

December 8, 2014

Overnight sewer pipe activities on 23rd Avenue W for two nights between December 12-17

This week King County's contractor is continuing to work on both 23rd Avenue West and 32nd Avenue West to install a new gravity sewer pipeline. The sewer line is one part of a new combined sewer overflow (CSO) control facility in Magnolia that will reduce overflows of stormwater and sewage to Puget Sound during rain storms we are currently experiencing.

During the week of December 8, the contractor will continue final preparations for insertion of the pipeline into the drilled borehole. While the pipe to be pulled back is currently laying along 32nd Avenue it will be pulled back through the borehole by equipment on the 23rd Avenue West site. The pipeline must be pulled through in one continuous effort that is expected to last for two days.

Pipe pullback is currently scheduled for Friday, December 12th and Saturday, December 13th, with completion of work on Sunday, December 14th. This schedule may change, and could occur later in this period, but the pullback period will

For questions or concerns, or to report a problem, contact our 24-hour construction hotline at 206-205-0968 and leave a message.

Leave your contact information if you would like a return call or email.
