**KING STREET  
ODOR CONTROL PROJECT**

**Spring 2008**

### **King Street Odor Control Project Update - April 7, 2008**

The contract for the King Street Odor Control Project began in late March. During April the contractor will be focused on making initial preparations for the project including:

- Obtaining the appropriate permits from the City of Seattle
- Surveying the construction area
- Sampling soils and locating utilities in and around the construction site
- Installing vibration and settlement monitors

Initial project staging will begin in late April. Construction will begin after the permitting process is complete.

King County is committed to being a good neighbor during construction. The project team will work with community members to minimize disruptions to the daily lives of those living and working near the project site. For more information please contact the project information line: 206-205-9305.

Please share this update with anyone you believe will be interested in learning more about the project.

Thank you for patience and accommodation during construction.
