

## Sewer Pipeline Work in Pacific, Algona & Auburn

Phase B of the Kent-Auburn Conveyance System Improvements Project

**Construction Update – July 20, 2018**

### ***Upcoming grading on Seattle Boulevard South; expect temporary driveway blockages – paving to take place in August***

Following successful sewer pipe installation, crews are now restoring roads to pre-construction conditions. Over the past couple weeks, crews have been grinding and regrading Seattle Boulevard South in preparation for paving, which is planned to take place in early-to-mid August.

Crews will continue regrading the road through early August.

This work is weather-dependent and the schedule is subject to change. **For the most updated information, please sign up for email updates at [www.kingcounty.gov/kent-auburn-csi](http://www.kingcounty.gov/kent-auburn-csi).**

#### **What to expect during grading work:**

- Work hours: weekdays from 7:30 a.m. to 6 p.m.
- Grinding the road will leave a temporary 2-inch drop between driveways/curb cuts and the road surface – please use caution entering and exiting driveways
- During grading, individual driveways may be blocked for 10-15 minutes
- Pedestrian access to homes and businesses will be maintained; please speak with a crew member if you need immediate assistance while crews are working in front of your residence or business
- Work will be done one block at a time, with local access only on these blocks during the work (flaggers and signs will direct drivers through the work area)
- Restricted parking; please look out for no parking signs in the work areas
- Noise, dust, odors, and vibration typical of a construction site
- Access maintained for emergency services, mail delivery, and waste pickup
