"Wish I was encouraged to do this fifteen years ago. Should be mandatory training."

Legal staff workshop participant

This workshop offers an inside view of the Clerk's Office, and also provides insight in Arbitration and Family Court Operations. You learn about how cases are processed cases through the court and how extensively technology is used by the court and litigants. You will also learn about how to use technology in conducting business with the Clerk's Office, and discover time and money saving tips. We hope you will share ideas for improving operations for the Clerk and the Court.

Hon. Patrick Oishi, Presiding Judge

The Clerk's Office always benefits from this workshop. Many good ideas come from the course, often leading to procedural changes that simply work better. Attorneys and legal staff get to interact directly with our staff. We hear directly from some of our most important customers. Many of our workshop graduates continue to let us know how we're doing. Such feedback keeps us focused on the type and quality of services we provide.
