

MAGNOLIA CONVEYANCE PROJECT

 **King County**
Department of
Natural Resources and Parks
Wastewater Treatment Division

February 9, 2018

King County's contractor continues work on 32nd Avenue West and in Smith Cove Park to prepare for pipe installation. Crews have now installed shoring boxes at both sites. Shoring helps to provide support to the surrounding area while the contractor accesses the pipe.

More information on [our online open house](#).

Typical construction hours:

- Weekday construction hours from 7 a.m. to 6:30 p.m.
- Saturday construction hours from 9 a.m. to 6:30 p.m.

Crews may work on Saturdays during approved construction hours. Crews may also work extended hours to secure excavated pits.

Construction activities on 32nd Avenue West

This week, crews will begin jackhammering as they prepare to access the diversion structure, just south of the West Howe Street Bridge. This work is scheduled to take place during regular work hours and will continue intermittently until crews access the structure. Residents on 32nd Ave. W. can expect the following:

- King County's contractors are recycling and reusing materials such as concrete and plants where feasible.
- Street reduced to one lane traffic near the construction area
- Flaggers and signs to direct traffic and pedestrians around the work zone
- Construction equipment located on the east side of the street, including a vactor truck, excavators, and a jackhammer
- Increased noise typical of a construction site during typical construction hours

Flaggers and signs are present onsite to direct traffic and pedestrians around the construction area. Please use caution when travelling on 32nd Ave. W.

Construction activities in Smith Cove Park

Crews will continue to prepare for pipe installation. People visiting the park can expect:

- Crews accessing the existing pipe via the exit pit at the Smith Cove Park site
- Construction equipment located onsite, including a large drill rig near the entrance of the existing pipe
- Increased noise and vibration in the work area
- Flaggers and signs to direct traffic and pedestrians around the work zone, as necessary
- The northern athletic field will remain open for use

The schedule and duration for construction is tentative and is subject to change as work progresses. We will continue to provide email notices with updates on timing of specific construction activities.

King County will work with the community every step of the way. Find information, get your questions answered, and contact us:

- **Briefings and site visits:** We will be working with community groups and neighbors to schedule briefings and site visits. If you would like us to attend your community group meeting or a neighborhood meeting, please feel free to [email us](#).
- **Email updates:** We will continue to keep you informed through these email updates about what you can expect during construction
- **Online open house:** The [online open house](#) will be open for you to visit through the spring and will be updated, as needed, to provide an overview of expected construction activities. Please share the online open house with your neighbors who may not be on our email list.
- **Website:** We will keep the [project web page](#) updated with the most up-to-date information on construction as it becomes available
- **Hotline:** We have a 24-hour construction hotline (206-205-5969). You may call with questions and concerns. Please leave a message with your contact number and King County's team will get back to you.
- **Contact us:** Email Monica Van der Vieren (monica.vandervieren@kingcounty.gov) with your questions
