# KING COUNTY WASTEWATER TREATMENT DIVISION 2017 Sewer Rate Overview

Metropolitan Water Pollution Abatement Advisory Committee April 27, 2016

#### **PRESENTER**

#### **TODAY'S AGENDA**

Tim Aratani, Finance Manager King County Wastewater Treatment Division

## Overview of the Executive's 2016 Rate and Capacity Charge Proposal

- Elements of the 2017 Rate Proposal
- Debt Management
- Capacity Charge
- Summary of Proposal

King County's Wastewater Treatment Division has been committed to protecting and improving water quality for more than 50 years.

## What the sewer rate pays for:

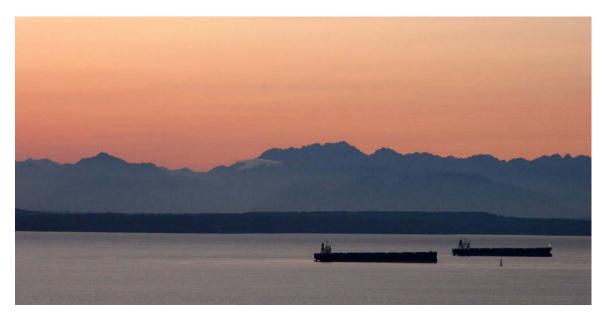

**Protecting Water Quality -** maintaining and improving regional water quality in compliance with federal, state, and local regulations;

**Producing Capacity -** providing sufficient system capacity to support economic growth;

**Reliability** - ensuring continued reliability of our wastewater conveyance and treatment assets; and

Sustainability - creating renewable resources from wastewater.

**Reducing Debt** – increasing the amount of cash-paid capital.

### Summary of the Executive's 2017-2018 Rate Proposal

### Monthly Sewer Rate increase from \$42.03 to \$44.22

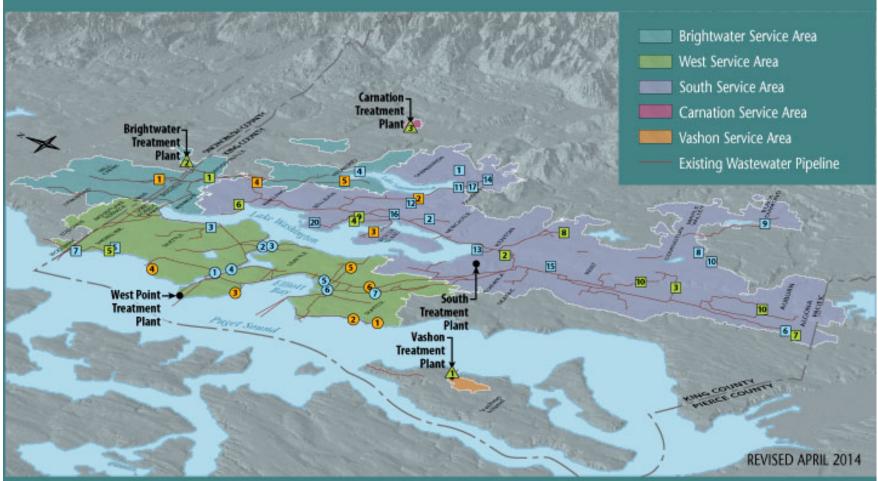

- In effect for 2017 and 2018
- Lowest rate increase since 2001
- Reduces future debt
- Maintains excellent bond ratings
- An increase of 5.2% from 2016 rate of 42.03, 2.6% average annual increase

### Capacity Charge of \$60.80 per month

- Paid by new connections to the system
- 3.6 percent increase 2016 to 2017
- \$8,974 with early payment discount of 2.8 percent, \$10,944 if paid quarterly for 15 years

## **System Investments Map**

### Regional Wastewater Services Plan Projects and Service Areas (1999-2030)

#### RWSP Recommended Conveyance Projects

- Completed
- In Design or Construction
- Future (2012 2030)\*

#### Protecting Our Waters Program Projects

- In Design or Construction
- Future (2015 2030)

#### Treatment Plant Projects

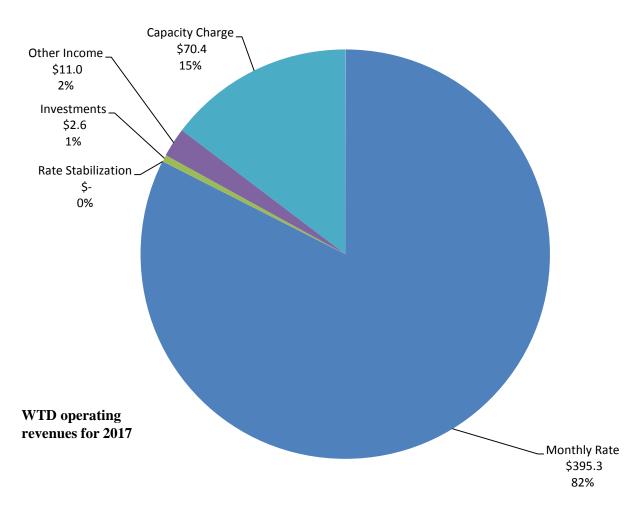

▲ Completed

2014 findings indicate there will not be treatment plant capacity needs through 2030.

