

Route 161

NEW

Proposed: Kent Station - Sea-Tac Airport - Burien Transit Center

New Route 161 will replace the northern portion of Route 180 between Kent Station, Sea Tac, and Burien. The route pathway has been changed to provide better east-west connections and all-day access to the Kent Industrial Valley via S 212th St.

Route 161 will also be through-routed with Route 168 for a new one-seat ride connection between Burien, SeaTac, Kent, Covington, and Maple Valley.

Rider options

Route 180 riders along 64th Ave S between S 228th St and W James St will be served by a revised Route 150.

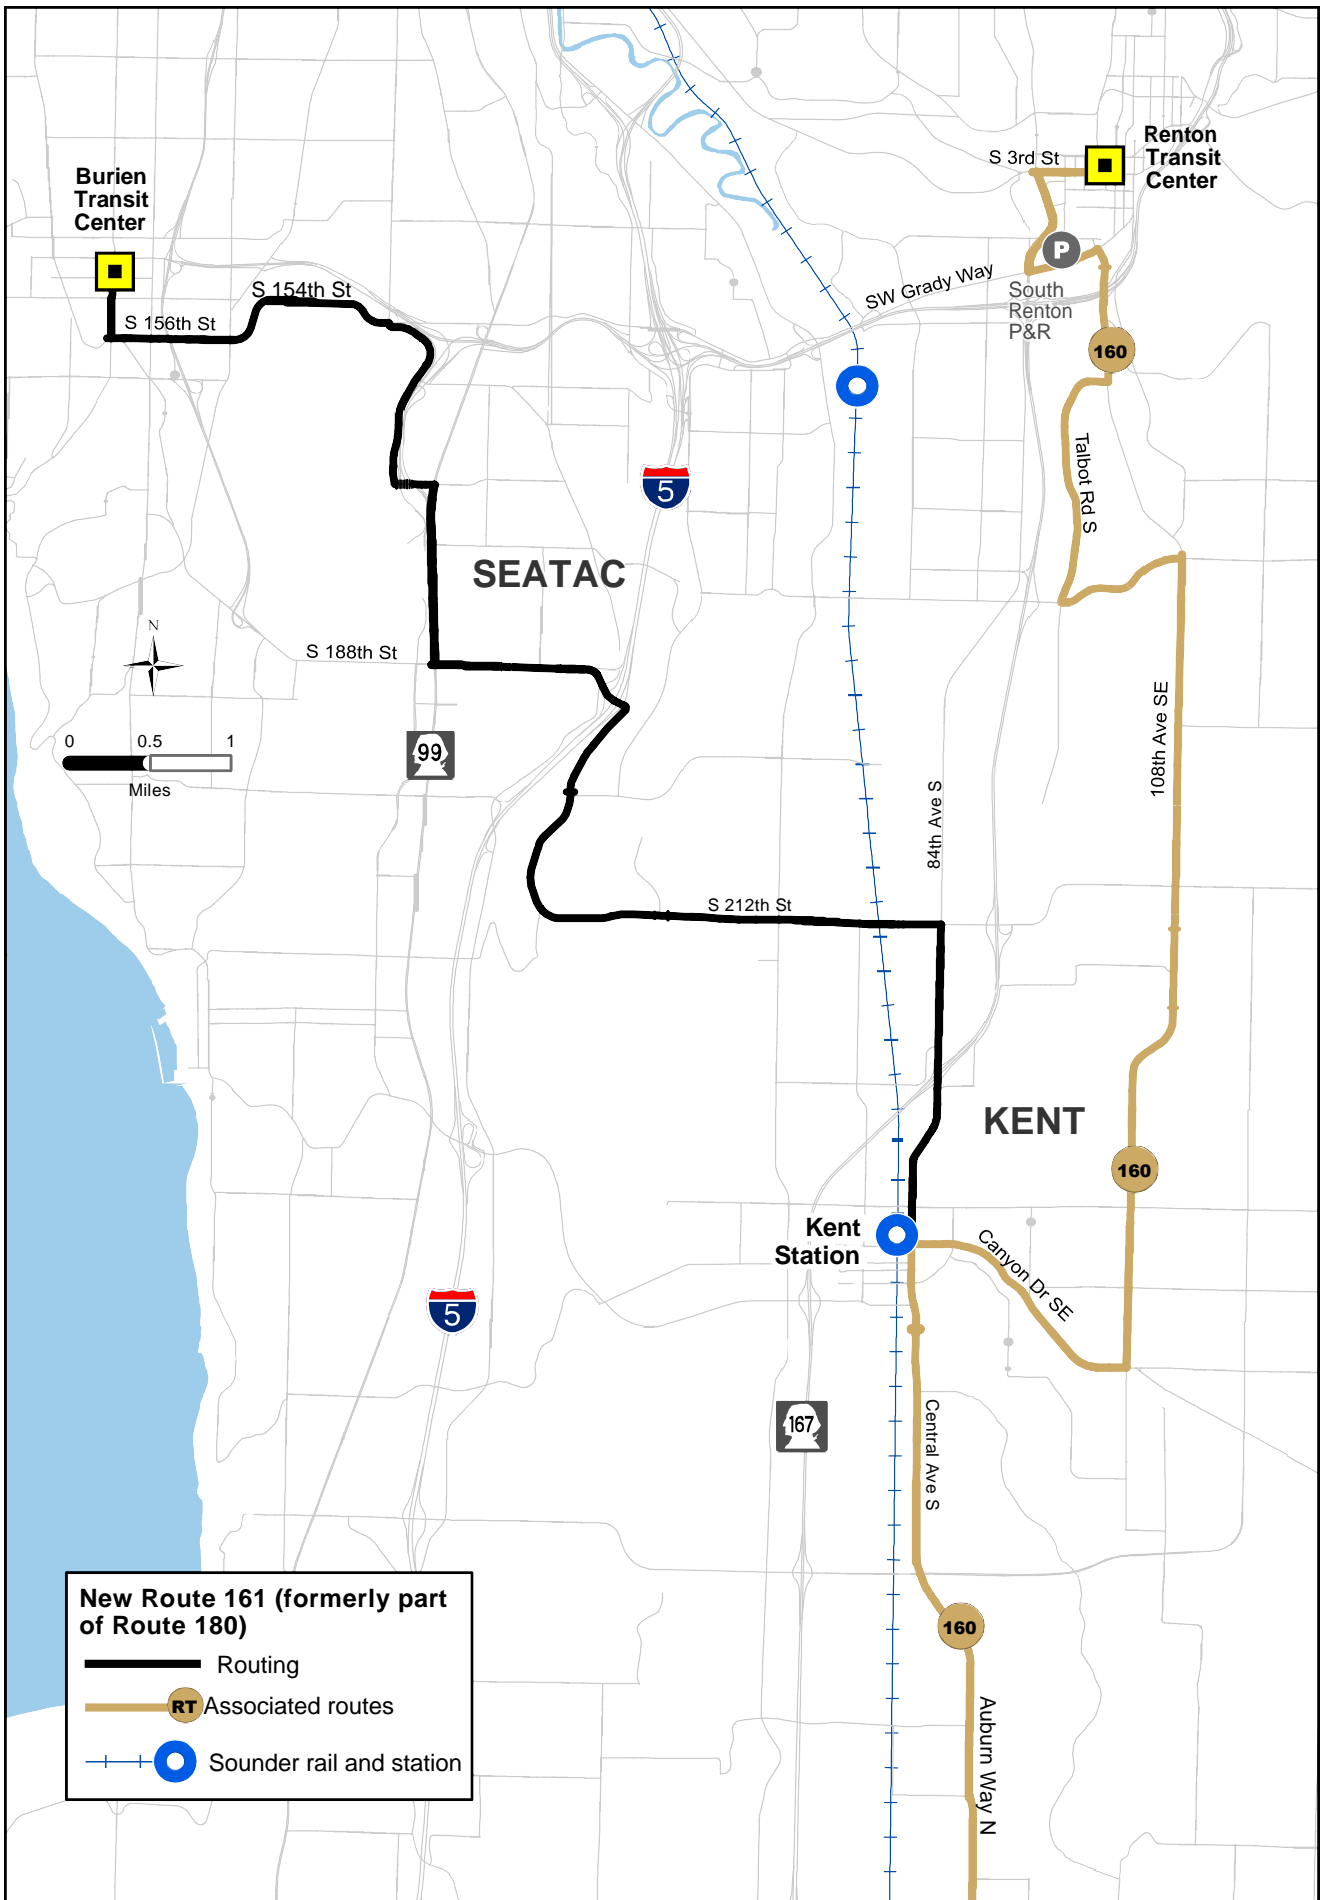

Changes are shown in bold red type.
