

MIDD Oversight Committee Values & Guiding Principles Revised August 6, 2015

- Cultural competency lens with an Equity and Social Justice (ESJ) focus
- Client centered; developed with consumer input
- Ensure voices of youth and disenfranchised populations are represented
- Self sustaining; partnerships that leverage sustainability when possible
- Community driven, not county driven
- Transparent
- Recovery focused
- Driven by documented outcomes
- Based in promising or best practices; evidence-based when possible
- Common goal(s) across all organizations
- Strategies move us toward integration and are transformational
- MIDD funding leverages criminal justice (CJ) system (youth and adult) changes
- Supports King County's vision for health care; reflects the triple aim: improved patient care experience, improved population health, and reduced cost of health care
- More upstream / prevention services
- Coordinated services
- Community- based organizations on equal status with County for compensation
- Continue legacy of CJ/human services coming together
- Open to new ways of achieving results
- Build on strengths of the system
- Services are accessible to those with limited options

As included in the SIP.