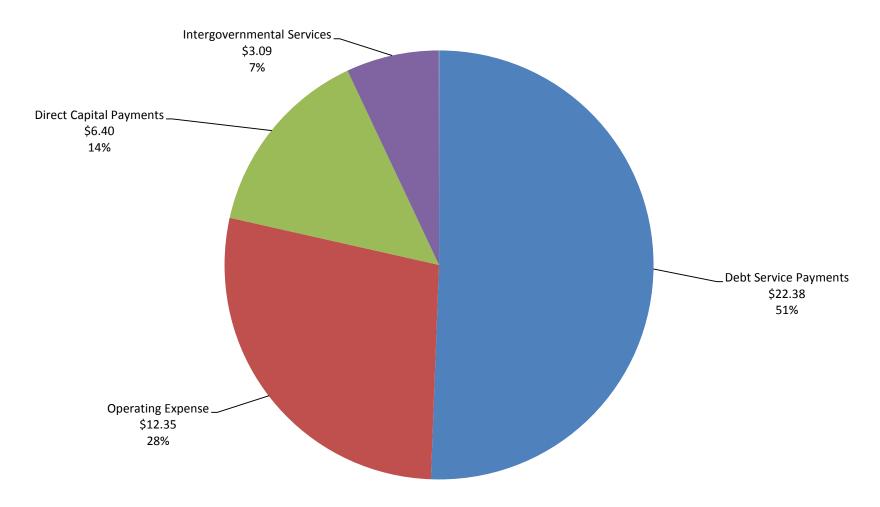

## Sewer Rate Generates Most of the Utility's Revenue

Monthly Sewer Rate and Capacity Charge yield \$479.3m or 97% of Operating Revenue (millions of \$)

## The Major Uses of Sewer Rate Revenues

#### Components of the 2017 Sewer Rate of \$44.22

<sup>\*</sup> Intergovernmental services includes activities such as local hazardous-waste fees, insurance, information technology, and environmental lab services.

## **Operating Expenses: 2017-18 Summary**

2017 operating expenses are projected to increase 4.2 percent to \$147.4 million

- Projected increases due to general inflation
- External painting of South Treatment Plant
- Fuel reduction efforts highlighted in Strategic Climate Action Plan

2018 operating expenses are projected to increase 3.3 percent to \$152.3 million

- Projected additional increases due to general inflation
- Projected increases in electricity and chemical costs

## **Capital Program**

- Allocates limited funds among multiple priorities, including Combined Sewer Overflow (CSO) control, Conveyance System Improvement projects (CSI) to meet capacity demands and asset management to maintain facilities and infrastructure.
- Incorporate King County's Strategic Climate Action Plan (SCAP)
- 2015 Capital spending was \$152.8 million, -6% below predicted.
- Planned spending of \$175.9 million in 2016
  - \$162.8 million in 2017

## **Capital Program**

- CSO Beach Projects at Murray, Magnolia, Barton and North Beach -substantial completion expected by year end 2016
- Michigan-Brandon CSO (Georgetown Station) underway. Completion is scheduled for 2022
- CSO Control at Hanford at Rainier and Bayview North scheduled for substantial completion in 2017
- WPTP OGADS (oxygen generation and dissolution system)
  Replacement: the existing system is early generation equipment,
  energy intensive and expensive to operate and maintain. Substantial
  completion is schedule for completion at the end of 2019.
- Joint cost share agreement with Seattle Public Utilities (SPU) in which two WTD CSO sites (3<sup>rd</sup> Ave W and 11<sup>th</sup> NW) are addressed with several SPU sites along the north side of the Ship Canal in Ballard.
- Lake Hills and NW Lake Sammamish Interceptor Upgrade is currently in predesign and scheduled for substantial completion in 2021.

