

## 2019-2020 Permit Fees Notice of Changes

Most permit-related fees charged by the King County Department of Local Services, Permitting Division will increase 4.5% effective January 1, 2019. Some fees will increase by less than 4.5%, so please consult the 2019-2020 fee guides published on the agency website and in the lobby of the agency for precise fee information.

Fee changes were approved by the Metropolitan King County Council on November 13, 2018, per ordinance 18822, to defray the costs of local price inflation over the next two years. The newly-adopted fees will be valid for two-years, until December 31, 2020.

School Impact Fees have also been amended effective January 1, 2019, per ordinance 18834. See Fee Guide 03 for updated fee amounts.
