

## King Street Odor Control Project Update - May 28, 2008

King County's contractor will fence off the construction zone between King Street Station - Amtrak and the Weller Street Bridge today, Wednesday, May 28. To protect public safety, pedestrian access to King Street Station through the construction zone is prohibited for the duration of the project.

Commuters and pedestrians on South King Street should use the pedestrian bypass through the northeast corner of North Qwest Field Parking Lot to the Weller Street Bridge and then take the bridge's elevator or stairs to board trains at King Street Station. The bypass will remain open throughout the project.

King County is committed to being a good neighbor during construction. The project team will work with community members to minimize disruptions to the daily lives of those living and working near the project site. For more information please contact the project information line: 206-205-9305 or visit the project web page: <http://dnr.metrokc.gov/wtd/projects/OdorControl/KingSt>.

Please share this update with anyone you believe will be interested in learning more about the project.

Thank you for your patience and accommodation during construction.
