopened packaged items from the school lunch program on the table for others to take.
