

June 25, 2018

Paving update for:
214th Street SE (west of SR-527); 14th Drive SE in Bothell; and along 223rd Street (between 23rd and 29th Drives SE) in the Canyon Park Business Center

Today, Monday, June 25, King County's contractor will be grinding existing paving, in preparation for final asphalt paving at these three locations (see maps on back):

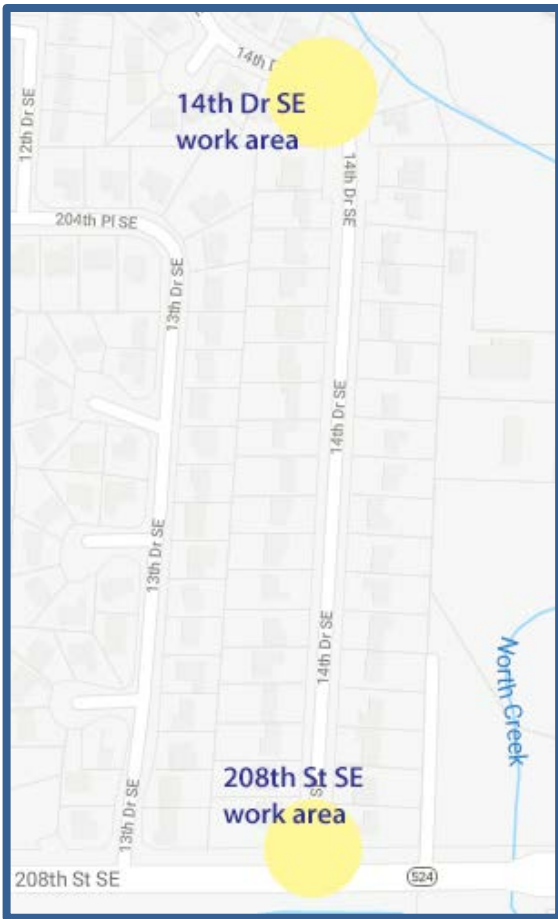

Because of rain, the final paving was delayed, and is now scheduled to begin Tuesday, June 26. It is scheduled to be finished within 1-2 days.

What to expect during this work:

- Traffic will be reduced to one lane during paving. At times, motorists may experience short delays.
- No Parking signs will be post along the streets where paving will take place. Cars cannot be parked in the street near areas of paving.
- Along 14th Drive SE, to keep vehicles from being blocked in, vehicles will need to be moved out of driveways by 7:00 a.m. if they are needed during paving.
- Crews, trucks and large equipment will be working in the street.
- Traffic will be directed around the work site. Please drive slowly and obey signs and flaggers!
- You may want to consider alternate routes if available.

For more information:

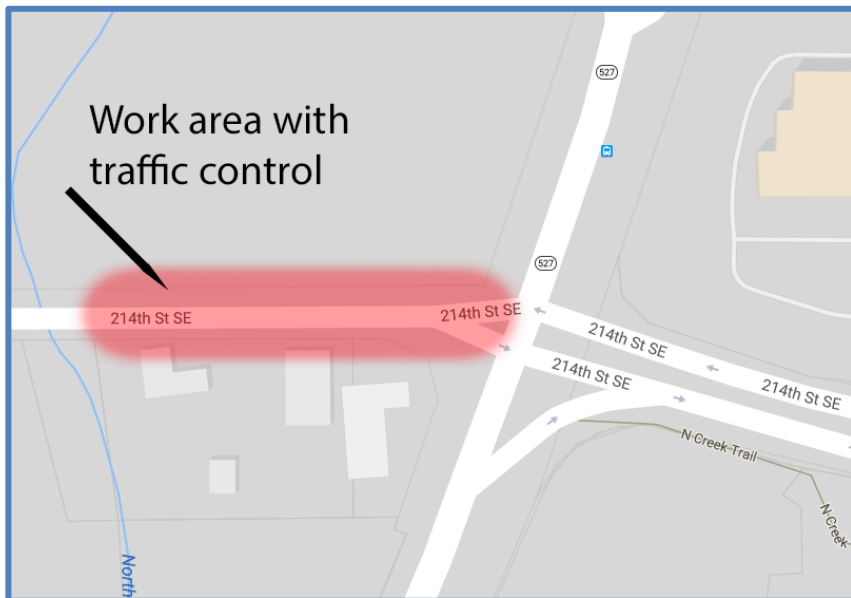

- Project updates (and to sign up for email updates in your area), notices of upcoming activities and more details about the project can be found at www.kingcounty.gov/NCI
