

### ***Construction begins in September 2005***

To ensure safe and reliable operations and provide wastewater capacity for the future, the King County Wastewater Treatment Division is replacing the Juanita Bay Pump Station in Kirkland.

### ***What should you expect this fall?***

- Construction activity will generally take place weekdays between 7 a.m. and 5 p.m.
- Signs and flaggers will direct and control traffic safely through the work area.
- This fall, the contractor will:
  - Bring equipment and materials to the pump station site and staging area
  - Place rock and install a fence around the construction staging area in the park
  - Drill and install sound walls on two sides of the pump station site, close to condos and apartments
  - Install underground utilities (water and storm sewer pipes) under 93<sup>rd</sup> Avenue N.E.
  - Begin drilling secant piles for the pump station foundation

### ***What will be done to minimize community impacts?***

- The pump station site and construction staging area will be fenced.
- Sound walls will be built on two sides of the pump station site, near adjacent apartments and condos.
- Access to residences and Juanita Beach Park will be provided at all times.
- County staff will be available 24 hours a day to respond to questions and concerns.

### ***Where can you get more information?***
