

MAGNOLIA CONVEYANCE PROJECT

 **King County**
Department of
Natural Resources and Parks
Wastewater Treatment Division

February 27, 2018

Update: Important project updates on our Online Open House

King County's Magnolia team has important construction updates to share with our project neighbors and the Magnolia community. The City is issuing the permit for staging for pipeline assembly and installation in a location that will maintain access for almost all residents on 32nd Avenue West throughout the project, and reduce the time required to install the pipe.

The current staging plan requires closure of 32nd Avenue West between Clise Place West and 33rd Avenue West. This closure is expected to begin on Thursday, March 1 and last up to five weeks. The contractor will deliver and assemble pipe sections in this area. To reduce impacts to residents on 32 Avenue West, the pipe sections will be stored at the Port of Seattle before assembly.

During the pipe bursting and pull process, which is expected to last approximately three days in mid-April, only a few residents will have access limitations. The project team will work closely with these residents to meet their needs during this time.

In December 2017, we launched an interactive [online open house](#) to share construction and schedule information with the community. **With crews beginning to fuse the pipe in early March, we encourage you to view our updated online open house.** You'll learn more about:

- Construction method
- Construction activities and schedule
- Short-term road closure on 32nd Avenue West
- Temporary parking removal on Clise Place West

CHECK OUT OUR ONLINE OPEN HOUSE!

Visit <http://magnoliapipe.participate.online> using your computer or mobile device.

After you have reviewed the open house, you can submit additional thoughts and questions to the project team on the final station labeled "[For more info.](#)"

Please continue to share this information with your neighbors, and encourage them to visit. The online open house will remain open for you to visit through the spring and will continue to be updated, if needed.

The schedule and duration for construction is tentative and is subject to change as work progresses. We will continue to provide email notices with updates on timing of specific construction activities.

King County will work with the community every step of the way. Find information, get your questions answered, and contact us:

- **Briefings and site visits:** We will be working with community groups and neighbors to schedule briefings and site visits. If you would like us to attend your community group meeting or a neighborhood meeting, please feel free to [email us](#).
- **Email updates:** We will continue to keep you informed through these email updates about what you can expect during construction.
- **Online open house:** The [online open house](#) will be open for you to visit through the spring and will be updated, as needed, to provide an overview of expected construction activities. Please share the online open house with your neighbors who may not be on our email list.
- **Website:** We will keep the [project web page](#) updated with the most up-to-date information on construction as it becomes available.
- **Hotline:** We have a 24-hour construction hotline (206-205-5969). You may call with questions and concerns. Please leave a message with your contact number and King County's team will get back to you.
- **Contact us:** Email Monica Van der Vieren (monica.vandervieren@kingcounty.gov) with your questions.
