

## Proposed bus route changes for fall 2012

### Route 1 – Revise

#### Proposal

- **Link Route 1 with Route 14 (south part):** On Third Avenue, Route 1 buses would continue as the south part of Route 14 ([current map](#)), and vice versa.

#### Change from November 2011 suggestion

Extend Route 1 along 6th Avenue W, W Galer Street, and Queen Anne Avenue N to McGraw Street to replace service on the north part of Route 2 during off-peak and night hours. No increase in Route 1 frequency during peak hours.

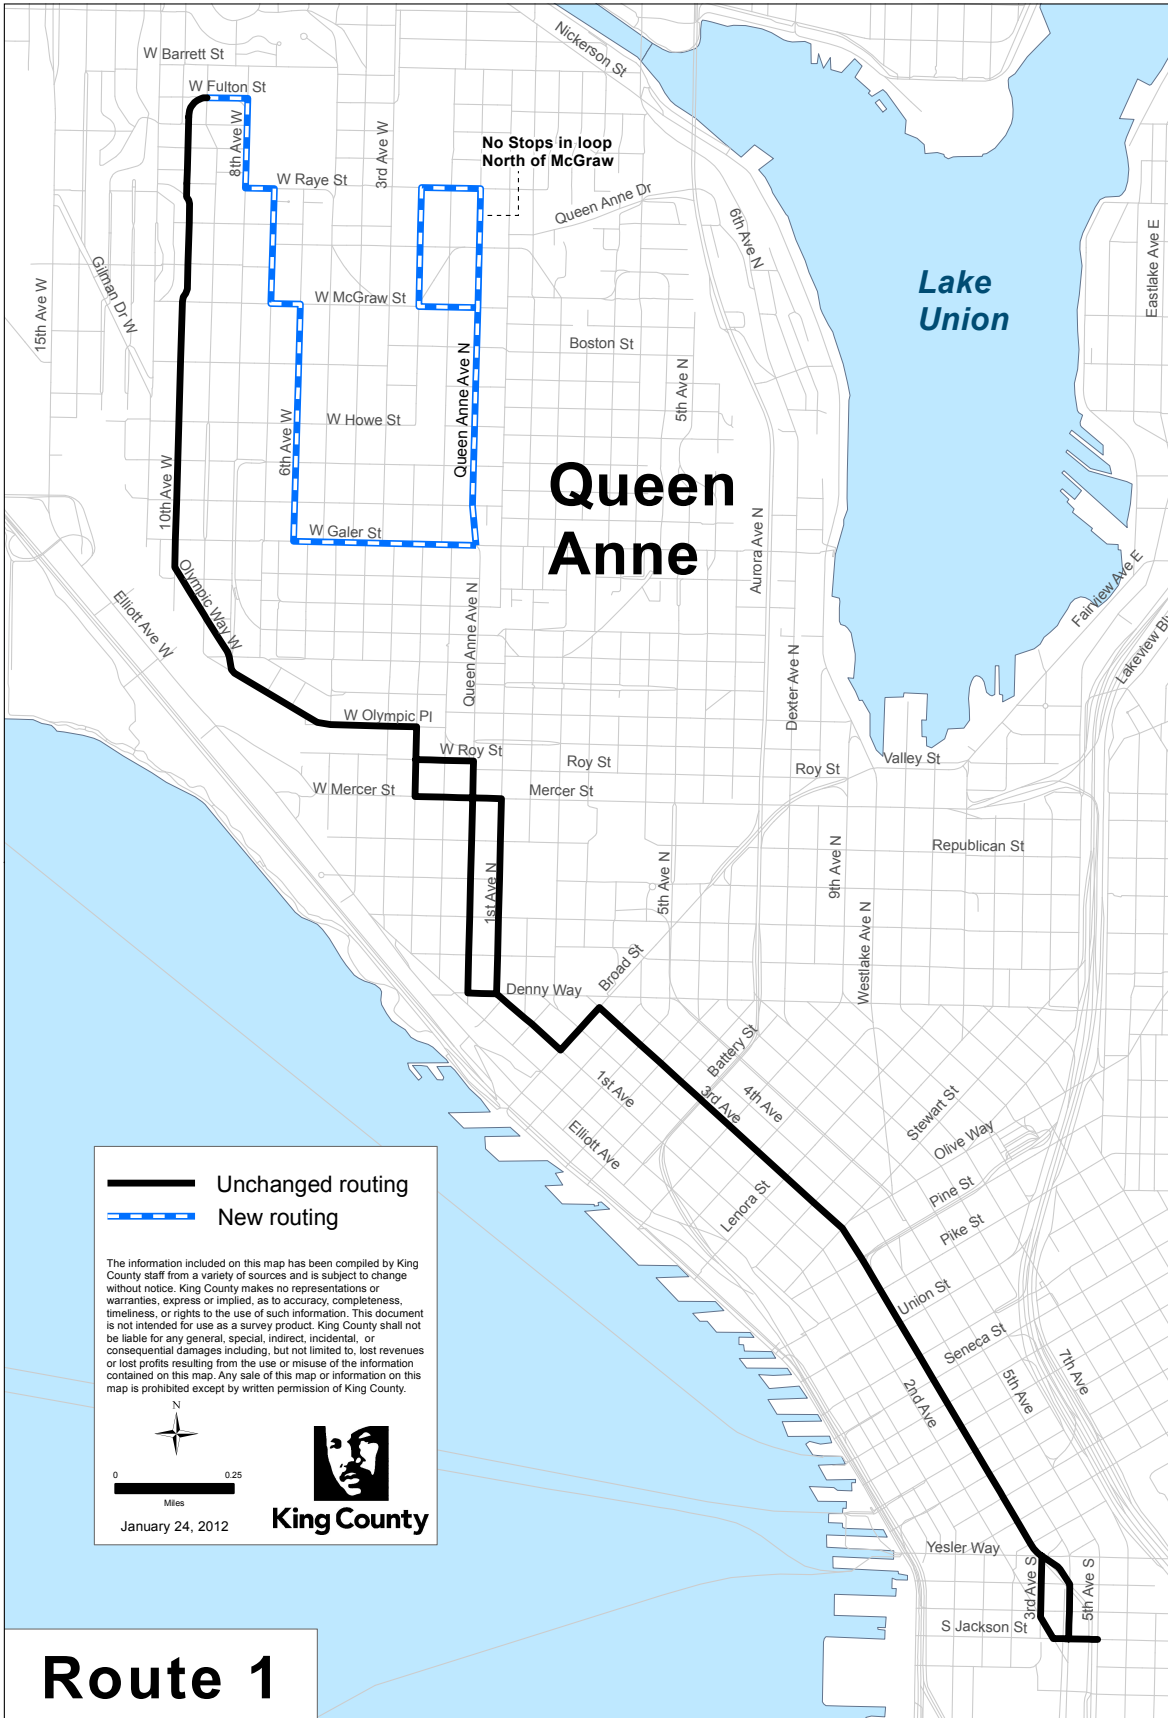

During public outreach in November 2011, Metro heard that service along 6th Avenue W and W Galer Street, currently provided by Route 2, is very important to riders during off-peak and night hours, and that steep grades or the distance to the alternative service we originally suggested would isolate many individuals with limited mobility.

#### Reason(s) based on Metro’s Service Guidelines

- **Network connection.** Linking Route 1 with the south part of Route 14 would provide a direct connection between Queen Anne and Mount Baker via the International District. Extending Route 1 to W McGraw Street would provide a direct connection between West Queen Anne and the business district along Queen Anne Avenue N.

#### Service frequency

Route	Estimated minutes between buses				
	Weekday			Saturday	Sunday
	Peak	Off-peak	Night		
1	15	30	30-60	30	30

# Route 1
