## **Construction update:**

### **Intersection work at 208th Street SE and 14th Drive SE**

King County is nearing completion of the North Creek Interceptor, a major sewer line serving portions of Bothell, Mill Creek, and unincorporated Snohomish County. Improvements will provide added capacity and ensure reliable operations for the future.

**Beginning Wednesday, June 13th, King County's contractor will work in the intersection at 208th Street SE and 14th Drive SE in Bothell to prepare the road for final paving.**

**Traffic will be reduced to one lane. Flaggers will direct cars to pass in both directions. At times, motorists may experience short delays.** Work is expected to take up to five days to complete.

Final paving at 208th St. SE and along 14th Dr. SE will follow in July.

#### **What to expect during this work:**

- Work hours will be 9:00 a.m. to 3:00 p.m. weekdays.
- Flaggers and signs will direct motorists, pedestrians, and bicyclists.
- At times large equipment will be maneuvering in the road.
- If needed, alternate pedestrian access will be provided on 14th Dr. SE.
