## *H.Y.P.E. Helping youth perform excellence*

---

HYPE offers weekend programming designed to support youth and families with barriers to success by participating in community projects and skill building workshops that will support them in developing the necessary skills to discover their best self and contribute positively and thrive in our community. We offer a menu of projects and workshops facilitated by diverse community professionals. Our goal is to customize the programming to meet the needs of the referred youth and families.

We have successfully supported youth in gaining employment, entrepreneurship, completing school, completing probation and becoming engage in community projects, city council meetings and panels with Seattle University Master in Social Work students. We have hosted community hikes and work parties for other youth programs in our community.

If you would like to refer a youth or volunteer to facilitate a workshop or suggest a project please contact:

Charissa Eggleston or Kelli Lauritzen
