

Maxay u dhacaan CSOyo?

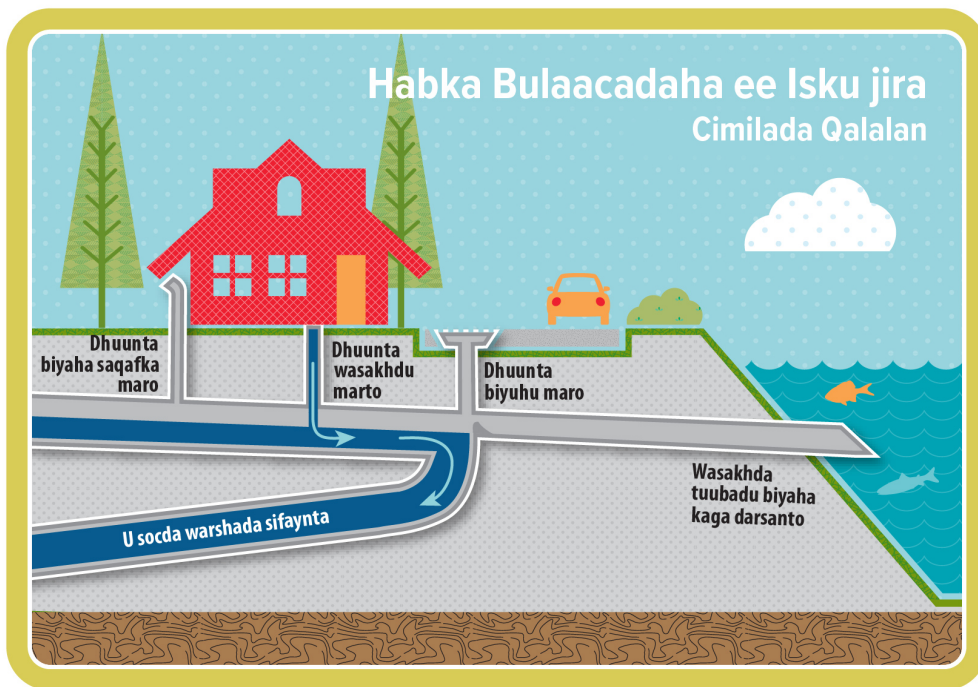

Xalalka taariikhda ahi waxa ay abuuraan mushkilado casri ah.

Qaybta qadiimiga ah ee nidaamka biyaha wasakhda ah ee Degmada King , meelaha kala fududaynta loo yaqaan "socodka bulaacada la isku daray," ama CSOyo, ayaa lagu dhax sameeyaa beebabka. CSOyo waxay ku dartaa biyo wasakh ah meelaha ay maraan biyaha deegaanku marka biyaha daadka roobka ee badani ay buuxiyaan beebabka. Tani waxay kusii daysaa kahortaga kaydka bulaacada guryaha iyo dawooyinka.

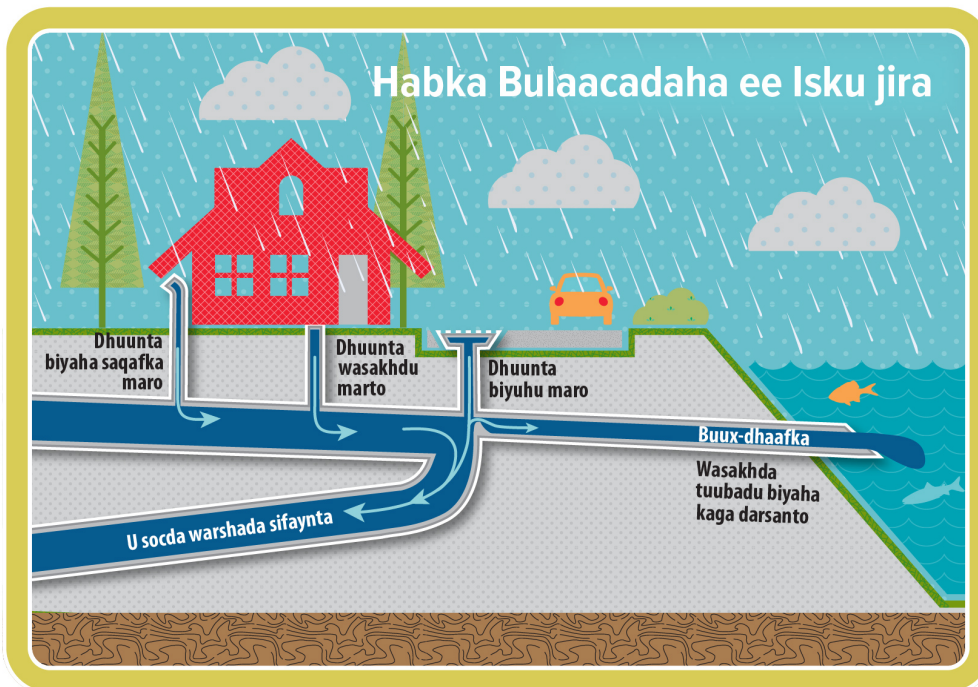

Wakhti xaadirkaas macquul ayaa loo arkayay...

Laga bilaabo dhamaadkii 1800yaadkii ilaa 1940yaadkii, injineeradu waxay sameeyeen bulaacado qaadaya biyaha bulaacada iyo daadka roobka oo markaa ku daraya biyaha ugu dhaw. Wakhtigaas, cida qorshaynaysay waxay aaminsanayd in biyahaa wasakhda ah ee biyaha la raaciyay inayna waxba yeelaynin biyaha fadhiya. Nidaamku waxa uu qaadi jiray saxarada fardaha iyo qashinka wadooyinka yaala iyo saxarada bilaa aadanka.

Markii danbe, injineeradu waxay sameeyeen warshado sufeeya biyaha kahor inta aad deegaanka loosii daynin. Waxayna dhiseen beebab waawayn, oo loo yaqaan "isku darka bulaacada," si ay dhamaan biyaha u geeyaan warshada sufaysa biyaha wasakhda ah.

Marka uu da'o roob culusi oo uu buuxiyo "bulaacada la isku daray," meelo lagaga fududeeyo (beebab kale) ayaa biyaha dheeraadka ah ee bulaacada iyo daadka roobka ku dara wabiyaasha, harooyinka, ama Puget Sound.

Maanta, magoolooyinka Degmada King waxay samaysay beebab gaar ah; mid waxa uu geeyaa bulaacada warshada sufaysa oo ka kalena waxa uu biyaha roobka ku daraa biyaha deegaanka ee dhaw. Laakiin, waxaa weli jira bulaacado la isku daro xaafadaha qadiimiga ah ee Seattle.
