

NORTH MERCER ISLAND/ENATAI Sewer Upgrade Project

North Mercer Island/Enatai Sewer Upgrade Project Technical Session

Monday, April 24, 6-8 p.m.
Bellevue High School
10416 SE Wolverine Way, Bellevue, 98004

Overview

To construct the North Mercer Island and Enatai Sewer Upgrade Project, King County Wastewater Treatment Division (WTD) will install the Bellevue portion of a new wastewater pipeline using Horizontal Directional Drilling (HDD) and rehabilitate a portion of the existing pipeline using cured-in-place pipe (CIPP) rehabilitation. WTD will use the CIPP rehabilitation method in the water from Enatai Beach Park to the Sweyolocken Pump Station. Below the Enatai Hillside, WTD will use the HDD trenchless construction method.

Meeting Purpose

- Provide technical information on HDD and CIPP construction methods
- Answer questions about property rights and easement needs
- Hear about community perspectives, concerns and questions

Meeting Agenda

6:00 – 6:30 Arrive and opportunity to speak one on one with project team

6:30 -7:00 Presentation: overview of HDD and CIPP construction methods and associated property needs

7:00 – 7:45 Discussion

7:45-8:00 Next steps and adjourn

Thank you for joining us this evening. A meeting summary will be posted to the project website (www.kingcounty.gov/.mercerenataisewer) when it is complete. Should you have any questions after the meeting, please contact Kristine Cramer at 206-477-5415 or kristine.cramer@kingcounty.gov.

ALTERNATIVE FORMATS AVAILABLE

206-477-5371/ 711 (TTY Relay)
