

Portfolio Breakdown

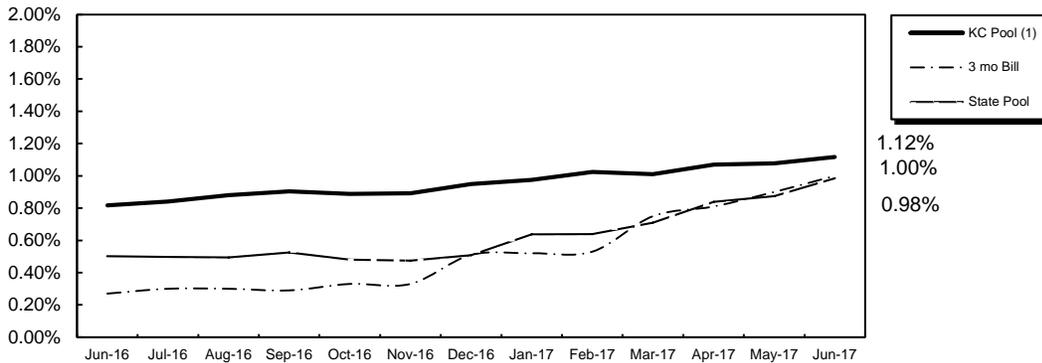

The following is a breakdown of the Investment Pool holdings for June 2017

	Average (\$000)	% of Portfolio
U.S. Agency Securities	2,086,281	30.4%
Commercial Paper	265,671	3.9%
Taxable Municipal Securities	-	0.0%
Bankers Acceptances	-	0.0%
Corporate Notes	1,072,425	15.6%
U.S. Agency Mortgage-backed Securities	5,232	0.1%
Repurchase Agreements (Repos)	106,633	1.6%
Treasury Securities	2,564,302	37.3%
Certificates of Deposit & Overnight Deposits	-	0.0%
Local Government Investment Pool (LGIP)	773,285	11.2%
Reverse Repurchase Agreements	-	0.0%
Total	\$6,873,829	100%

*Average Pool Effective Duration: 1.06 Years

*Duration is a better measure of interest rate sensitivity than average portfolio maturity.

Investment Pool Performance (before Pool fees)

(1) King County pool distribution rate has not been adjusted for realized losses (or recoveries) from impaired commercial paper investments.

Pool Net Asset Fair Value on June 30, 2017

Net Assets ⁽²⁾	\$6,802,965,774.38
Net Assets Consist of:	
Participant units outstanding (\$1.00 par)	\$6,817,659,767.50
Undistributed and unrealized gains(losses)	(\$14,693,993.12)
Net Assets	\$6,802,965,774.38
Net asset value at fair value price per share ($\$6,802,965,774.38$ divided by $\$6,817,659,767.50$ units)	\$0.9978

(2) Excludes impaired assets that have been separated into a separate pool.

Investment Pool Comments:

Asset Allocation: The pool held 68% of its assets in highly-rated U.S. government securities during June. The pool's holdings of commercial paper and its balance at the LGIP decreased the most during June, while its holdings of all other security types experienced only a slight decline.

Pool Asset Size & Return: The pool's balance ended June at \$6.8 billion, which was down by about \$400 million from May. The decrease was mainly the result of the large debt service payments that were due on June 1, while the rest of the decline was attributed to normal outflows for property tax distributions, payrolls, etc. The pool's distribution rate improved in June by 4 basis point, which brought the rate up to 1.12%.

Market Value & Duration: The pool's unrealized loss rose by \$5.2 million between May and June. This was caused by interest rates moving up from 4 basis points in the short portion of the yield curve and by nearly a 13 basis points increase in the 5-year area. The Fed did raise rates by 25 basis points at its June 14 meeting, and interest rates rose before the meeting in anticipation of the Fed's action. Finally, the pool's duration was 1.06 years at the end of June, which was identical to number reported for May.

We remain committed to sharing information with pool members, so if you have any questions, email us at investment.pool@kingcounty.gov.

**Impaired Pool Holdings Report
6/30/2017**

Commercial Paper Issuer	Status	Current Book Value	Estimated Fair Value	Fair Value Adjustment
Cheyne Finance (1)	Restructured	787,502.14	507,750.00	279,752.14
Rhinebridge (1)	Restructured	84,407.60	84,407.60	-
VFNC Trust/Victoria Finance (2)	Restructured	7,701,242.74	5,000,509.00	2,700,733.74
Total		8,573,152.48	5,592,666.60	2,980,485.88

Fair Value Ratio	0.6523
------------------	--------

(1) These amounts are related to cash that was retained for DTC indemnifications and other reserves. It could be sometime in 2017 before these "tail" amounts are returned to investors, and it is possible that the amount recovered may be less than the estimate.

(2) Victoria Finance's restructuring was completed during September 2009. The name of the restructured entity is VFNC Trust, and the new entity will continue to make monthly principal and interest payments. The *Estimated Fair Value* amount is based on market prices of the underlying securities that are held by VFNC Trust. These prices are provided by the Collateral Agent and the County expects to recover more than this estimated price by receiving regular monthly payments over the coming years.

Impaired Pool Comments:

The majority of the amount remaining in the impaired pool is associated with VFNC Trust (Victoria). VFNC Trust continues to make monthly cash distributions. The monthly distribution for June totaled \$63,787.31. Including all receipts to date, brings the cash recovery rate on the original Victoria investment to 85%. Monthly distributions will continue for as long as the underlying securities in the trust continue to pay, and we expect the monthly distributions to continue for at least 5 years.

We do not foresee distributing any realized losses until it is apparent that no further cash flows will be forthcoming. The market for this type of asset is illiquid and accurate pricing is difficult to obtain. Adding the cash recoveries through June to the last estimated price (53.9) for the VFNC Trust security results in an estimated recovery rate to senior investors of about 95%, but the actual recovery rate will depend on the size and duration of the future monthly cash distributions from VFNC Trust. At the time of Victoria's restructuring the County's financial advisory estimated that by participating in the exchange offer that the overall recovery rate could be between 50 to 76 percent, and potentially higher.

The County settled all lawsuits involving the securities held in the impaired pool, and all the parties involved in these lawsuits have reached a mutually acceptable resolution by way of a negotiated settlement that will avoid protracted litigation, there was no admission of liability, and all sides are satisfied with this resolution

The King County Executive Finance Committee approved bifurcation of the investment pool as of September 1, 2008. This separated the impaired investments into their own pool distinct pool from the main pool of performing investments. The reasons for bifurcating the pool were to: (1) ensure the yield on the performing assets is not negatively impacted by the impaired investments; (2) enhance transparency about the value of the performing pool and the impaired pool; (3) ease the implementation of the restructuring processes for the impaired investments; and (4) expedite the restoration of the Standard & Poor's rating for the performing pool.

Within the impaired pool, future "tail" payments from Cheyne and Rhinebridge are still possible. We expect Rhinebridge to make one final small payment in 2017, and it is likely that Cheyne will also make at least one distribution in 2017. When we determine that no further payments are probable from these impaired securities, any remaining unrealized losses will be distributed.
