King County's project team invites you to a community meeting to provide important new information about the Fremont Siphon Replacement Project, currently in early design. King County plans to replace the Fremont Siphon with new pipelines located under the Lake Washington Ship Canal. At this meeting you will hear updates on:

- Potential construction areas and activities
- Proposed locations for new structures
- Next steps and opportunities to participate

Community questions, concerns, and feedback continue to be important to inform the project team's work during the design phase, so please join us.

For more information, visit

www.kingcounty.gov/environment/wtd/

For special accommodations, contact Monica Van der Vieren at 206-263-7301 or monica.vandervieren@kingcounty.gov.
