

# FREMONT SIPHON

replacement project

King County

Department of  
Natural Resources and Parks  
Wastewater Treatment Division

## Major construction activities complete – project art on the way!

King County is happy to announce that the Fremont Siphon Replacement Project contractor finished major construction activities on May 19 – right on schedule.

Completing the siphon is a major achievement for the community, King County and its contractor. The new pipes will safely transport sewage and stormwater from north Seattle and beyond to the County treatment plant in Magnolia for decades.

A big THANK YOU from King County to all of the project’s neighbors and trail users for their patience with the disruptions that come with living, passing by or working near a major construction project. Their willingness to help the County team and contractor problem solve constructively made the project safer and easier for everyone involved. King County also deeply appreciates all of the community members who offered their time and ideas to help make the new pipe and odor control facility a great addition to the neighborhood.

### Finishing touches

Before the project is a wrap, the County contractor will complete the following activities:

<b>Finish landscaping</b>	Plants found on the northwest coast will connect the site with the trail and park
<b>Install rain gardens</b>	Natural drainage will capture and filter the site’s stormwater
<b>Install art</b>	The project artist designed colorful windows showing how the facility helps protect public health and the environment
<b>Install interpretive signs</b>	Permanent signs to share the siphon’s significance and history, explain how the facility rain gardens work and provide more information about the art installation
<b>Did we miss anything?</b>	If you have an unaddressed issue with the project, please let us know! Call 206-477-5549 or email <a href="mailto:doug.marsano@kingcounty.gov">doug.marsano@kingcounty.gov</a>

### SAVE THE DATE!

Community celebration and ribbon cutting  
Sunday, June 18, 11:00 a.m. – 3:00 p.m.  
Fremont Siphon Odor Control Facility  
215 Northwest 36th Street

During the Fremont Fair, bring your friends and family by the north project site to:

- Take a tour of the building and rain gardens
- See and learn about project art
- Speak with project staff

**STAY SAFE!** Please remember this is still an active construction site. Be careful passing by!

The odor control facility is almost ready for the project art.
