

King County

Department of Local Services
Road Services Division

In limited circumstances, King County utilizes herbicides to discourage the undesirable growth of brush within the County's road right of way in conformance with the County's Herbicide Vegetation Control Program.

I, _____, request the County **TO NOT** spray herbicides on the roadway right of way, immediately adjacent to my property.

- (1) The King County Noxious Weed Control Program requires the control of tansy ragwort and other noxious weeds. Any noxious weeds within the road right of way will be spot sprayed by county employees.
- (2) This request is valid only for the calendar year 2020. If you wish the County **TO NOT** utilize herbicides on the County roadway shoulder adjacent to the location indicated below in subsequent years, you must submit a Vegetation Control Program request form to King County each year.