#### **Rate Increase Reduces Future Debt**

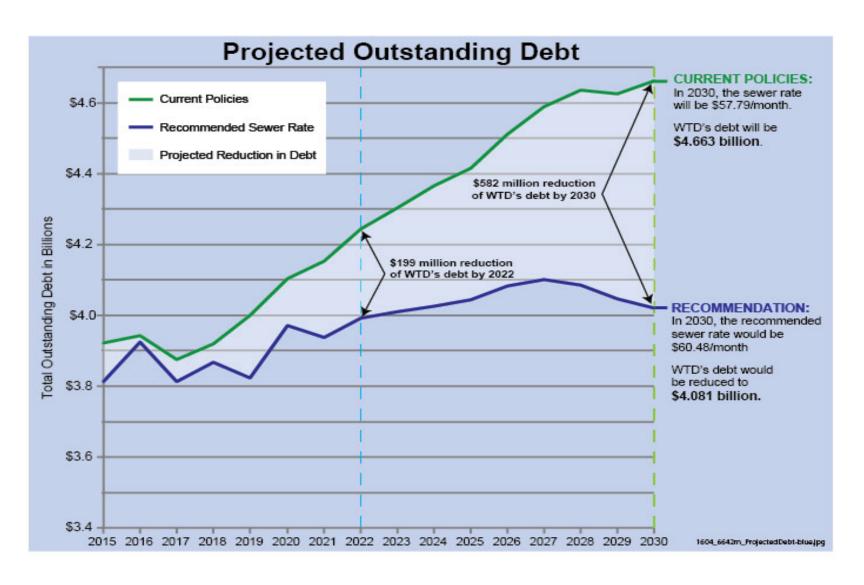

#### MWPAAC 2015 recommendation

- target1.40x debt service coverage ratio by 2030
- 3% annual rate increases through 2030,
- \$539 million debt reduction by 2030

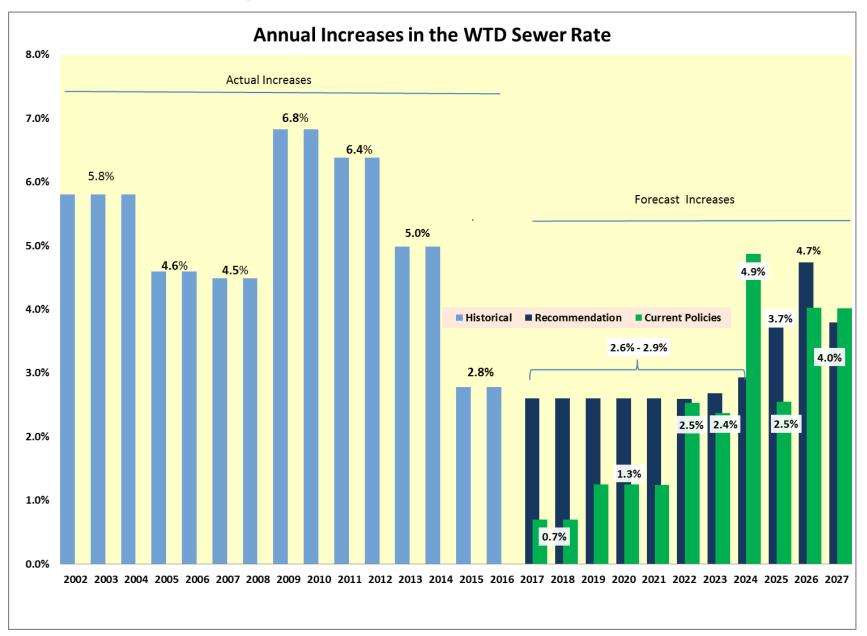

### Proposed debt practice changes

- Cash-fund, on average, 40% of the CIP
- Amortize variable rate debt starting in the 10<sup>th</sup> year prior to maturity
- 2.6% average annual rate increases through 2030
- \$582 million debt reduction by 2030

### Rate Increase Reduces Future Debt

### Rate stabilization

- Recognizes current revenues in future periods.
- Helps manage and stabilize rates
- Executive's proposal maintains a \$12 million balance from 2023

#### Rate Stabilization Reserve, 2015-2023 (\$ in millions)

|                   | 2015   | 2016   | 2017   | 2018   | 2019   | 2020   | 2021   | 2022   | 2023   |
|-------------------|--------|--------|--------|--------|--------|--------|--------|--------|--------|
| Beginning balance | \$34.3 | \$46.3 | \$46.3 | \$46.3 | \$43.8 | \$40.2 | \$32.3 | \$29.3 | \$19.9 |

| Ending balance    | \$46.3 | \$46.3 | \$46.3 | \$43.8 | \$40.2 | \$32.3 | \$29.3 | \$19.9 | \$12.0 |

## **Capacity Charge**

- New connections to system pay additional charge to support the creation of new capacity
- A monthly charge for 15 years or up-front with a 2.8 percent discount
- Capacity charge accounts for 15.1% of total revenue in 2015; expected to grow to 17.2% by 2022
- 2017 proposal is \$60.80, a 3.6 percent increase; \$8,974 paid up-front; \$10,944 over 15 years

## **2017 Capacity Charge Proposal**

|                                  | 2014            | 2015            | 2016            | 2017            | 2018            | 2019            | 2020            | 2021            | 2022            |

| Proposed Capacity Charge         | \$55.35         | \$57.00         | \$58.72         | \$60.80         | \$62.62         | \$64.50         | \$66.44         | \$68.43         | \$70.48         |
| <b>Total for New Connections</b> | \$95.14         | \$99.03         | \$100.75        | \$105.02        | \$106.84        | \$111.03        | \$112.97        | \$116.16        | \$119.45        |

### **Future Rate Outlook**

Rate projections for 2018 to 2022 indicate average annual increases of approximately 2.1% per year.

Factors that could impact projections:

- Ultimate resolution of Brightwater litigation recovery (\$144.3 million not factored into rates)
- Bond and investment interest rates
- Growth in RCEs and new connections
