

# Road Closure on West Lake Sammamish Parkway for Emergency Storm Pipe Repair Work

**DETOUR IN EFFECT JANUARY 27-31.**

**PLEASE PLAN AHEAD AND EXPECT DELAYS.**

Starting Jan. 27 possibly extending to Jan. 31, a section of West Lake Sammamish Parkway, between Northup Way and SE 26th St., will be closed to through traffic between 6 a.m. and 5 p.m.

During the closure, the City of Bellevue Utilities department is conducting emergency work to replace a failed stormwater pipe at 2442 West Lake Sammamish Parkway SE. The urgent need for the work was discovered during last month's heavy rains.

The road closure is necessary to ensure safe access to multiple utilities, and to accommodate the large equipment and materials needed to excavate and restore the site. Closing the road also maintains a safe environment for workers and residents, and allows crews to complete the work quickly, reducing long-term road disruptions.

Local access will be maintained for residents and businesses only. Access restrictions will be strongly enforced. Flaggers will maintain access for bicycles, pedestrians and emergency services. To limit local neighborhood disruption, through traffic will be primarily detoured to 148th Ave NE, as shown on the map at left.
